

Recul De La Foret Au Viet Nam

Bernard A. Wolfer

Recul De La Foret Au Viet Nam:

Le recul de la forêt au Viet Nam Rodolphe de Koninck, 1997 *Recul de la forêt au Viet Nam* *Deforestation in Viet Nam* Rodolphe de Koninck, International Development Research Centre (Canada), 1999 This publication begins with an overview of the nature and magnitude of the deforestation problem in south east Asia and the related problem of loss of biodiversity Chapter 2 discusses the specific case of deforestation in Viet Nam and the possible factors involved Chapter 3 describes the implementation of a research project on the fundamental and instrumental causes of that deforestation with the hypothesis that agricultural expansion is the central instrument of deforestation in that country This is followed by presentation of the results of the research which focused on two provinces Tuyen Quang and Lam Dong Results presented and discussed include changes in land use changes in population and its distribution expansion of settlement the impact of firewood collection and commercial logging agricultural impacts and changes in biodiversity The final chapter discusses the magnitude of the challenge of deforestation in Viet Nam and suggests directions for further research

Communities, Livelihoods and Natural Resources International Development Research Centre (Canada), 2006 This book synthesizes results from a 7 year programme of applied research on community based approaches to natural resource management in Asia By presenting field reports of innovative approaches to poverty reduction and sustainable resource use it provides practitioners with models of good practice in participatory community based resource management and it demonstrates how site based research contributes to broader learning in the field of natural resource management and policy There are 11 case studies featured from some of the most marginal areas of rural China Mongolia Laos V

Rural Areas Between Regional Needs and Global Challenges Walter Leimgruber, Chang-yi David Chang, 2019-01-01 This book provides an up to date account of the many processes shaping and transforming rural space in various parts of the world The various case studies focus on the multi functionality of the rural world and the driving forces behind it The book demonstrates that rural areas are no longer simply characterized by an agricultural economy and instead accommodate multiple complementary activities It also touches upon two major changes that have taken place The first is the process of rururbanization which has led to the clear distinction between town and countryside becoming blurred urban traits have penetrated rural areas and rural traits have invaded towns The second change is that rural areas are increasingly seen as multi functional providers not only of food and other natural resources but also locations for the generation of renewable energy wind farms solar farms biogas and regions for the preservation of biodiversity These transformations have resulted in a new understanding and self image of rural areas and their populations

The Geography of Southeast Asia Thomas A. Rumney, 2010 This book discusses the varied geographical aspects of Southeast Asia an area that has long been of interest to geographers and other academics This collection identifies organizes and presents various scholarly publications on subjects ranging from cultural social geography economic geography historical geography physical geography political geography and urban geography

La colonisation

agricole au Viêt Nam Steve Déry, 2011-04-22T12:14:41-04:00 Depuis 1975 une colonisation agricole soutenue a littéralement bouleversé le paysage des montagnes et plateaux du Centre du Vietnam. Parmi les conséquences les plus forestières de cette région ont reculé un point tel que les forêts n'y apparaissent plus qu'il faut résider. Cette dynamique a permis au nouvel état moderne vietnamien issu des troubles politiques qui ont secoué la région de 1945-1975 de consolider sa présence partout sur son territoire en intégrant les populations et les territoires marginaux. *Sustaining Food Security and Managing Natural Resources in Southeast Asia*, 2002. Globalization and the Asian Economic Crisis Canadian Council for Southeast Asian Studies, Northwest Regional Consortium for Southeast Asian Studies, University of British Columbia. Centre for Southeast Asia Research, 2000. *L'Asie Du Sud-Est Face À la Mondialisation* Rodolphe de Koninck, Christine Veilleux, Université Laval. Groupe d'études et de recherches sur l'Asie contemporaine, Institut québécois des hautes études internationales, 1997.

Poverty Reduction and Shifting Cultivation Stabilisation in the Uplands of Lao PDR Bounthong Bouahom, 2004. Agricultures et paysanneries du monde Bernard A. Wolfer, 2010-05-18 Étudier des paysanneries du monde leurs territoires et les politiques publiques qui s'y appliquent c'est effectuer une analyse concrète des systèmes agraires et des systèmes politiques qui les soutiennent de leurs évolutions possibles dans un système mondial de plus en plus ouvert et donc conflictuel. Cet ouvrage illustre la diversité des formes d'agriculture la complexité des systèmes agricoles construits par des paysanneries aux histoires riches de savoir technique. Il s'interroge sur la place ou les places que l'agriculture et les paysanneries peuvent tenir dans nos sociétés.

Les forêts de Pinus khasya et de Pinus merkusii du Centre-Vietnam. Étude de la dynamique des sols en liaison avec celle de la végétation Nguyễn Kha, 1966-01-01T00:00:00+01:00 Cet ouvrage est une réédition numérisée d'un livre paru au XX^e siècle désormais indisponible dans son format d'origine.

Géographie et société Suzanne Laurin, Juan-Luis Klein, 2001-09-19T20:00:00-04:00 Jamais les concepts d'espace et de territoire n'ont été aussi présents. Jamais l'environnement n'a soulevé autant de débats. Jamais non plus n'a-t-on disposé d'outils de représentation du territoire aussi performants que les systèmes d'information géographique. Quelle est donc la place de l'analyse géographique dans la compréhension des grandes questions sociales de l'heure? Des géographes se sont penchés sur ce thème et ont analysé l'expertise du géographe, le rôle de la géographie et l'environnement. Les défis relevés par les jeunes géographes, la place de la géographie dans l'institution universitaire, les liens entre la technologie et la géographie, la géographie et la citoyenneté ainsi que la culture géographique.

L'Asie du Sud-Est - 4^e éd. Rodolphe de Koninck, 2019-09-04 Cet ouvrage véritable référence en géographie régionale examine en profondeur les fondements historiques des structures spatiales asiatiques et propose une analyse très fine et entièrement mise à jour de la dynamique des onze États qui composent l'Asie du Sud-Est aujourd'hui. Après un panorama de la trame spatiale des héritages propres à l'Asie du Sud-Est, l'ensemble des États sont étudiés selon des rapprochements comparatifs: les grands États archipels (les Philippines et l'Indonésie) dont s'est affranchi le Timor oriental; l'état double qui représente la Malaisie; les petits États milliardaires (la Cité de
