grew up after all with these gifted women around me conversing with entities neither you nor I could see it's just the memory of seeing trouble early in a courtship and remembering what it felt like one lone tear snaking down my face and my words all square and neat as I told him I love you but I see no future Or I did see a future and there was no happiness in it But with this man with Reed I never saw a blessed thing I never saw anything at all in the beginning If I had it would have been as shocking I'm sure as seeing blood on the moon I guess it's true what they say that you never see the bus that hits you
