British Engagement with Japan, 1854-1922 Antony Best, 2020-11-26 This book by a leading authority on Anglo Japanese relations reconsiders the circumstances which led to the unlikely alliance of 1902 to 1922 between Britain the leading world power of the day and Japan an Asian non European nation which had only recently emerged from self imposed isolation Based on extensive original research the book goes beyond existing accounts which concentrate on high politics strategy and simple assertions about the two countries similarities as island empires It brings into the picture cultural factors particularly the ways in which Japan was portrayed in Britain and ambivalent British attitudes to race and supposed European superiority which were overcome but remained difficulties It charts how the relationship developed as events unfolded including Japan's wars against China and Russia and in addition looks at royal diplomacy where the Japanese Court came eventually to be treated as a respected equal Overall the book provides a major reassessment of this important subject
