with human if not superhuman attributes that the appearance of this new volume by Mr C G D Roberts aroused in us a lively curiosity Mr Roberts is an old offender in the eyes of the naturalists and the question immediately rose had lie mended his ways in consequence of the scathing rebukes administered by those who believe that animals are not proper subjects for idealization Secretly it must be confessed we hoped he had not for we are still old fashioned enough to cherish fairytales and desire animal stories of the imaginative variety For a moment we feared that the shafts of the critics had struck home The incidents in the career of this particular fox says Mr Roberts in a prefatory note are not only consistent with the known characteristics and capacities of the fox family but there is authentic record of them all in the accounts of careful observers Immediately we had visions of foot notes textual references even of a critical bibliography But a few lines more and confidence returned As for any emotions which Red Fox may once in a great while seem to display these may safely be accepted by the most cautions as fox emotions not as human emotions Then after all there were to be emotions We hurriedly turned the page and plunged into one of the most delightful tales of wood life and wood craft we have come across in many a day It is simply the story of the career of a Canadian fox But as it is told with the whirring of insects in the calm summer air the crackling of branches snapping in the winter frost the meetings friendly and otherwise of the small folk and the great folk of the forest it is enough to send any healthy boy to the nearest patch of woods to study the ways of nature while in every man it must arouse pleasant memories of the days when he was a boy and lived in the fairyland which boys forget all too soon The Athenaeum is none too eulogistic when it says of Red Fox It has the fascination of a real jungle story without owing any apparent debt to Mr Kipling There are scores of touches of real nature touches only possible as the result of close and patient watching in the story of Red Fox s puppyhood and in such incidents as his captivity and hunting methods Even the staid Nation is moved to declare We accept Red Fox as the flower of his race even though he may belong to the order Compositae And with The Nation we would add that Mr Roberts appears to tell his story chiefly for its own sake but he impresses us quite as deeply as if he had tried to enforce it by didacticism We feel for instance with the rabbit and mink the barbarity of trapping and take the fox s point of view when we see the field of scarlet riders and bear the loud mouthed pack on the trail This last is the final incident of the tale and it leaves us with a strong hope that someday Mr Roberts will give us more of the adventures of Red Fox For we cannot believe that Red Fox will linger in the barren mountain regions He is certain ultimately to make his way back to the forests the meadows and the farms of the Ringwaak country And when he does return we shall expect to hear again of him and his mate and of Jabe Smith and the Boy The Literary Digest Volume 32 190 The Story of Red Fox A. J. J. D. Stein, 2013-02 The Story of the Red Fox is an illustrated short story for young children by illustrator and author AJ Stein This picture book has engaging and artistic images for very young children and an easy story to be read by ages 8 10 The Story of the Red Fox is a make believe story about a young wolf who is rejected by her family because she is different The young wolf wanders off one day and becomes lost in the desert but she finds new friends and makes a new life
