Red Scare Politics And The Federal Communications Commission 1941 196:

The Red Scare, Politics, and the Federal Communications Commission, 1941-1960 Susan L. Brinson, 2004-05-30

The Red Scare at the FCC started when James Lawrence Fly led the agency in many important decisions that were inspired by the New Deal. These decisions outraged both the broadcasting industry and politically conservative legislators causing them to accuse the FCC of Communist sympathies. This book analyzes the political transition taken by the FCC that turned it into an agency that fully participated in the Red Scare of the 1950s. This book analyzes many significant FCC cases and policies that have never been considered within the context of New Deal policymaking or its impact. This work is the first to look into the impact of the Red Scare on an executive agency. Its combination of new archival and behind the scenes information makes this book a great addition to the growing body of research on media history and regulation.

House, 1941 *Supplemental Report on Chain Broadcasting (October 11, 1941) ...* United States. Federal communications committee, 1941 *Red Scare* Regin Schmidt, 2004 The anticommunist crusade of the Federal Bureau of Investigation and

its legendary director J. Edgar Hoover during the McCarthy era and the Cold War has attracted much attention from historians during the last decades, but little has been known about the Bureau's political activities during its formative years. This work breaks new ground by tracing the roots of the FBI's political surveillance to the involvement of the Bureau's predecessor, the Bureau of Investigation (BI), in the nation's first period of communist hunting, the Red Scare after World War I. The book is based on the first systematic and comprehensive use of the early BI files from 1908 to 1922, which have only survived on difficult-to-read microfilms deposited in the National Archives, as well as numerous collections of personal papers. The FBI's political surveillance was not a result of popular hysteria, such as scholars used to claim, or a rational response to communist spying and the Cold War confrontation, such as a number of historians have recently argued. Instead, it was an integrated part of the attempt by the modern federal state, rooted in the Progressive Era, to regulate and control any organized opposition to the political, economic, and social order, such as organized labor, radical movements, and African

American protest The detailed reconstruction of the BI's role in the Red Scare during 1919 and 1920 shows that the federal intelligence officials played a crucial role in initiating the anticommunist hysteria in the United States Despite its small staff the BI was able to influence national events by exchanging information with a network of patriotic groups assisting local authorities in drafting antiradical legislation and prosecuting radicals and using congressional committees to spread its message The Bureau also strove to discredit the strike wave and race riots of 1919 as the work of communists The account also throws new light on such dramatic and controversial events as the Seattle General Strike the Centralia Massacre and the deportation of the famous anarchists Emma Goldman and Alexander Berkman The book shows how entrenched political surveillance had become by the early 1920s and how it continued until World War II and the Cold War Regin Schmidt PhD is a research fellow in the Department of History at the University of Copenhagen Selected for the Choice Outstanding Academic Books 2002 *Little 'Red Scares'* Professor Robert Justin Goldstein, 2014-04-28 Anti communism has long been a potent force in American politics capable of gripping both government and popular attention Nowhere is this more evident than the two great red scares of 1919-20 and 1946-54 the latter generally if somewhat inaccurately termed McCarthyism By focusing on the interim period between the two major red scares this volume makes clear that the lingering effects of 1919-20 and the gathering storm clouds of McCarthyism were clearly visible throughout the 20s and 30s In so doing the rationale and motivations for the red scares are contextualised as part of an evolving political narrative rather than as isolated bouts of hysteria exploding onto and then vanishing from the political landscape
