Empire of Culture Waiyee Loh, 2024-06-01 Empire of Culture brings together contemporary representations of Victorian Britain to reveal how the nation's imperial past inheres in the ways post imperial subjects commodify and consume culture in the late twentieth and early twenty first centuries The globalization of English literature along with British forms of dress etiquette and dining in the nineteenth century presumed and produced the idea that British culture is a universal standard to which everyone should aspire Examining neo Victorian texts and practices from Britain the United States Japan and Singapore from A S Byatt's novel Possession and its Hollywood film adaptation to Japanese Lolita fashion and the Lady Victorian manga series Waiyee Loh argues that the British heritage industry thrives on the persistence of this idea Yet this industry also competes and collaborates with the US and Japanese cultural industries as they too engage with the legacy of British universalism to carve out their own empires in a global creative economy Unique in its scope Empire of Culture centers Britain's engagements with the US and East Asia to illuminate fresh axes of influence and appropriation and further bring Victorian studies into contact with various sites of literary and cultural fandom *Asian Forms of the Nation* Stein Tonnesson, Hans Antlov, 2013-10-23 The general tendency among theorists in nationalism and national identity has been to assume that the modernization process in Asia and Africa is a kind of distorted reflection of a Western precedent Asian forms of the nation have rarely been seen as independent alternative models Among today's leading theoreticians there is a growing tendency to take Asia seriously and to include Asian examples in the general discussion The aim of the present collection is to build on and reinforce this tendency It does not postulate any specifically Asian form of the nation as opposed to a Western one Rather it seeks to demonstrate that in Asia as well as in Europe each nation forms a unique amalgam which can be compared fruitfully with others History culture and geography have posed various kinds of limits to what can be imagined as Benedict Anderson puts it The relationship between geographical space and national construction is explored in

A History of Malaysia Barbara Watson Andaya,Leonard Y. Andaya,2001-01-01 Malaysia s multicultural society supports one of the most dynamic economies in Asia This completely revised new edition of the standard text first published twenty years ago traces the history of the country from early times to the present day The authors give particular attention to the evolution of Malay polities and their close links with indigenous groups who lived on the oceans and in the deep jungles of the region from Sumatra to Borneo This provides the background to the establishment of the Malay port of Melaka which was conquered by the Portuguese in 1511 foreshadowing the establishment of a British colonial regime in the late nineteenth century Although the large numbers of Chinese and Indian migrants who arrived to work in the tin and rubber industries contributed to economic expansion colonial policies did not encourage communal interaction The authors trace the process by which post independence leaders in Malaya attempted to counter the legacy of ethnic hostility while answering Malay demands for an affirmation of their rights and a stronger commitment to Islam The incorporation of the Borneo states of Sarawak and Sabah into the Federation of Malaysia in 1963 rendered the goal of welding a nation from areas that were geographically separated and culturally disparate even more problematic The intense emotions attached to issues of race were made tragically evident in the racial riots of May 1969 which this book sees as a watershed in modern Malaysian history As Malaysia enters the twenty first century the government is determined to oversee the transition to an economy focused on manufacturing and advanced technology and to eliminate poverty and the association between occupation and race While several recent studies deal with the impact of colonial rule and Malaysia s spectacular economic transition this book is unique because it tracks developments from early times and identifies continuities as well as change Combining the authors specialist knowledge of precolonial sources with the most recent contemporary research this new edition reinforces the position of A History of Malaysia position as a standard reference for all those interested in the historical processes which led to the emergence of this culturally varied and economically energetic country Historical Companion to Postcolonial Literatures in English Prem Poddar,2019-08-07 This is the first reference guide to the political cultural and economic histories that form the subject matter of postcolonial literatures written in English The focus of the Companion is principally on the histories of postcolonial literatures in the Anglophone world Africa the Middle East South Asia South east Asia Australia and New Zealand the Pacific the Caribbean and Canada There are also long entries discussing the literatures and histories of those further areas that have also claimed the title postcolonial notably Britain East Asia Ireland Latin America and the United States The Companion contains 220 entries written by 150 acknowledged scholars of postcolonial history and

Yamashita's Ghost Allan A. Ryan, 2014-10-17 I don t blame my executioners I will pray God bless them So said General Tomoyuki Yamashita Japan s most accomplished military commander as he stood on the scaffold in Manila in 1946 His stoic dignity typified the man his U S Army defense lawyers had come to deeply respect in the first war crimes trial of World War II Moments later he was dead But had justice been served Allan A Ryan reopens the case against Yamashita to illuminate crucial questions and controversies that have surrounded his trial and conviction but also to deepen our understanding of broader contemporary issues especially the limits of command accountability The atrocities of 1944 and 1945 in the Philippines rape murder torture beheadings and starvation the victims often women and children were horrific They were committed by Japanese troops as General Douglas MacArthur s army tried to recapture the islands Yamashita commanded Japan s dispersed and besieged Philippine forces in that final year of the war But the prosecution conceded that he had neither ordered nor committed these crimes MacArthur charged him instead with the crime if it was one of having failed to control his troops and convened a military commission of five American generals none of them trained in the law It was the first prosecution in history of a military commander on such a charge In a turbulent and disturbing trial marked by disregard of the Army s own rules the generals delivered the verdict they knew MacArthur wanted Yamashita s lawyers appealed to the U S Supreme Court whose controversial decision upheld the conviction over the passionate dissents of two justices who invoked for the first time in U S legal history the concept of international human rights Drawing from the tribunal s transcripts Ryan vividly chronicles this tragic tale and its personalities His trenchant analysis of the case s lingering question should a commander be held accountable for the crimes of his troops even if he has no knowledge of them has profound implications for all military commanders *The Postwar Rapprochement of Malaya and Japan 1945-61* J.

Tomaru, 2000-06-05 The author analyses the development of postwar Malayo Japanese rapprochement from the resumption of unofficial economic relations to establishment of formal diplomatic relations which happened along with the return of British administration in Malaya and Malayan decolonisation The focus is placed on the role of Britain as the suzerain of Malaya in facilitating Japanese return to Malaya The motivations behind the keen promotion of rapprochement by Malayan and Japanese leaders through the exchange of Prime Ministerial visits are also closely discussed Trade and Society, the Amoy Network on the China Coast, 1683-1735 Chin-Keong Ng, 1983 The book examines the social and economic changes in south Fukien Fujian on the southeast coast of China during late imperial times Faced with land shortages and overpopulation the rural population of south Fukien turned to the sea in search of fresh opportunities to secure a livelihood With the tacit

support of local officials and the scholar gentry the merchants played the pivotal role in long distance trade and the commercial networks they established spanned the entire China coast making the port city of Amoy Xiamen a major centre for maritime trade In the work the author discusses four interrelated spheres of activity namely the traditional rural sector the port cities the coastal trade and the overseas trade links He argues that the creative use of clan organizations was key to the growth of the Amoy network along the coast as well as overseas *Networks of Rebellion* Paul Staniland,2014-04-18

Insurgent cohesion is central to explaining patterns of violence the effectiveness of counterinsurgency and civil war outcomes Cohesive insurgent groups produce more effective war fighting forces and are more credible negotiators organizational cohesion shapes both the duration of wars and their ultimate resolution In *Networks of Rebellion* Paul Staniland explains why insurgent leaders differ so radically in their ability to build strong organizations and why the cohesion of armed groups changes over time during conflicts He outlines a new way of thinking about the sources and structure of insurgent groups distinguishing among integrated vanguard parochial and fragmented groups Staniland compares insurgent groups their differing social bases and how the nature of the coalitions and networks within which these armed groups were built has determined their discipline and internal control He examines insurgent groups in Afghanistan 1975 to the present day Kashmir 1988 2003 Sri Lanka from the 1970s to the defeat of the Tamil Tigers in 2009 and several communist uprisings in Southeast Asia during the Cold War The initial organization of an insurgent group depends on the position of its leaders in prewar political networks These social bases shape what leaders can and cannot do when they build a new insurgent group Counterinsurgency insurgent strategy and international intervention can cause organizational change During war insurgent groups are embedded in social ties that determine they how they organize fight and negotiate as these ties shift organizational structure changes as well

Law and Society in Malaysia Andrew Harding,Dian A. H. Shah,2018-01-02 This book provides a systematic and interdisciplinary examination of law and legal institutions in Malaysia It examines legal issues from historical social and political perspectives and discusses the role of law in relation to Malaysian multiculturalism religion politics and society It shows how the Malaysian legal system is at the heart of debates about how to deal with the country s problems which include ethnic and religious divisions uneven and unsustainable development and political authoritarianism and it argues that the Malaysian legal system has much to teach other plural polities nations within the common law tradition and federal states

Networks beyond Empires Huei-Ying Kuo,2015-08-24 In *Networks beyond Empires* Kuo examines business and nationalist activities of the Chinese bourgeoisie in Hong Kong and Singapore between 1914 and 1941 The book argues that

speech group ties were key to understanding the intertwining relationship between business and nationalism. Organization of transnational businesses and nationalist campaigns overlapped with the boundary of Chinese speech group networks. Embedded in different political economic contexts, these networks fostered different responses to the decline of the British power, the expansion of the Japanese empire as well as the contested state building processes in China. Through negotiating with the imperialist powers and Chinese state builders, Chinese bourgeoisie overseas contributed to the making of an autonomous space of diasporic nationalism in the Hong Kong-Singapore corridor.
