Best. Generation. Ever. Aditya Jha, 2015-02-14 This book is written with the intention to underline the fact that India a country that is more commonly referred to as the country of youth the challenges that it has in hand and the ways in which we can combat these challenges Social media has emerged as a platform where young Indians have taken to express their views on political issues and social issues It has gradually become a place of many discussions where views and counterviews are presented and what this makes for is a much more aware and willing young India The very first step towards solving any problem is realizing there is one and the young India has taken that very step Through this book I look to bring about some perspective as to where we could possibly be going wrong and subsequently where we could possibly put our young bright Indian minds into a much effective use If we can have young minds from India making inroads in the IT and technology sector then why not in the political arena If Italy can have a prime minister aged just 39 then why can't India have a system similar where the young Indians could climb up the ladder of success in politics and still be under 40 The average age of an Indian politician is 65 years however the average age of an Indian is 24 years there's a contradiction between the two and if the perfect mix of experience and youth could merge into one and run the politics of India the future then definitely beholds a much more ideal India the very India that our forefathers dreamt of The young India is seeking a change and a change is a due process which takes time but it's the initiatives from individuals that matter The dream of our forefathers to have an India that is perfect hasn't as of yet been accomplished From corruption to cleanliness we've got array of issues at hand which must be sought to make the dream of a perfect India come true The young Indians are willing for a change to take place and this book highlights some very such moments from the decade gone by where the young Indians have come forward and stood for what's right Further this book also examines as to how this young India has all the potentials to be the best generation ever
