Kazushi Minami, 2024-03-15 In People's Diplomacy Kazushi Minami shows how the American and Chinese people rebuilt US China relations in the 1970s a pivotal decade bookended by Richard Nixon's 1972 visit to China and 1979 normalization of diplomatic relations Top policymakers in Washington and Beijing drew the blueprint for the new bilateral relationship but the work of building it was left to a host of Americans and Chinese from all walks of life who engaged in people to people exchanges After two decades of estrangement and hostility caused by the Cold War these people dramatically changed the nature of US China relations Americans reimagined China as a country of opportunities irresistible because of its prodigious potential while Chinese reinterpreted the United States as an agent of modernization capable of enriching their country and rejuvenating their lives Drawing on extensive research at two dozen archives in the United States and China People's Diplomacy redefines contemporary US China relations as a creation of the American and Chinese people **The Criminal**

Process in the People's Republic of China, 1949-1963 Jerome Alan Cohen, 1968 This volume represents the fruits of a preliminary inquiry into one aspect of contemporary Chinese law the criminal process Investigating what he calls China's legal experiment Mr Cohen raises large questions about Chinese law Is the People's Republic a lawless power arbitrarily disrupting the lives of its people Has it sought to attain Marx's vision of the ultimate withering away of the state and the law Has Mao Zedong preferred Soviet practice to Marxist preaching If so has he followed Stalin or Stalin's heirs To what extent has it been possible to transplant a foreign legal system into the world's oldest legal tradition Has the system changed since 1949 What has been the direction of that change and what are the prospects for the future Today immense difficulties impede the study of any aspect of China's legal system Most foreign scholars are forbidden to enter the country and those who do visit China find solid data hard to come by Much of the body of law is unpublished and available only to officialdom and what is publicly available offers an incomplete idealized or outdated version of Chinese legal processes Moreover popular publications and legal journals that told much about the regime's first decade have become increasingly scarce and

uninformative In order to obtain information for this study Mr Cohen spent 1963-64 in Hong Kong interviewing refugees from the mainland and searching out and translating material on Chinese criminal law From the interviews and published works he has endeavored to piece together relevant data in order to see the system as a whole The first of the three parts of the book is an introductory essay providing an overview of the evolution and operation of the criminal process from 1949 through 1963 The second part constituting the bulk of the book systematically presents primary source material including excerpts from legal documents policy statements and articles in Chinese periodicals In order to show the law in action as well as the law on the books the author has included selections from written and oral accounts by persons who have lived in or visited the People's Republic Interspersed among these diverse materials are Mr Cohen's own comments questions and notes Part III contains an English-Chinese glossary of the major institutional and legal terms translated in Part II a bibliography of sources and a list of English language books and articles that are pertinent to an understanding of the criminal process in China

The Raider Stephen R. Platt, 2025-05-13 The extraordinary life of forgotten World War II hero Evans Carlson commander of America's first special forces secret confidant of FDR and one of the most controversial officers in the history of the Marine Corps who dedicated his life to bridging the cultural divide between the United States and China He was a gutsy old man A corker said another You couldn't find anyone better They talked about him in hushed tones This Major Carlson wrote one of the officers in a letter home is one of the finest men I have ever known These were the words of the young Marines training to be among the first U.S. troops to enter the Second World War and the Major Carlson they spoke of was Evans Carlson a man of mythical status even before the war that would make him a military legend By December of 1941 at the age of forty-five Carlson had already faced off against Sandinistas in the jungles of Nicaragua and served multiple tours in China where he embedded with Mao's Communist forces during the Sino-Japanese War Inspired by their guerilla tactics and their collaborative spirit which he'd call gung ho introducing the term to the English language and driven by his own Emersonian ideals of self-reliance Carlson would go on to form his renowned Marine Raiders the progenitors of today's special operations forces who fought behind Japanese lines on Makin Island and Guadalcanal showing Americans a new way to do battle In The Raider Cundill Prize-winning historian Stephen R. Platt gives us the first authoritative account of Carlson's larger-than-life exploits the real story based on years of research including newly discovered diaries and correspondence in English and Chinese with deep insight into the conflicted idealism about the Chinese Communists that would prove Carlson's undoing in the McCarthy era Tracing the rise and fall of an unlikely American war hero The Raider is a story of exploration of cultural misunderstanding and of one man's awakening to the sheer breadth of the world

The China Hands' Legacy Paul Gordon Lauren, 2019-06-18 A group of American Foreign Service officers and journalists in China during and after World War II collectively known as the China Hands were accused of disloyalty and in some cases treason for reporting on events as they saw them Faced with the ethical dilemma of what a public official's responsibility is when one believes one's government's

How the “Red Star” Rose Ishikawa Yoshihiro, 2022-01-30 The fact that Snow did not sneak into red China to gather information constituting the basis of his Red Star over China all alone is in many instances misunderstood even by scholars Mao Zedong's biography has been the subject of an international mountain of commentary in China and elsewhere Biographies praising Mao and those slandering him are all based on the American journalist Edgar Snow's 1905-1972 account in Red Star over China for the route Mao traveled from early childhood through his youth How the Red Star Rose introduces the image of Mao and the biographical information made known to the world through the publication of Red Star and with its publication the circumstances which they fundamentally undermined Ishikawa Yoshihiro uses Mao Zedong as raw material to examine from whence and how ordinary historical information and images which we habitually use unconsciously come into being He desires to help readers to reconsider the historicity of the generation of not only Mao's image but of that of historical materials With a title that evokes Gao Hua's seminal study of Mao Zedong's rise in the Chinese Communist Party Ishikawa Yoshihiro asks two critical questions What did the world know of Mao before the publication of Edgar Snow's Red Star over China How did Red Star change that understanding With the meticulous research careful documentation and fair minded judgment that characterizes all of Ishikawa's work he shows how little even Moscow and the Communist International knew about Mao before 1936 This study is full of unexpected insights into the origins of early visual images of Mao the background to Snow's historic trip to northern Shaanxi and the evolution of the classic study that he left In a world where balanced judgment of the rise of Mao is increasingly difficult to find Ishikawa's scholarship stands out as a rare model of judicious balance Joseph W Esherick Emeritus Professor Hwei chih and Julia Hsiu Chair in Chinese Studies University of California San Diego This book is first an exquisite excavation on the enabling infrastructures in the writing and publishing of one of the most iconic works in journalistic interviews in the 20th century a text that broke through a wall of intelligence blockade to give to the world in an autobiographical voice and with a striking image the debut of the revolutionary Mao while holed up in a mountain base area It is in addition a history of the reading of the book in multiple languages including Chinese that is indexed to the rise of the Mao cult thereafter Ishikawa captures a moment of a past gearing up in anticipation of a future that never came This book is a must read for all with an interest in Mao journalism and the history of books Wen hsin Yeh Richard H and Laurie C Morrison Chair Professor in History University of California Berkeley Ishikawa offers a challenging reflection on how historical information and images that we take for granted come into being through the twin case studies of images of Mao Zedong before Edgar Snow's famous biography in 1936 and then how Snow's images of Mao were translated and transmuted into Chinese Russian and Japanese Joshua Fogel's careful translation brings this impeccable example of Japanese sinology to the English reading public Timothy Cheek Professor and Louis Cha Chair in Chinese Research University of British Columbia **Area Handbook for the People's Republic of China** Donald P. Library, 1964 **Archival Resources of Republican China in North America** Chengzhi Wang, Su Chen, 2015-12-08 North America maintains the largest collection of archival materials relating to the Chinese Republican era 1911-1949 outside of China. Most of the archival materials are also unique and the collections contain special materials supplementing historical records in China and Taiwan. In many cases, North America's holdings represent the best and only public access to the tumultuous Republican government and society of the first half of the twentieth century. An essential guide for researchers and students of Republican China, this volume presented in both English and Chinese covers personal papers, correspondences, memoirs, diaries, photographs, moving images, and other materials held at academic and research institutions across the United States and Canada. It includes concise descriptions of the people, organizations, and events connected to each entry and notes when certain collections are closely related and when materials are digitized for online access. The book corrects common errors associated with the library records of many archives and updates or completes information on the objects of these records. More than a straightforward itemization, this book adds significant depth to any research on the history and global impact of China's modern development.
