Merskin, 2011 Foundations Introduction Constructing categories of difference Minorities meaning and mass media Articulations of difference The articulation of difference Country music and redneck woman The construction of Arabs as enemies Perpetuation of the hot Latina stereotype in *Desperate Housewives* Commodified racism brand images of Native Americans The pornographic gaze in mainstream American magazine and fashion advertising Women lipstick and self presentation Sun also rises Stereotypes of the Asian American woman on *Lost* Coon songs the Black male stereotype in popular American sheet music 1850 1920 Homosexuality and horror the lesbian vampire film Television news coverage of Day without an immigrant **Critics Not Caretakers** Russell T. McCutcheon, 2023-11-30 The essays collected together in *Critics Not Caretakers* argue that the study of religion must be rethought as an ordinary aspect of social historical existence a stance that makes the scholar of religion a critic of cultural and historical practices rather than a caretaker of religious tradition or a font of timeless wisdom and deep meaning The book begins with several essays that outline the basis of an alternative sociorhetorical approach to studying religion before moving on to a series of discrete dispatches from the ongoing theory wars each of which uses the work of such writers as Karen Armstrong Walter Burkert Benson Saler and Jacob Neusner as a point of entry into wider theoretical issues of importance to the field's future The author then examines the socio political role of this brand of critical scholarship a role that differs dramatically from the type of sympathetic caretaking generally associated with scholars of religion who feel compelled to go public Concluding the work is a consideration of how scholars as teachers can address issues of theory

method and critical thinking in a variety of undergraduate classrooms the location where they have always been publicly accountable intellectuals The new edition of this still read and for some controversial book preserves the original essays but includes a new opening chapter and new introductory commentaries across all of the chapters to demonstrate how little the field has changed since the volume was first published in 2001 Accordingly the book continues to provide a viable alternative for those wanting to take a more critical approach to the study of religion
