Red Meat Gold:

Red Meat Gold Max Cannon, 2005-04-02 Featuring a disturbing yet hilarious cast of characters Red Meat Gold is the third demented collection from the popular syndicated alternative paper comic strip artist **Nuggets of Gold** Patrick Dixon, 2024-10 For McDonald's the Chicken McNugget the flagship product of further processed chicken represented a once in a generation innovation a snack item that quickly evolved into a meal spawned a legion of imitators and gained a large share of the global poultry market Yet almost as soon as the McNugget made its North American debut it quickly became the subject of opprobrium and ridicule taking on a symbolic status among serious food connoisseurs as an indication of Americans culinary decline and a growing disconnection between diners and the origins of the food that they ate During a time of rising beef prices and growing health concerns regarding red meats the Chicken McNugget was received as a lighter alternative to traditional burger meals clean and easy to consume popular with children and adaptable to busy on the go lifestyles of working parents Consumers understood that they were not purchasing a premium product made from the finest cuts but selected the McNugget as a rational economic purchase that represented a new way of dining In reassembling the rise of poultry in the United States Nuggets of Gold presents a multilayered approach connecting the entwined stories of workers and industrialists with restaurateurs and consumers the former geographically moored within the South the latter diverse and nationwide Patrick Dixon centers further processed chicken within an analysis of the U S food system that demonstrates that consumers did not unwittingly succumb to a junk food diet but made deliberate and aspirational decisions based on conceptions of leisure lifestyle and bodily needs **This Life's Tempestuous Sea** Douglas Charles Toland, 2013-06-20 In a weak moment I have written a book Margaret Mitchell This book is a multilayered creation that touches on a wide array of topics many of them drawn from personal experiences Indeed you the lucky reader will be blessed with enough material for at least three books within one cover Why would I want to write such a multi themed book It wasn't my original intention Maybe I've learned an important lesson and won't do so next time Like many older folks I wanted to share what I have learned to be true and useful and couldn't seem to stay with a single topic I've lived long enough to confirm an important realization the gleanings from a well lived life are at least as important as knowledge gained vicariously through reading and classroom attendance But I think most people don't fully appreciate the value of their life lessons and end up taking most of them to the grave I want to counter that pattern and use this book to share as many of my gleanings as I can I also recognize several imminent dangers facing this nation and our planet and feel compelled to share these concerns Just as important I want my wife children and grandchildren to know more about who I was and who I've come to be I hope they will have occasions to use some of my wisdom *100 classic detectives. evoke the most dramatic era of westward migration Traditional histories of the overland roads paint the gold rush migration as a heroic epic of progress that opened new lands and a continental treasure house for the advancement of civilization Yet according to Bagley the transformation of the American West during this period is more complex and contentious than legend pretends The gold rush epoch witnessed untold suffering and sacrifice and the trails and their trials were enough to make many people turn back For America s Native peoples the effect of the massive migration was no less than ruinous The impact that tens of thousands of intruders had on Native peoples and their homelands is at the center of this story not on its margins Beautifully written and richly illustrated with photographs and maps With *Golden Visions Bright Before Them* continues the saga that began with Bagley s highly acclaimed award winning *So Rugged and Mountainous Blazing the Trails to Oregon and California 1812 1848* hailed by critics as a classic of western history **Bulletin** Missouri.
