The Afterlife of Used Things Ariane Fennetaux, Amélie Junqua, Sophie Vasset, 2014-10-03 Recycling is not a concept that is usually applied to the eighteenth century. The environment may not have existed as a notion then yet practices of re use and transformation obviously shaped the early modern world. Still this period of booming commerce and exchange was also marked by scarcity and want. This book reveals the fascinating variety and ingenuity of recycling processes that may be observed in the commerce, crafts, literature and medicine of the eighteenth century. Recycling is used as a thought provoking means to revisit subjects such as consumption, the new science or novel writing and cast them in a new light where the waste of some becomes the luxury of others. Clothes worn to rags are turned into paper and into books and scientific breakthroughs are carried out in old kitchen pans.

The British Country House in the Eighteenth Century Christopher Christie, 2000 This work explores the British country house between 1700-1830 and looks at the lives of the noblemen and the servants who inhabited them. Reference is made to the whole of the British Isles and there is a discussion of their political significance.
