Top Screwups Doctors Make and How to Avoid Them Joe Graedon,Teresa Graedon,2011 A primary care doctor is skeptical of his patient s concerns A hospital nurse or intern is unaware of a drug s potential side effects A physician makes the most common diagnosis while overlooking the signs of a rarer and more serious illness and the patient doesn t see the necessary specialist until it s too late A pharmacist dispenses the wrong drug and a patient dies as a result Sadly these kinds of mistakes happen all the time Each year 6 1 million Americans are harmed by diagnostic mistakes drug disasters and medical treatments A decade ago the Institute of Medicine estimated that up to 98 000 people died in hospitals each year from preventable medical errors And new research from the University of Utah HealthGrades of Denver and elsewhere suggests the toll is much higher Patient advocates and bestselling authors Joe and Teresa Graedon came face

to face with the tragic consequences of doctors screwups when Joe's mother died in Duke Hospital one of the best in the world due to a disastrous series of entirely preventable errors. In *Top Screwups Doctors Make and How to Avoid Them* the Graedons expose the most common medical mistakes from doctor's offices and hospitals to the pharmacy counters and nursing homes. Patients across the country shared their riveting horror stories and doctors recounted the disastrous and sometimes deadly consequences of their colleagues' oversights and errors. While many patients feel vulnerable and dependent on their health care providers, this book is a startling wake-up call to how wrong doctors can be. The good news is that we can protect ourselves and our loved ones by being educated and vigilant medical consumers. The Graedons give patients the specific practical steps they need to take to ensure their safety: the questions to ask a specialist before getting a final diagnosis, tips for promoting good communication with your doctor, presurgery checklists, how to avoid deadly drug interactions, and much more. Whether you're sick or healthy, young or old, a parent of a young child or caring for an elderly loved one, *Top Screwups Doctors Make and How to Avoid Them* is an eye-opening look at the medical mistakes that can truly affect any of us and an empowering guide that explains what we can do about it. **Lymelight** Linda Wortell, 2013-10-18

Following a normal day in the life of our fourteen-year-old daughter's school extracurricular activities and homework came a quiet night's sleep. However, Grace's world was profoundly changed as she awoke with a severe debilitating headache and total memory loss. We promptly sought medical attention, ruling out a stroke, drugs, seizures, encephalitis, meningitis, and tumors. Immediately, family and friends gathered to pray at Grace's bedside. Every single test was negative. I recall saying, "I'm not sure how long this journey will be, short or long, but this will be a journey of faith." Fervently, we prayed for guidance and patience. All of our strength and stamina were needed to face each minute of every day that followed, but Our Lord was indeed carrying us through. As we taught our daughter each step of the way, she was able to relearn any information. But where was everything she had learned in the past fourteen years? God provided the loving Christian friends and family who provided company for Grace, made meals, and prayed. God was guiding us and supporting us during this mysterious time. Our journey was not simple for God did not intend it to be. Therefore, do not worry about tomorrow; for tomorrow will worry about itself. Each day has enough trouble of its own. Matthew 6:34

In the Crucible of Chronic Lyme Disease Kenneth B. Liegner M.D., 2015-10-08. Following completion of his medical training and a one-year stint as attending physician on Howard Champion's Surgical Critical Care Service and MedStar Unit at Washington Hospital Center in the District of Columbia, Kenneth Liegner M.D. returned to Westchester County, home of his Alma Mater New York Medical College, to start a private practice. Unwittingly, he had plunked himself down in the heart of a burgeoning epidemic of Lyme disease. His patients confronted him with puzzling syndromes that defied tidy formulations of the illness and thrust him in to a maelstrom of medical controversy. Lyme disease, a new poorly understood disease, emerged hand in hand with the rise of managed care. Physicians caring for persons with Lyme disease, loyal to the Hippocratic Oath and serving what they saw as patients' best

medical interests found themselves on a collision course with a new Corporate Medical Ethic dedicated to maximizing profit One practitioner s work over 25 years is presented here along with correspondence with many principals in the field Documentational in nature and not written as a narrative the materials nonetheless convey the intensity of the struggle to characterize the nature of Lyme disease and the desperate fight for proper diagnosis and treatment upon the outcome of which patients very lives depended The volume includes protocols useful as reference materials for patients and practitioners alike as well as photographic images of many persons important in the history of Lyme disease Foreword by Pam Weintraub Senior Editor of aeon digital magazine and author of award winning book Cure Unknown Inside the Lyme Epidemic Preface by Paul W Ewald Professor of Evolutionary Biology at the University of Louisville and author of Plague Time **Conn's Current Therapy 2010 E-Book** Edward T. Patterson, 2017-02-01 Markets run on information Buyers make decisions by relying on their knowledge of the products available and sellers decide what to produce based on their understanding of what buyers want But the distribution of market information has changed as consumers increasingly turn to sources that act as intermediaries for information companies like Yelp and Google Antitrust Law in the New Economy considers a wide range of problems that arise around one aspect of information in the marketplace its quality Sellers now have the ability and motivation to distort the truth about their products when they make data available to intermediaries And intermediaries in turn have their own

incentives to skew the facts they provide to buyers both to benefit advertisers and to gain advantages over their competition Consumer protection law is poorly suited for these problems in the information economy Antitrust law designed to regulate powerful firms and prevent collusion among producers is a better choice But the current application of antitrust law pays little attention to information quality Mark Patterson discusses a range of ways in which data can be manipulated for competitive advantage and exploitation of consumers as happened in the LIBOR scandal and he considers novel issues like confusopoly and sellers use of consumers personal information in direct selling Antitrust law can and should be adapted for the information economy Patterson argues and he shows how courts can apply antitrust to address today s problems
