M Thinking Revolutionise Your Business Revolutionise Your Life:

M Thinking Phil Merrick, 2005-08-01 Have you ever wondered why some people are more successful than others Have you ever wondered why on some days things go really well and yet on other days everything goes horribly wrong Why do some people seem to be luckier than others Why do businesses fail even though they are run by intelligent people The answer lies in the fact that everything in our lives is a force and everything that we do is influenced by those forces Whether we are successful and happy will depend entirely on how well we manage those forces Making sure the right forces are in play getting them to work for us not against us making them as strong as possible and making sure we influence them instead of letting them influence us is the secret of success The most important forces in anyone's life are people From birth we are influenced by what other people think do and say and it is only natural that this continues as we progress into adulthood But how much of our lives do we actually influence ourselves How much of what we do is dictated by someone else Learn to see everything and everyone as a force and learn to control your forces instead of letting them control you M thinking is a concept a mindset a management model will change the way you think about things and the way in which you make decisions will change the way you see people will enable you to identify and take control of the forces that influence what you do is easy to understand and simple to put into practice can be used for just about any situation in both your personal life and your business life can be used for high level conceptual thinking or detailed analysis work will change your life your attitude and your approach to the way you do things
