differences between these two innovations They both sparked the quantitative expansion of literacy and the spread of knowledge around the world However the emergence of electronic publishing especially in its present day social media forms has brought a vast increase in the consumption of information while also heralding a qualitative transformation that places the tools of wireless and mobile multimedia publishing into the hands of billions of people on earth Much in the same way that there was a historical lag between Gutenberg s invention and the full impact of printing on the world so too in our own time the long term societal consequences of electronic publishing have yet to be realized *On the Blunt Edge* Shane Borrowman,2011-12-22 *On the Blunt Edge* Technology in Composition s History and Pedagogy tells the stories of composition s techno history from the roads of the ancient world which allowed students to travel to school to the audio visual aids that populate the classrooms of the modern world Computers are only a small part of this discussion a technological Johnny come lately in a long running pedagogical palaver **Job Queues, Gender Queues** Barbara F.
