Managing Problems Of Antiproliferation Regimes In The 1990s:

Managing Non-proliferation Regimes in the 1990s Peter van Ham, 1993 From the Middle East to the Far East proliferation issues are of increasing concern as suspicious grow that more states are working covertly to acquire weapons of mass destruction and their delivery systems This book focuses on operation and management of the series of control regimes covering nuclear chemical and biological weapons and ballistic missiles that have been put in place to restrict such proliferation This study analyzes how these regimes work today and how they relate to the Co ordinating Committee on Multilateral Controls originally established to restrict the flow of defence related technology to the Soviet Union and its allies It then explores how these regimes could be strengthened and better co ordinated *Political Science Abstracts* IFI/Plenum Data Company staff, 2013-11-11 *Political Science Abstracts* is an annual supplement to the Political Science Government and Public Policy Series of The Universal Reference System which was first published in 1967 All back issues are still available

Managing Global Challenges Stephan Mergenthaler, 2015-06-09 The book provides an in depth analysis of EU China cooperation mechanisms with a focus on efforts to jointly address global challenges It zooms in on the cooperation mechanisms for addressing three specific global challenges that rank high on the bilateral agenda mitigating climate change controlling nuclear non proliferation and addressing the poverty insecurity nexus From this empirical analysis the book assesses the characteristics and challenges of the EU s emerging network diplomacy model of dealing with strategic external relations

The Future of the International Nuclear Non-Proliferation Regime Marianne van Leeuwen, 2023-10-20 The 1995 conference on the review and extension of the Nuclear Non Proliferation Treaty may well mark an important turning point The treaty itself but also the wider international regime built around it are at stake The Future of the International Nuclear Non Proliferation Regime deals with various aspects of the problems of nuclear proliferation and the international struggle against it Authors from Europe the United States and Australia have contributed to this book which was produced under the auspices of the Netherlands Institute of International Relations Clingendael The reader is first offered regional case studies on North Korea South Asia the Middle East and the former Soviet Union followed by chapters on nuclear safeguards and export controls systems and contributions on a Comprehensive Test Ban Treaty and security guarantees The two concluding chapters evaluate and propose policies to strengthen the non proliferation regime beyond 1995 It will be of interest to policy makers students of international relations and journalists

The Challenges of Nuclear Non-Proliferation Richard Dean Burns, Philip E. Coyle, 2015-03-12 The Challenges of Nuclear Non Proliferation is an exhaustive survey of the many aspects of non proliferation efforts It explains why some nations pursued nuclear programs while others abandoned them as well as the challenges strengths and weaknesses of non proliferation efforts It addresses key issues such as concerns over rogue states and stateless rogues delivery systems made possible by technology and the connection between nuclear weapons and ballistic missiles examining whether non proliferation regimes can deal with these

threats or whether economic or military sanctions need to be developed It also examines the feasibility of eliminating or greatly reducing the number of nuclear weapons A broad survey of one of today's great threats to international security this text provides undergraduates students with the tools needed to evaluate current events and global threats *Proliferation and Arms Control in the 1990's* United States. Congress. House. Committee on Foreign Affairs. Subcommittee on Arms Control, International Security, and Science,1993 Arms Trade and Nonproliferation: September 21, 1990 and April 23, 1991 United States. Congress. Joint Economic Committee. Subcommittee on Technology and National Security,1992

Parameters ,1995 **Regional Security Regimes** Efraim Inbar,2012-02-01 This volume of original articles explores political and military arrangements that could lead to a more peaceful relationship between Israel and its neighbors It advocates the establishment of a security regime in the Arab Israeli region that would foster moderation and cooperation and reduce the chances of interstate violence and it investigates ways to bring about such a regime The authors demonstrate that various peacekeeping arrangements that have been somewhat successful during the Arab Israeli conflict could provide bases on which to build effective security regimes In addition they address American and UN roles arms control the impact of water issues and the effect of Arab culture Contributors to the volume include Yaacov Bar Siman Tov Gil Feiler Adam Garfinkle Aharon Klieman Robert J Lieber Charles Lipson Amikam Nachmani Shmuel Sandler and Gerald Steinberg

Nuclear Scholars Initiative Sarah Weiner,2014-01-27 The 2013 class of Nuclear Scholars selected from a very competitive applicant pool contained some of the best and brightest young professionals in the nuclear field Drawn from graduate programs the national labs the civil service and the U S military these Nuclear Scholars participated in six monthly workshops that focused on a wide range of nuclear topics These topics included extended deterrence and assurance stockpile stewardship nuclear materials security Iranian and North Korean proliferation international nonproliferation norms and treaties missile defense and nuclear targeting The program culminated in a final meeting at which the Nuclear Scholars presented their own research to a panel of senior experts The papers resulting from these presentations are contained in this year's volume *Sanctions for Nuclear Disarmament and Non-Proliferation* Armend Bekaj,Peter Wallenstein,2024-09-02 This book examines the interplay between sanctions and nuclear disarmament and non proliferation The volume aims to tackle three separate but closely intertwined issues It aims to revisit the debate on and deconstruct the concept of sanctions to provide a working theoretical framework to differentiate between positive sanctions or incentives or carrots and negative sanctions to identify the actors who may initiate sanctions i.e states regional and or international organizations to ascertain the legality and legitimacy of such sanctions taking place to problematize and discuss the utility of sanctions and so on It aims to disentangle the concepts of nuclear disarmament and non proliferation particularly in light of the most recent geopolitical global shifts on nuclear powers interplay taking place in the background of the war in Ukraine and rising tensions in Southeast Asia and so on Finally it aims to conjoin the cause and effect cases between the application of sanctions

on the one hand and the decision by states to pursue nuclear disarmament and non proliferation on the other By doing so the volume helps to update and stimulate the academic and policy debate on the inter relation between sanctions and nuclear disarmament and non proliferation This book will be of much interest to students of nuclear non proliferation economic sanctions security studies and International Relations The Politics of Ballistic Missile Nonproliferation W.

Bowen,2000-01-20 During the presidency of George Bush 1989 93 the proliferation of nuclear chemical and biological weapons and the ballistic missiles capable of delivering them rose greatly in significance as issues on the American security agenda In the missile field this became evident by the efforts of certain elements in the executive branch and several congressmen to improve domestic and international implementation of the Missile Technology Control Regime The Politics of Ballistic Missile Nonproliferation examines the political bureaucratic and systemic issues that interacted to determine the outcome of these efforts **U.S. Arms Control and Disarmament Agency 1990 and 1991 Annual Reports** United

States. Arms Control and Disarmament Agency,1993 **Brazil in the Global Nuclear Order, 1945-2018** Carlo Patti,2021-12-14 The first comprehensive and definitive history of Brazil s decision to give up the nuclear weapon option Why do countries capable of going nuclear choose not to Brazil which gained notoriety for developing a nuclear program and then backtracking into adherence to the nonproliferation regime offers a fascinating window into the complex politics surrounding nuclear energy and American interference Since the beginning of the nuclear age author Carlo Patti writes Brazil has tried to cooperate with other countries in order to master nuclear fuel cycle technology but international limitations have constrained the country s approach Brazil had the start of a nuclear program in the 1950s which led to the United States interfering in agreements between Brazil and other countries with advanced nuclear industries such as France and West Germany These international constraints especially those imposed by the United States partly explain the country s decision to create a secret nuclear program in 1978 and to cooperate with other countries outside the Nuclear Non Proliferation Treaty NPT regime such as Argentina and China Yet in 1998 Brazil chose to adhere to the Nuclear Non Proliferation Treaty it so actively opposed only three decades prior although the country still critiques the unfair nature of the treaty Patti draws on recent declassified primary sources collected during years of research in public and private archives in eight different countries as well as interviews with former presidents diplomats and scientists to show how US nonproliferation policies deeply affected Brazil s decisions Assessing the domestic and international factors that informed the evolution of Brazil s nuclear diplomacy Brazil in the Global Nuclear Order 1945 2018 also discusses what it means with respect to Brazil s future political goals
