Methods Of Mysticism:

Exploring Mysticism Frits Staal, 2023-09-01 Until less than a century ago the two prevailing views of dreams as well as of souls were that they are inconsequential the scientific view or of divine origin the religious view In either case it was assumed that they cannot be objects of rational inquiry Similar views still prevail regarding mystical experiences and mysticism in general Modern Western opinion whether friendly or hostile holds that the mystical falls squarely within the domain of the irrational Mr Staal argues that mysticism can be studied rationally and that without such study no theory of mind is complete He exposes the grounds for the belief that mysticism cannot be studied and shows them to be prejudices issuing from a particular historical development While his contention has unflattering implications for the contemporary study of the humanities in general it reveals in particular that existing academic approaches to the study of mysticism even those that appear sound are in fact inadequate This conclusion applies to a variety of dogmatic inquiries and as becomes clear in these pages to philological historical phenomenological sociological physiological and psychological ones as well The illustrations in *Exploring Mysticism* are drawn mainly from Indian forms of mysticism such as Yoga supplemented with Buddhist Taoist Muslim and Christian examples Until less than a century ago the two prevailing views of dreams as well as of souls were that they are inconsequential the scientific view or of divine origin the religious view In either case it was assumed that they cannot be objects of rational

Imagery Techniques in Modern Jewish Mysticism Daniel Reiser, 2018-07-09 This book analyzes and describes the development and aspects of imagery techniques a primary mode of mystical experience in twentieth century Jewish mysticism These techniques in contrast to linguistic techniques in medieval Kabbalah and in contrast to early Hasidism have all the characteristics of a full screenplay a long and complicated plot woven together from many scenes a kind of a feature film Research on this development and nature of the imagery experience is carried out through comparison to similar developments in philosophy and psychology and is fruitfully contextualized within broader trends of western and eastern mysticism

The Methods of Science and Religion Tiddy Smith, 2019-07-05 Tiddy Smith argues that the conflict between science and religion is ultimately a disagreement about what kinds of methods we should use for investigating the world Specifically scientists and religious folk disagree over which belief forming methods are reliable In the course of justifying any scientific claim scientists typically appeal to methods which generate agreement between independent investigators and which converge on the same answers to the same questions In contrast religious claims are typically justified by methods which neither generate agreement nor converge in their results for example dreams visions mystical experiences etc This fundamental difference in methodologies can neatly account for the conflict between science and religion

Methods of Private Religious Living Henry Nelson Wieman, 1929 **The Mystical Science of the Soul** Jessica A. Boon, 2012-01-01 Ultimately I propose that considering internalization as embodiment is a critical methodological shift in understanding mystical methods in general and especially for probing recollection mysticism in depth The inner man as opposed to the outer man is a Pauline and Lutheran commonplace that is too frequently taken out of context leading historians of the Renaissance in general and of Spanish Renaissance religion in particular to value references to internal or mental methods of spirituality as an improvement over external or bodily rituals This book takes its cue from the recent cognitive turn in medieval studies that complicates studies of the body in religion by focusing on the embodied aspects of cognition claiming a continuum between body and soul rather than a hierarchy I argue that medieval theories of cognition made the divorce of the body from the soul impossible for a Galenic doctor even one who spoke of the body and the world with contempt and by implication impossible for his Castilian audience Without serious consideration of Laredo s reliance on an embodied soul rather than on a body soul dualism therefore no proper assessment of the unitive stage of recogimiento can be made Introduction p 6 7 **Tarot Mysticism** Joe Monteleone, 2025-01-08 Explore the Mysteries of Tarot Qabalah Numerology and Non Duality in a New Way Joe Monteleone takes you beyond the usual divinatory topics and into the realm of mysticism He presents Aleister Crowley s Thoth Tarot as a tool for mystical insight through which you can experience the deeper mysteries directly Joe reveals a life changing concept your thoughts and the physical world appear to be separate realms but they re not He teaches you how to unify them using the Thoth Tarot and achieve a mystical experience a sort of ecstasis akin to those experienced by monks sages and philosophers of antiquity Tarot Mysticism guides you through the

Thoth Tarot providing each card's symbolism and connections to Qabalah numerology and occult philosophy This book also features illustrations practical exercises and historical research to enhance your journey toward enlightenment With Joe's guidance you can traverse different levels of consciousness understand symbolism with higher sophistication and realize the unity between the universe and yourself **The Fields and Methods of Knowledge** Raymond Frank Piper, Paul William Ward, 1929 MYSTICISM (Complete Edition) Evelyn Underhill, 2018-12-21 This eBook has been formatted to the highest digital standards and adjusted for readability on all devices The spirit of Mysticism is romantic engaged and theoretical rather than historical or scientific Underhill has little use for theoretical explanations and the traditional religious experience formal classifications or analysis She dismisses William James' pioneering study *The Varieties of Religious Experience* 1902 and his four marks of the mystic state ineffability noetic quality transience and passivity Excerpt All men at one time or another have fallen in love with the veiled Isis whom they call Truth With most this has been a passing passion they have early seen its hopelessness and turned to more practical things But others remain all their lives the devout lovers of reality though the manner of their love the vision which they make to themselves of the beloved object varies enormously Some see Truth as Dante saw Beatrice an adorable yet intangible figure found in this world yet revealing the next **Mysticism** Evelyn Underhill, 1990-10-01 First published in 1911 Mysticism remains the classic in its field and was lauded by *The Princeton Theological Review* as brilliantly written and illuminated with numerous well chosen extracts used with exquisite skill Mysticism makes an in depth and comprehensive exploration of its subject Part One examines The Mystic Fact explaining the relation of mysticism to vitalism to psychology to theology to symbolism and to magic Part Two The Mystic Way explores the awakening purification and illumination of the self discusses voices and visions and delves into manifestations from ecstasy and rapture to the dark night of the soul Rounding out the book are a useful Appendix an exhaustive Bibliography and an Index Mysticism is thoroughly documented with material drawn from such great mystics as St Teresa of Avila Meister Eckhart and St John of the Cross and this new Image Classic features a Foreword by Ira Progoff translator of *Cloud Unknowing* and director of Dialogue House in New York City **Mysticism** Evelyn Underhill, 1919 **The Mystical in Wittgenstein's Early Writings** , The Psychology of Religious Mysticism James Henry Leuba, 1925 *Understanding Jewish Mysticism* David R. Blumenthal, 1978 *The Ways of Knowing* William Pepperell Montague, 1925 **The Ways of Knowing** William Pepperell Montague, 2024-12-06 The Ways of Knowing 1925 examines the ways of attaining knowledge and verifying it looking at the six methods of logic It is also concerned with the epistemological problem of interpreting the relation of truth to the mind *Mysticism and the Modern Mind* Alfred P. Stiernotte, 1959 *Mysticism in English Literature* Caroline Frances Eleanor Spurgeon, 1913 **The Theory and Practice of Mysticism** Charles Morris Addison, 1918 **Mystifying Kabbalah** Boaz Huss, 2020-09-10 Most scholars of Judaism take the term Jewish mysticism for granted and do not engage in a critical discussion of the essentialist perceptions that underlie it Mystifying Kabbalah studies

the evolution of the concept of Jewish mysticism It examines the major developments in the academic study of Jewish mysticism and its impact on modern Kabbalistic movements in the contexts of Jewish nationalism and New Age spirituality Boaz Huss argues that Jewish mysticism is a modern discursive construct and that the identification of Kabbalah and Hasidism as forms of mysticism which appeared for the first time in the nineteenth century and has become prevalent since the early twentieth shaped the way in which Kabbalah and Hasidism are perceived and studied today The notion of Jewish mysticism was established when western scholars accepted the modern idea that mysticism is a universal religious phenomenon of a direct experience of a divine or transcendent reality and applied it to Kabbalah and Hasidism Jewish mysticism gradually became the defining category in the modern academic research of these topics This book clarifies the historical cultural and political contexts that led to the identification of Kabbalah and Hasidism as Jewish mysticism exposing the underlying ideological and theological presuppositions and revealing the impact of this mystification on contemporary forms of Kabbalah and Hasidism
