METODOLOGÍA SOCIOLINGÜÍSTICA

- Problema metodológico: no se ha definido el objeto de estudio de la sociolingüística; la caracterización de su método ha sido dispersa y reduccionista; la tendencia a confundir el método con las técnicas; los metodólogos se han convertido en metodólatras.
- Fruto de la divergencia teórica es la dispersión metodológica.
- Las formas de trabajar en sociolingüística son muy diversas, por lo que rara vez pueden compararse los datos y los resultados de las investigaciones llevadas a cabo por autores

Change presents a collection of selected papers in honour of Professor Juan Andr s Villena Ponsoda. The essays revolve around the study of linguistic variation and the mechanisms and processes associated with linguistic change, a field to which Villena Ponsoda has dedicated so many years of research. The authors are researchers of renowned international prestige who have made significant contributions in this field. The chapters cover a range of related topics and provide modern theoretical and methodological perspectives addressing the structural, cognitive, historical and social factors that underlie and promote linguistic change in varieties of Dutch, German, Greek, Italian, Spanish and Swedish. The reader will find contributions that explore topics such as phonology, acoustic phonetics and processes deriving from the contact between languages or linguistic varieties, specifically levelling, koineisation, standardisation and the emergence of ethnolects.

Handbook of Perceptual Dialectology Daniel Long, Dennis R. Preston, 2002-12-20. The Handbook of Perceptual Dialectology Volume 2 expands on the coverage of both regions and methodologies in the investigation of nonlinguists' perceptions of language variety. New areas studied include Canada, anglophone and francophone Cuba, Hungary, Italy, Korea and Mali, and most prominent among the new approaches are studies of the salience of specific linguistic features in variety identification and assessment. As in Volume I, the reader will find in these chapters everything from the statistical treatment of the ratings of dialect attributes to studies of the actual discourses of nonlinguists discussing language variety.

Dialectologists sociolinguistics, ethnographers and applied linguists who work in areas where language variety is a concern will appreciate the findings and methods of these studies, but social scientists of every sort who want to understand the role of language in the cultural lives of ordinary people will also find much of interest here.

Catalan Sociolinguistics Miquel  ngel Pradilla Cardona, 2022-11-15. The aim of the work Catalan Sociolinguistics: State of the Art and Future Challenges is to give an account in a summary way of the major topics dealt with by the study of the relation between language and society in the Catalan language community and the extent to which international approaches have been received and how they have been adapted to the Catalan domain. Every tradition has interpreted this interaction with specific approaches. The Catalan tradition, for example, has opted for a vision that integrates a wide range of studies on different themes: economy, law, political science, communication, ecology, linguistic

variation anthropology and so on So in the book you are holding the authors of the various chapters recognised specialists in their fields have provided complementary views that will enable us to make an overall analysis something that was urgently needed in the context of the ultimate aim of bringing internal consistency to the discipline Actitudes lingüísticas en una comunidad bilingüe y multilectal José Ramón Gómez Molina, 1998 *Sociolingüística urbana* Olga IVANOVA, 2011-11-01

La atención de esta tesis doctoral se ha centrado en la situación sociolingüística de la capital ucraniana Kiev y particularmente en su estructuración y organización en términos de la distribución funcional del bilingüismo ruso ucraniano el rasgo sociolingüístico más destacado de la sociedad en cuestión A modo de objeto central del análisis macrosincrónico correlacional Kiev ha sido considerado como una comunidad lingüística con un bilingüismo histórico funcional desequilibrado que tras la independencia de Ucrania en 1991 pudo conocer cambios significativos a nivel del espacio idiomático y del conjunto de las actitudes de los hablantes En particular la política lingüística implementada en el país desde hace veinte años ha sido considerada como un posible modificador de la estructuración sociolingüística de esta comunidad postsoviética con una política idiomática notable Con referencia a tal dicotomía sociopolítica esta investigación se ha basado en los objetivos de definir los principales factores sociales estilísticos y extralingüísticos y delimitar los grupos sociales concretos que determinan usos lingüísticos estratificados y favorecen el funcionamiento del ucraniano y del ruso en los medios público privado y de percepción pasiva En la búsqueda de las normas de la estructuración y reestructuración generacional del bilingüismo kievita como institución social se ha planteado describir las formas de su reflejo práctico y de su aceptación colectiva e individual establecer reglas de la variación de la selección idiomática y definir las actitudes lingüísticas predominantes de los hablantes con referencia a sus expectativas lingüísticas y la correspondiente conducta idiomática Los datos empíricos obtenidos mediante un trabajo de campo y técnica directa de encuesta se han ordenado en el corpus muestral estratificado a partir de tres variables sociales clave del estudio edad sexo y barrio de residencia Ellos han proporcionado referencias suficientes en cuanto a las prácticas idiomáticas intercontextuales y actitudes lingüísticas predominantes del universo relativo de Kiev representado por a dos grupos de edad micos no ontogénicos b hablantes de sexos opuestos y c residentes de barrios urbanos diferenciados por su estatus socioeconómico y desarrollo sociocultural Los análisis estadísticos univariados y sus respectivos resultados han descrito la estructuración sociolingüística multidimensional de la capital ucraniana en términos del rendimiento de las variables sociales propuestas en la variación sociolingüística de la dependencia dialéctica y social de la selección de código y de las actitudes de los hablantes de diferentes retratos sociales complejos hacia la funcionalidad y valor estimado de las lenguas en contacto Desde una perspectiva general la comunidad lingüística de Kiev se define por la presencia polifacética y multigradual del bilingüismo ruso ucraniano no institucional como un fenómeno social complejo representado a nivel colectivo e individual La vertiente colectiva o social del bilingüismo kievita refleja una distribución puntual de las prácticas idiomáticas intercontextuales determinadas por un complejo sistema de juicios de valor sobre la adecuación contextual de las lenguas en contacto Su

característica más destacada radica en la naturaleza diglósica cruzada que manifiesta la funcionalidad no del todo ponderada y dialécticamente dependiente de las lenguas en contacto. La dimensión individual del bilingüismo ruso ucraniano reproduce el estado psicodiológico personal de la mayoría de los hablantes y se corresponde con la autoidentificación monolingüe y competencia lingüística equilibrada. Biculturalismo, endogeneidad, funcionalidad distinguida y superpuesta al monolingüismo funcional. A nivel de la variación sociolingüística se ha constatado el rendimiento sociolingüístico a mínimo de la variable social de edad, promedio de la variable social de sexo y máximo de la variable social de barrio de residencia del hablante. Con ello se han demostrado la ausencia del cambio generacional significativo y la estructuración de los usos lingüísticos intercontextuales en correlación con el sexo del hablante y su estatus socioeconómico que actúa como el modificador más destacado de las preferencias y actitudes en la comunidad. Aparte de ello, los factores de a) el grado de participación situacional, b) la adecuación contextual y c) el medio de selección práctica han demostrado actuar como agentes determinantes en la selección del ucraniano y del ruso en la mayoría de los contextos comunicativos públicos privados y de percepción pasiva analizados.
