Metropolis Of Tomorrow:

The Metropolis of Tomorrow Hugh Ferriss, 2012-03-14 The metropolis of the future as perceived by architect Hugh Ferriss in 1929 was both generous and prophetic in vision This illustrated essay on the modern city and its future features 59 illustrations *The Metropolis of Tomorrow* Hugh Ferriss, 1986 *The Metropolis of tomorrow*, 1991 *The Metropolis of Tomorrow* Hugh Ferriss (Architect, Draughtsman, United States), 1929 **Cosmopolis** Howard Mansfield, 2017-09-25 The twentieth century saw a grand procession of promises for the city The great modern architect Le Corbusier dictated cities of glittering white towers planted in green parks Frank Lloyd proposed cities with no downtown cities spread across the countryside with each family on its homestead and skyscraper utopians of the 1920s promised paradise on the one hundredth floor with our airplane hangared next door One thing was sure the city of tomorrow would put to shame the city of yesterday Another thing was certain too we would be happier more peaceful and productive people Here is Le Corbusier Free man tends to geometry And if we followed the radiant harmony of his geometry the world's cities could become irresistible forces stimulating collective enthusiasm collective action and general joy and pride and inconsequence individual happiness everywhere the modern world would emerge and would beam around powerful happy believing There were others who promised deliverance through their brands of architecture the right angle the curvilinear road in the park the tower of glass Each fervently preached that his was the magic geometry that like tumblers on a lock would open the way to the good life *Cosmopolis* is a pattern book of expectations generously illustrated with a gathering of plans from the City Beautiful to the Italian Futurists The Cit Industrielle World's Fair utopias science fiction visions and the grand plans of the Moderns *Cosmopolis* is the story of the ideal city we never achieved and the great plans that went into making over precincts of our urban language *The Exposed City* Nadia Amoroso, 2010 Amoroso draws on unseen elements of the city like crime rates and surveillance to create mapping for the twenty first century Including expert interviews and examples of maps exposing the hidden elements of the city *The Exposed City* shows how the urban invisibles can be made visible **Time** Briton Hadden, Henry Robinson Luce, 1929 **Impossible Heights** Adnan Morshed, 2015-01-15 The advent of the airplane and skyscraper in 1920s and 30s America offered the population an entirely new way to look at the world from above The captivating image of an airplane flying over the rising metropolis led many Americans to believe a new civilization had dawned In *Impossible Heights* Adnan Morshed examines the aesthetics that emerged from this valorization of heights and their impact on the built environment The lofty vantage point from the sky ushered in a modernist impulse to cleanse crowded twentieth century cities in anticipation of an ideal world of tomorrow Inspired by great new heights American architects became central to this endeavor and were regarded as heroic aviators Combining close readings of a broad range of archival sources Morshed offers new interpretations of works such as Hugh Ferriss's *Metropolis* drawings Buckminster Fuller's Dymaxion houses and Norman Bel Geddes's *Futurama* exhibit at the 1939 New York World's Fair Transformed by the

populist imagination into master builders these designers helped produce a new form of visuality the aesthetics of ascension By demonstrating how aerial movement and height intersect with popular superman discourses of the time Morshed reveals the relationship between architecture art science and interwar pop culture Featuring a marvelous array of never before published illustrations this richly textured study of utopian imaginings illustrates America s propulsion into a new cultural consciousness

Big Culture David Wittenberg,2025-09-05 A philosophical exploration of our relationship to large objects and their outsized psychological effects Big Culture asks a simple question why do big things give us big feelings Skyscrapers disasters and other large phenomena can elicit fear attraction and awe David Wittenberg argues that these feelings cannot be explained through objects size alone Instead he contends that an encounter with bigness is a primal even violent sensation like little else that we experience in our well proportioned adult lives Drawing on examples as commonplace and as singular as atomic bombs cinematic effects pornographic macrophilia monstrous creatures and more Wittenberg demonstrates how big things tap into our earliest experiences of the world reigniting our most fundamental feelings about reality In doing so Wittenberg offers a new aesthetics of magnitude and of the special role that bigness plays in our everyday perception of objects and images

Future Lawrence R. Samuel,2009-12-03 The history of our attitudes toward the possibilities of tomorrow A fascinating trek through American future visions from the 1920s to the present Lori C Walters Ph D University of Central Florida The future is not a fixed idea but a highly variable one that reflects the values of those who are imagining it By studying the ways that visionaries imagined the future particularly that of America in the past century much can be learned about the cultural dynamics of the times In this social history Lawrence R Samuel examines the future visions of intellectuals artists scientists businesspeople and others to tell a chronological story about the history of the future in the past century He defines six separate eras of future

narratives from 1920 to the present day and argues that the milestones reached during these years especially related to air and space travel atomic and nuclear weapons the women s and civil rights movements and the advent of biological and genetic engineering sparked the possibilities of tomorrow in the public s imagination and helped make the twentieth century the first century to be significantly more about the future than the past The idea of the future grew both in volume and importance as it rode the technological wave into the new millennium and the author tracks the process by which most people to some degree have now become futurists as the need to anticipate tomorrow accelerates

Imagining New York City Christoph Lindner,2015 Using examples from architecture film literature and the visual arts this wide ranging book examines the significance of New York City in the urban imaginary between 1890 and 1940 In particular *Imagining New York City* considers how and why certain city spaces such as the skyline the sidewalk the slum and the subway have come to emblemize key aspects of the modern urban condition In so doing Christoph Lindner also considers the ways in which cultural developments in the late nineteenth and early twentieth centuries set the stage for more recent responses to a variety of urban challenges facing the city such as post disaster recovery the renewal of urban infrastructure and the remaking of public space

The Bauhaus and America Margret Kentgens-Craig,2001 After the Bauhaus s closing in 1933 many of its protagonists moved to the United States where their acceptance had to be cultivated In this book Margret Kentgens Craig shows that the fame of the Bauhaus in America was the result not only of the inherent qualities of its concepts and products but also of a unique congruence of cultural supply and demand of a consistent flow of information and of fine tuned marketing Thus the history of the American reception of the Bauhaus in the 1920s and 1930s foreshadows the patterns of fame making that became typical of the post World War II art world
