Metropolitan Crime Patterns:

Metropolitan Crime Patterns Robert M. Figlio, Simon Hakim, George F. Rengert, 1986 This is one the first books to examine crime trends from a metropolitan wide perspective Topics include the hardening of the inner city crime in suburbia mobility patterns of offenders the effect of neighbourhood characteristics on crime variations in police expenditures and others *The Oxford Handbook of Criminological Theory* Francis T. Cullen, Pamela Wilcox, 2013-03-21 This handbook presents a series of essays that captures not the past of criminology but where theoretical explanation is headed The volume is replete with ideas discussions of substantive topics with salient theoretical implications and reviews of literatures that illuminate avenues along which theory and research evolve **The Oxford Handbook of Environmental Criminology** Gerben J.N. Bruinsma, Shane D. Johnson, 2018-02-08 The study of how the environment local geography and physical locations influence crime has a long history that stretches across many research traditions These include the neighborhood effects approach developed in the 1920s the criminology of place and a newer approach that attends to the perception of crime in communities Aided by new technologies and improved data reporting in recent decades research in environmental criminology has developed rapidly within each of these approaches Yet research in the subfield remains fragmented and competing theories are rarely examined together The Oxford Handbook of Environmental Criminology takes a unique approach and synthesizes the contributions of existing methods to better integrate the subfield as a whole Gerben J N Bruinsma and Shane D Johnson have assembled a cast of top scholars to provide an in depth source for understanding how and why physical setting can influence the emergence of crime affect the environment and impact individual or group behavior The contributors address how changes in the environment global connectivity and technology provide more criminal opportunities and new ways of committing old crimes They also explore how crimes committed in countries with distinct cultural practices like China and West Africa might lead to different spatial patterns of crime This is a state of the art compendium on environmental criminology that reflects the diverse research and theory developed across the western world

City Crime Rankings 2012-2013: Crime in Metropolitan America Kathleen O'Leary Morgan, Scott Morgan, Rachel Boba Santos, 2013-01-22 City Crime Rankings provides easy to understand crime comparisons for cities and metropolitan areas throughout the United States Numbers rates and trends for total crime violent crime murder rape robbery aggravated assault property crime burglary larceny theft and motor vehicle theft are presented in both alphabetical and rank order for all metro areas and cities of 75 000 or more Numbers and rates of police in cities are also included *Punishment, Places and Perpetrators* Gerben Bruinsma, Henk Elffers, Jan De Keijser, 2012-12-06 This book brings together an influential group of academics and researchers to review key areas of research theory and methodology within criminology and criminal justice and to identify the most important new challenges facing the discipline The contributors focus on the three central themes of punishment and criminal justice location and mobility and perpetrators and criminal careers on which much cutting edge

research within criminology has been taking place. A particular strength of the book is its multidisciplinary and international approach with contributors drawn from Europe, the UK and the United States. *Crime in the United States, 2013* Shana Hertz Hattis, 2013-04-18. *Crime in the United States* contains findings from the Federal Bureau of Investigation (FBI) of the offenses known to law enforcement released annually from its Uniform Crime Reporting Program. Because the FBI no longer prints these findings, Bernan Press continues to provide this practical information in convenient book form. In this intricately detailed source, legal and law enforcement professionals, researchers, and those who are just curious will find violent and property crime statistics for the nation as a whole and for regions, states, counties, cities, towns, and even college and university campuses. *Crime in the United States* includes statistics for violent and property crimes, hate crimes, crime trends, victims by type, crimes cleared, those closed by arrest or other means, persons arrested, age, sex, and race, juvenile offenders, law enforcement personnel, including the number of sworn officers killed or assaulted, characteristics of homicides, including age, sex, and race of victims and offenders, victim-offender relationships, weapons used, and circumstances surrounding homicides. In addition to data, *Crime in the United States* also includes text and pertinent figures that explain the data in greater detail and supplies a visual perspective of these major offenses. Violent crimes include murder and non-negligent manslaughter, forcible rape, robbery, aggravated assault. Property crimes include burglary, larceny, theft, motor vehicle theft, arson. Hate crimes include any crime motivated by bias against race, religion, sexual orientation, ethnicity, national origin, and/or disability. Data include the following: offense type, location, bias, motivation, victim type, number of individual victims, number of offenders, and the race of the offenders. Interesting facts found in *Crime in the United States* include: The rate of violent crime decreased 21.9 percent between 2002 and 2011. Robberies declined the most of any offense, falling 22.2 percent. The FBI estimated that 12,408,899 arrests were made in 2011. Of these arrests, 4.3 percent were for violent crimes. Law enforcement agencies reported 6,222 hate crime incidents involving 7,254 offenses in 2011. In 2011, slightly more hate crimes were committed on the basis of sexual orientation (1,293) than on a religion basis (1,233). Men accounted for 88.2 percent of all full-time sworn law enforcement officers in 2011. In 2011, the estimated number of forcible rapes was 83,425, the lowest figure in 22 years, decreased 2.5 percent from the 2010 estimate. The average dollar value of property taken during burglaries was \$2,185; during robberies, \$1,153; and during larceny-thefts, \$988. *City Crime Rankings 2015* Kathleen O'Leary Morgan, Scott Morgan, Rachel Boba Santos, 2015-01-20. Using the latest FBI crime statistics, *City Crime Rankings 2015* provides easy-to-understand crime comparisons for cities and metropolitan areas throughout the United States. Numbers, rates, and trends for total crime, violent crime, murder, rape, robbery, aggravated assault, property crime, burglary, larceny, theft, and motor vehicle theft are presented in both alphabetical and rank order for all metro areas and cities of 75,000 or more. Numbers and rates of police in cities are also included. A revised introduction gives a summary of and notes about the data, as well as the methodology behind the overall rankings, allowing researchers to cite statistics with context. *City Crime Rankings* offers
