Barnett Institute for Policy Studies *Standards of Living in an Indian-Mexican Village and on a Reclamation Project* Charles Price Loomis, Olen Earl Leonard, 1938 **Drinking, Homicide, and Rebellion in Colonial Mexican Villages** William B. Taylor, 1979-06-01 This study analyzes the impact of Spanish rule on Indian peasant identity in the late colonial period by investigating three areas of social behavior Based on the criminal trial records and related documents from the regions of central Mexico and Oaxaca it attempts to discover how peasants conceived of their role under Spanish rule how they behaved under various kinds of street and how they felt about their Spanish overlords In examining the character of village uprisings typical relationships between killers and the people they killed and the drinking patterns of the late colonial period the author finds no warrant for the familiar picture of sullen depredation and despair Landed peasants of colonial Mexico drank moderately on the whole and mostly on ritual occasions they killed for personal and not political reasons Only when new Spanish encroachments threatened their lands and livelihoods did their grievances flare up in rebellion and these occasions were numerous but brief The author bolsters his conclusions with illuminating comparisons with other peasant societies **The Mexican Heartland** John Tutino, 2017-11-27 A major new history of capitalism from the perspective of the indigenous peoples of Mexico who sustained and resisted it for centuries The Mexican Heartland provides a new history of capitalism from the perspective of the landed communities surrounding Mexico City In a sweeping analytical narrative spanning the sixteenth century to today John Tutino challenges our basic assumptions about the forces that shaped global capitalism setting families and communities at the center of histories that transformed the world Despite invasion disease and depopulation Mexico's heartland communities held strong on the land adapting to sustain and shape the dynamic silver capitalism so pivotal to Spain's empire and world trade for centuries after 1550 They joined in insurgencies that brought the collapse of silver and other key global trades after 1810 as Mexico became a nation then struggled to keep land and self rule in the face of liberal national projects They drove Zapata's 1910 revolution a rising that rattled Mexico and the world of industrial capitalism Although the revolt faced defeat adamant communities forced a land reform that put them at the center of Mexico's experiment in national capitalism after 1920 Then from the 1950s population growth and technical innovations drove people from rural communities to a metropolis spreading across the land The heartland urbanized leaving people searching for new lives dependent often desperate yet still pressing their needs in a globalizing world A masterful work of scholarship The Mexican Heartland is the story of how landed communities and families around Mexico City sustained silver capitalism challenged industrial capitalism and now struggle under globalizing urban capitalism
