histories while recognizing that immigration policy is firmly developed within the structure of the nation state. Thus the authors do not abandon national peculiarity regarding immigration policy but as Emily Pope Obedia observes from its very inception immigration restriction was developed with one eye looking outward. Contributors note that deportation policy can signal friendship or cracks within the relationships between nations. Rather than solely focusing on immigration policy in the abstract the authors remain cognizant of the very real effects domestic immigration policies have on deportees and push readers to think about how the mobility and lives of individuals come to be controlled by the state as well as the ways in which immigrants and their allies have resisted and challenged deportation. From the development of the concept of an anchor baby to continued policing of those who are foreign born. Deportation in the Americas is an essential resource for understanding this critical and timely topic. **The Cry of My People** Esther Arias, Mortimer Arias, 1980 *American Neutrality in the 20th Century* John N. Petrie, 1995 The American Century and Beyond George C. Herring, 2017 U.S. Foreign Relations from 1893 to the Present is the second part of *From Colony to Superpower* an international narrative that blends political, diplomatic and military history with economic, cultural and religious history. It includes a new introduction and a new chapter that brings the narrative up to the present.
