The crisis brought education systems across the world to a halt with school closures affecting more than 1 6 billion learners  
While nearly every country in the world offered remote learning opportunities for students the quality and reach of such  
initiatives varied greatly and were at best partial substitutes for in person learning Now 21 months later schools remain  
closed for millions of children and youth and millions more are at risk of never returning to education Evidence of the  
detrimental impacts of school closures on children s learning offer a harrowing reality learning losses are substantial with  
the most marginalized children and youth often disproportionately affected Countries have an opportunity to accelerate  
learning recovery and make schools more efficient equitable and resilient by building on investments made and lessons
