**The Political Economy of Mexico's Financial Reform** Osvaldo Quiroz, 2017-11-01 This title was first published in 2001 An analysis of the political economy of Mexico's financial reform It is organized in three parts The first part chapters one to four develops the framework both historical and institutional The first chapter outlines the theoretical discussion on state autonomy and develops a simple analytical framework to study public policy decisions The subsequent three chapters address three main themes external dependency of domestic states on international capital political change under President Carlos Salinas and financial policy in Mexico The second part presents the analysis of three main institutional changes to the financial system development banking reform commercial banking privatisation and autonomy of the central bank Each specific case study shows how the reforms conformed to the ideas of the dominant consensus on economic policy and how they delivered an inefficient incentive structure The third part chapter eight brings together all the elements to explain Mexico's 1994 financial crisis

**World Economic and Financial Surveys** International Monetary Fund, 1994-01-01 This paper analyzes the origins of the recent turbulence in government bond markets in the major industrial countries and considers whether the role of hedge funds in that episode argues for altering present regulatory arrangements In financial markets it is possible for such a revision of expectations if it is shared by all market participants to alter asset prices almost immediately indeed the change in asset prices can occur without any transactions even taking place In this case however trading volumes soared along with the rise in bond yields as a broad spectrum of market participants sought to undo large positions that had been built up under the projections of a continued rise of European and US bond prices and a strengthening of the dollar against the yen and some European currencies Although the increase in bond yields was undeniably large for such a short time period the markets did receive new information in February and March on economic performance especially on growth rates and on the likely future course of macroeconomic policies

**Mexico** Claudio M. Loser, Mr. Eliot Kalter, 1992-02-15 This paper explores the reasons behind the recent transformation and upturn of the Mexican economy the changes are the result of the authorities determination to stick with a difficult reform program since the early 1980s supported by multilateral financial institutions creditor countries and commercial banks

Reinvigorating Growth in Developing Countries Ms. Sharmini Coorey, Mr. Louis Dicks-Mireaux, Mr. David John Goldsborough, Mr. Balázs Horváth, Ms. Kalpana Kochhar, Mr. Mauro Mecagni, Mr. Erik Offerdal, Ms. Jianping Zhou, 1996-08-13 This study examines the links between adjustment policies and growth in a small group of developing countries Bangladesh Chile Ghana India Mexico Morocco Senegal and Thailand during 1970-93 It provides an overview of the adjustment and growth experience examines in depth several policy issues of particular interest and distills the principal policy lessons for the design of adjustment policies
