The Illusion of Civil Society Jon Shefner, 2012-05-31 Much has been written about how civil society challenges authoritarian governments and helps lead the way to democratization These studies show that neoliberal economic policies have harmed many sectors of society weakening the state and undermining clientelistic relationships that previously provided material benefits to middle and low income citizens who are then motivated to organize coalitions to work for greater social justice and equality Recognizing this important role played by civil society organizations Jon Shefner goes further and analyzes the variegated nature of the interests represented in these coalitions arguing that the differences among civil society actors are at least as important as their similarities in explaining how they function and what success or lack thereof they have experienced Through an ethnographic examination extending over a decade Shefner tells the story of how a poor community on the urban fringe of Guadalajara mobilized through an organization called the Union de Colonos Independientes UCI to work for economic improvement with the support of Jesuits inspired by liberation theology Yet Mexico's successful formal democratic transition won with the elections in 2000 was followed by the dissolution of the coalition Neither political access for the urban poor nor their material well being has increased with democratization The unity and even the concept of civil society has thus turned out to be an illusion

Religious Culture in Modern Mexico Martin Austin Nesvig, 2007-02-01 This nuanced book considers the role of religion and religiosity in modern Mexico breaking new ground with an emphasis on popular religion and its relationship to politics The contributors highlight the multifaceted role of religion illuminating the ways that religion and religious devotion have persisted and changed since Mexican independence They explore such themes as the relationship between church and state the resurgence of religiosity and religious societies in the post reform period the religious values of the liberals of the 1850s and the ways that popular expressions of religion often trumped formal and universal proscriptions Focusing on individual stories and vignettes and on local elements of religion the contributors show that despite efforts to secularize society religion continues to be a strong component of Mexican culture Portraying the complexity of religiosity in Mexico in the context of an increasingly secular state this book will be invaluable for all those interested in Latin American history and religion Contributions by Silvia Marina Arrom Adrian Bantjes Alejandro Cort zar Jason Dormady Martin Austin Nesvig Matthew D O Hara Daniela Traffano Paul J Vanderwood Mark Overmyer Vel zquez Pamela Voekel and Edward Wright Rios

Mexico, the End of the Revolution

Donald C. Hodges, Ross Gandy, 2001-10-30 This study reveals how the social pact formalized during the armed stage of the Mexican Revolution 1910 20 and implemented during the second stage 1920 40 was upset during the third or arrested stage 1940 70 when the bureaucrat professionals at the helm opted for intensive economic development by taking the capitalist road Although momentarily revived during yet a fourth stage of revolution 1970 82 this social pact was subsequently betrayed from within by the official party of the Revolution and undermined from without by the operation of economic forces behind the scenes In this first book on the complete history of the Mexican Revolution Hodges and Gandy reveal that along with the end of its social pact Mexico passed out of its former nationalist and capitalist orbit to enter the new professional societies and global order fathered by the transnationals From 1920 to 1970 Mexico's bureaucrat professionals hung onto political power while native capitalists continued to flourish In response Mexico's workers and peasants staged strikes against the nationalized sector and fomented guerrilla wars Concessions were then made to this group until beginning in 1982 the social pact was again eroded at the expense not only of the popular sectors but also of the capitalists The economic surplus was redistributed away from owners and into the pockets of professionals That was the Revolution's last gasp before it was officially put to rest in 2000 with the official party's defeat at the polls Hodges and Gandy challenge the current belief that Mexico's economic system is still capitalist by presenting statistical evidence that shows how the chief beneficiaries of the economy are no longer the providers of capital but instead the providers of professional services **Church,**

Cosmovision and the Environment Evan Berry, Robert Albrow, 2018-06-27 Though currently only partially understood evolving interactions among Latin American communities of faith governments and civil societies are a key feature of the popular mobilizations and policy debates about environmental issues in the region This edited collection describes and analyses multiple types of religious engagement with environmental concerns and conflicts seen in modern Latin American democracies This volume contributes to scholarship on the intersections of religion with environmental conflict in a number of ways Firstly it provides comparative analysis of the manner in which diverse religious actors are currently participating in transnational national and local advocacy in places such as Peru Argentina Brazil Bolivia Ecuador Guatemala and Mexico It also considers the diversity of an often plural religious engagement with advocacy including Catholic Evangelical and Pentecostal perspectives alongside the effects of indigenous cosmological ideas Finally this book explores the specific religious sources of seemingly unlikely new alliances and novel articulations of rights social justice and ethics for the environmental concerns of Latin America The relationship between religion and environmental issues is an increasingly important topic in the conversations around ecology and climate change This book is therefore a pertinent and topical work for any academic working in Religious Studies Environmental Studies and Latin American Studies *The Workbook*, 1996
