Missionaries And Mandarins:

Missionaries and Mandarins Carol Miller, Shahra Razavi, 1998 This book examines the various strategies of engagement employed by women working to transform the bureaucratic structures of state organizations multilateral institutions and NGOs to make them more gender equitable These strategies involve combining the task of pursuing transformative agendas from within bureaucracies of being missionaries while adapting to the techniques and practices of the bureaucracy as a mandarin would have to do The contributors examine struggles not only at the discursive level where women's needs are constructed and contested but also at the institutional level of the rules and procedures of bureaucratic actors and at the level of resource allocation Studies from many different countries including Vietnam Australia the United States and Morocco illustrate both the variety of institutional strategies adopted by feminists in different political and cultural settings and the highly diverse forms of political action by women which can be seen to constitute feminist politics From their different perspectives the contributors acknowledge the gendered nature of bureaucracies but argue against the view that these institutions are monolithic and impermeable This book has much to say to all those feminists working within bureaucracies whether state or civil society institutions with the aim of promoting women's concerns it will also interest those who have chosen a strategy of disengagement In addition the book makes a significant contribution to recent developments in the anthropological study of organizations

Michael Pollak,1980 Missionary and Mandarin Arnold Horrex Rowbotham,1942 A Call to Mission - A History of the Jesuits in China 1842-1954 David Strong,2018-02-12 China has bulked large in the imagination of the Catholic Church for 500 years It had been central to the missionary dream of the Jesuits for almost as long However only with this book s appearance has the detailed focus of attention shifted to the substantial and neglected period of catholic and Jesuit engagement with china the almost 120 years from the second arrival of the Jesuits Matteo Ricci the polymath Ferdinand Verbeist and Adam Schall von Bell the astronomers and the exquisite painter who influenced Chinese painting beyond measure Giuseppe Castiglione have been written about made ls of and been the heart and soul of the first stage of Jesuit impact on China in the 17th and 18th Centuries They brought Western learning and art to China and took Chinese language and literature to Europe The Jesuits were the first multinational to be welcomed in China and they came with a specific method of engagement to make friends build relationships and share their gifts before anything else was transacted including conversations about Christianity It remains an unsurpassed method of engagement with a rich and ancient people But the second arrival from the 1840 s was very different It was made possible by the arrival of European governments and traders many of whom came not just for financial gain but to spread their superior religion This work by David Strong in two volumes is the first major treatment of the period from the arrival of the European and eventually American Jesuit missionaries under the protection of the so called Unequal Treaties through to their expulsion after the Communist victory in the long running civil war in 1949 Volume II The Wider European Adventure covers the commitments places and activities of missions undertaken by the Spaniards Austrian Hungarians Italians French Canadians and lastly in the 1930s the Americans from California **The Chinese Recorder and Missionary Journal** ,1902 **Mandarins, Jews, and Missionaries** Michael Pollak,1980 This book tells the amazing story of those almost forgotten bands of Jews who wandered into China any centuries ago and with the passage of time blended physically and psychologically into the general population although managing to remain until fairly recently a distinctly identifiable Jewish entity Most particularly it deals with the last of the several Jewish colonies that once dotted the Chinese empire the community that was established in the Sung capital of Kaifeng in Honan Province between the tenth and the twelfth centuries and still owned a synagogue as late as the mid 1800s Book jacket **Mandarin & Missionary in Cathay** Ernest F. Borst-Smith,1917 *Records of the General Conference of the Protestant Missionaries of China* W. J. Lewis (of Shanghai.),1890 Protestant Bible Translation and Mandarin as the National Language of China George Kam Wah Mak,2017-03-06 This book represents the first monograph length study of the relationship between Protestant Bible translation and the development of Mandarin from a lingua franca into the national language of China Drawing on both published and unpublished sources this book looks into the translation publication circulation and use of the Mandarin Bible in late Qing and Republican China and sets out how the Mandarin Bible contributed to the standardization and enrichment of Mandarin It also illustrates that the Mandarin Union Version published

in 1919 was involved in promoting Mandarin as not only the standard medium of communication but also a marker of national identity among the Chinese people thus playing a role in the nation building of modern China Chinese Recorder and Missionary Journal ,1871 **Proceedings, American Philosophical Society (vol. 96, no. 6) , The Spirit of Missions** ,1858 Includes the proceedings of the annual meeting of the Society *The Missionary Review* ,1897

Francisco Varo's Grammar of the Mandarin Language (1703) W. South Coblin, Joseph A. Levi, 2000-09-15 Francisco Varo's *Arte de la Lengua Mandarina* completed ca 1680 is the earliest published grammar of any spoken form of Chinese and the fullest known description of the standard language of the seventeenth century It establishes beyond doubt that this Language of the Mandarins was not Pekingese or Peking based but had instead a Jiang Huai or Nankingese like phonology It also provides important information about the nature and formation of pre modern standard forms of Chinese and will lead to revisions of currently held views on Chinese koines and their relationship with regional speech forms and the received vernacular literature Finally it provides a wealth of information on stylistic speech levels honorific usage and social customs of the elite during the early Qing period The book provides a full translation of the 1703 text of the *Arte* an extensive introduction to the life and work of Varo an index of Chinese characters inserted into the translation and an index of linguistic terms and concepts It should be of interest to a diverse readership of Chinese historical comparative and descriptive linguists students of Qing history and literature historiographers of linguistics and specialists in early Western religious and cultural contact with China
