Michael Drayton Revisited J. R. Brink, 1990 *Sonnet Sequences and Social Distinction in Renaissance England* Christopher Warley, 2005-07-28 Why were sonnet sequences popular in Renaissance England In this study Christopher Warley suggests that sonneteers created a vocabulary to describe and to invent new forms of social distinction before an explicit language of social class existed The tensions inherent in the genre between lyric and narrative between sonnet and sequence offered writers a means of reconceptualizing the relation between individuals and society a way to try to come to grips with the broad social transformations taking place at the end of the sixteenth century By stressing the struggle over social classification the book revises studies that have tied the influence of sonnet sequences to either courtly love or to Renaissance individualism Drawing on Marxist aesthetic theory it offers detailed examinations of sequences by Lok Sidney Spenser Shakespeare and Milton It will be valuable to readers interested in Renaissance and genre studies and post Marxist theories of class **Early Modern English Literature and the Poetics of Cartographic Anxiety** Chris Barrett, 2018-03-02 The Cartographic Revolution in the Renaissance made maps newly precise newly affordable and newly ubiquitous In sixteenth century Britain cartographic materials went from rarity to household d cor within a single lifetime and they delighted inspired and fascinated people across the socioeconomic spectrum At the same time they also unsettled upset disturbed and sometimes angered their early modern readers Early Modern English Literature and the Poetics of Cartographic Anxiety is the first monograph dedicated to recovering the shadow history of the many anxieties provoked by early modern maps and mapping in the sixteenth and seventeenth centuries A product of a military arms race often deployed for security and surveillance purposes and fundamentally distortive of their subjects maps provoked suspicion unease and even hostility in early modern Britain in ways not dissimilar from the anxieties provoked by global positioning enabled digital mapping in the twenty first century At the same time writers saw in the resistance to cartographic logics and strategies the opportunity to rethink the way literature represents space and everything else This volume explores three major poems of the period Edmund Spenser s *The Faerie Queene* 1590 1596 Michael Drayton s *Poly Olbion* 1612 1622 and John Milton s *Paradise Lost* 1667 1674 in terms of their vexed and vexing relationships with cartographic materials and shows how the productive protest staged by these texts redefined concepts of allegory description personification bibliographic materiality narrative temporality analogy and other elemental components of literary representations **A History of Emotions, 1200-1800** Jonas Liliequist, 2015-10-06 The essays in this collection examine emotional responses to art and music the role of emotions in contemporary notions of gender and sexuality and theoretical questions as to their use **The roots of nationalism** Lotte Jensen, 2016-04-15 This collection brings together scholars from a wide range of disciplines to offer perspectives on national identity formation in various European contexts between 1600 and 1815 Contributors challenge the dichotomy between modernists and traditionalists in nationalism studies through an emphasis on continuity rather than ruptures in the shaping

of European nations in the period while also offering an overview of current debates in the field and case studies on a number of topics including literature historiography and cartography

In Defiance of Time Angus Vine, 2010-06-17 In *Defiance of Time* explores the emergence of antiquarianism in early modern England from its first flourishing in the mid Tudor period through to its seventeenth century heyday A vibrant antiquarian culture emerged which reached beyond scholarly and historical circles and had a profound influence on the literature and thought of the period Examining the influences on that development of that culture this book argues that the origins of English antiquarianism need to be found in the methods and practices of continental and especially Italian humanism It shows that like the humanists the early antiquaries had the essentially imaginative aim of resurrecting and recomposing the past and past societies in defiance of time The antiquaries conceived of themselves and their activities as bridging the gap between past and present affording olden time presence in this way so that it might speak to and inform present circumstances At the heart of this book is the argument that the antiquarian project depended on the antiquaries capacity to restore in their imagination at least the fragments of the past to imagine those remnants of history which have casually escaped the shipwreck of time made whole once again In *Defiance of Time* traces these arguments through a range of authors and material both printed and in manuscript Chapters advance original readings of important authors such as Leland Stow Spenser Camden Drayton and Selden as well as shedding light on institutions such as the Elizabethan Society of Antiquaries and reviewing the wide range of activities interests and concerns that came under the antiquarian purview Antiquarianism is thereby shown to be integral to early modern literary and intellectual culture

Intellectual and Imaginative Cartographies in Early Modern England Patrick Murray, 2022-08-05 Taking as its focus an age of transformational development in cartographic history namely the two centuries between Columbus s arrival in the New World and the emergence of the Scientific Revolution this study examines how maps were employed as physical and symbolic objects by thinkers writers and artists It surveys how early modern people used the map as an object whether for enjoyment or political campaigning colonial invasion or teaching in the classroom Exploring a wide range of literature from educational manifestoes to the plays of Marlowe and Shakespeare it suggests that the early modern map was as diverse and various as the rich culture from which it emerged and was imbued with a whole range of political social literary and personal impulses *Intellectual and Imaginative Cartographies in Early Modern England 1550 1700* will appeal to all those interested in the History of Cartography

The Age of Milton Alan Hager, 2004-03-30 The 17th century was a time of significant cultural and political change The era saw the rise of exploration and travel the growth of the scientific method and the spread of challenges to conventional religion Many of these developments occurred in England and North America and literature of the period reflects the intellectual and emotional fervor of the age This reference chronicles the lives and works of more than 75 British and American writers of the 17th century Included are entries on such major canonical authors as Donne Milton and Jonson The volume also covers the

writings of such leading thinkers as Hobbes and Locke along with the works of leading European figures like Galileo and Descartes Also profiled are numerous significant women writers including Mary Astell Aphra Behn and Anne Killigrew Each entry is written by an expert contributor and includes a biography a discussion of major works and themes a survey of the writer s critical reception and primary and secondary bibliographies The volume additionally includes entries on several artists who significantly influenced British and American literary culture The Concise Oxford Companion to English Literature Dinah Birch,Katy Hooper,2013-05-30 Based on the bestselling Oxford Companion to English Literature this is an indispensable compact guide to all aspects of English literature Over 5 500 new and revised A to Z entries give unrivalled coverage of writers works historical context literary theory allusions characters and plot summaries Discursive feature entries supply a wealth of information about important genres in literature For this fourth edition the dictionary has been fully revised and updated to include expanded coverage of postcolonial African black British and children s literature as well as improved representation in the areas of science fiction biography travel literature women s writing gay and lesbian writing and American literature The appendices listing literary prize winners including the Nobel Man Booker and Pulitzer prizes have all been updated and there is also a timeline chronicling the development of English literature from c 1000 to the present day Many entries feature recommended web links which are listed and regularly updated on a dedicated companion website Written originally by a team of more than 140 distinguished authors and extensively updated for this new edition this book provides an essential point of reference for English students teachers and all other readers of literature in English

Other Voices, Other Views Helen Ostovich,Mary V. Silcox,Graham Roebuck,1999-12 The debate over canon represented by this book is implicit in the broad range of its contents As a whole it argues for expansion the inclusion of other voices to augment the standard university syllabus for the early modern period urging recognition of the period s diversity and reforming the conditions under which we pass judgment on its culture Each of these essays reveals the literary potential of works that have been considered inferior and inappropriate for serious study While such individual discovery is certainly valuable what is even more interesting is their significance as a group All the essays contained here are engaged in opening texts up to different perspectives creating a canon that speaks of diversity rather than uniformity BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved Wicked Women of Tudor England R. Warnicke,2012-05-14 This fascinating study delves into the lives of six Tudor women celebrated for their reputed wickedness Collected here are accounts of Anne Boleyn Katherine Howard Anne Seymour Lettice Dudley and Jane and Alice More Warnicke rescues these women from historical misrepresentations and helps us to rediscover the complex world of Tudor society Early Modern Women's Writing and the Rhetoric of Modesty P. Pender,2012-04-02 An in depth study of early modern women s modesty rhetoric from the English Reformation to the Restoration This book provides new readings of modesty s gendered deployment in the works of Anne Askew Katharine Parr Mary Sidney Aemilia Lanyer and Anne

Bradstreet **Marlowe and Shakespeare** Robert Sawyer, 2017-08-22 Instead of asserting any alleged rivalry between Marlowe and Shakespeare Sawyer examines the literary reception of the two when the writers are placed in tandem during critical discourse or artistic production Focusing on specific examples from the last 400 years the study begins with Robert Greene's comments in 1592 and ends with the post 1911 and 1977 era The study not only looks at literary critics and their assessments but also at playwrights such as Aphra Behn novelists such as Anthony Burgess and late twentieth century movie and theatre directors The work concludes by showing how the most recent outbreak of Marlowe as Shakespeare's ghostwriter accelerates due to a climate of conspiracy including belief echoes which presently permeate our cultural and critical discourse

Spenserian satire Rachel Hile, 2017-01-01 This electronic version has been made available under a Creative Commons BY-NC-ND open access license Scholars of Edmund Spenser have focused much more on his accomplishments in epic and pastoral than his work in satire Scholars of early modern English satire almost never discuss Spenser However these critical gaps stem from later developments in the canon rather than any insignificance in Spenser's accomplishments and influence on satiric poetry This book argues that the indirect form of satire developed by Spenser served during and after Spenser's lifetime as an important model for other poets who wished to convey satirical messages with some degree of safety The book connects key Spenserian texts in *The Shepheardes Calender* and the *Complaints* volume with poems by a range of authors in the late sixteenth and early seventeenth centuries including Joseph Hall Thomas Nashe Tailboys Dymoke Thomas Middleton and George Wither to advance the thesis that Spenser was seen by his contemporaries as highly relevant to satire in Elizabethan England

The Last Plantagenet Consorts Kavita Mudan Finn, 2012-06-08 An examination of fifteenth century British queens through literature and history

[The Oxford Companion to English Literature](#) Dinah Birch, 2009-09-24 Written by a team of more than 150 contributors working under the direction of Dinah Birch and ranging in influence from Homer to the Mahabharata this guide provides the reader with a comprehensive coverage of all aspects of English literature

[Architectonics of Imitation in Spenser, Daniel, and Drayton](#) David Ian Galbraith, 2000-01-01 Exploring the boundaries between poetry and history on three of England's epic literary works Galbraith argues that they enter into a dialogue with classical and contemporary predecessors with implications for understanding the English Renaissance

Petrarchism at Work William J. Kennedy, 2016-03-07 The Italian scholar and poet Francesco Petrarch 1304-1374 is best remembered today for vibrant and impassioned love poetry that helped to establish Italian as a literary language Petrarch inspired later Renaissance writers who produced an extraordinary body of work regarded today as perhaps the high water mark of poetic productivity in the European West These Petrarchan poets were self-consciously aware of themselves as poets as craftsmen revisers and professionals As William J Kennedy shows in *Petrarchism at Work* this commitment to professionalism and the mastery of poetic craft is essential to understanding Petrarch's legacy *Petrarchism at Work* contributes to recent scholarship that explores relationships between poetics and

economic history in early modern European literature Kennedy traces the development of a Renaissance aesthetics from one based upon Platonic intuition and visionary furor to one grounded in Aristotelian craftsmanship and technique Their polarities harbor economic consequences the first privileging the poet's divinely endowed talent rewarded by the autocratic largess of patrons the other emphasizing the poet's acquired skill and hard work Petrarch was the first to exploit the tensions between these polarities followed by his poetic successors These include Gaspara Stampa in the emergent salon society of Venice Michelangelo Buonarroti in the gift economy of Medici Florence and papal Rome Pierre de Ronsard and the poets of his Pl iade brigade in the fluctuant Valois court and William Shakespeare and his contemporaries in the commercial world of Elizabethan and early Stuart London As Kennedy shows the poetic practices of revision and redaction by Petrarch and his successors exemplify the transition from a premodern economy of patronage to an early modern economy dominated by unstable market forces

Local Negotiations of English Nationhood, 1570-1680 John M. Adrian, 2011-04-28 Even in an age of emerging nationhood English men and women still thought very much in terms of their parishes towns and counties This book examines the vitality of early modern local consciousness and its deployment by writers to mediate the larger political religious and cultural changes of the sixteenth and seventeenth centuries

Epistolary Community in Print, 1580-1664 Diana G. Barnes, 2016-05-13 Epistolary Community in Print contends that the printed letter is an inherently sociable genre ideally suited to the theorisation of community in early modern England In manual prose or poetic form printed letter collections make private matters public and in so doing reveal first how tenuous is the divide between these two realms in the early modern period and second how each collection helps to constitute particular communities of readers Consequently as Epistolary Community details epistolary visions of community were gendered This book provides a genealogy of epistolary discourse beginning with an introductory discussion of Gabriel Harvey and Edmund Spenser's Wise and Wittie Letters 1580 and opening into chapters on six printed letter collections generated at times of political change Among the authors whose letters are examined are Angel Day Michael Drayton Jacques du Bosque and Margaret Cavendish Epistolary Community identifies broad patterns that were taking shape and constantly morphing in English printed letters from 1580 to 1664 and then considers how the six examples of printed letters selected for discussion manipulate this generic tradition to articulate ideas of community under specific historical and political circumstances This study makes a substantial contribution to the rapidly growing field of early modern letters and demonstrates how the field impacts our understanding of political discourses in circulation between 1580 and 1664 early modern women's writing print culture and rhetoric
