## **Michel Foucault's Archaeology Of Western Culture Toward A New Science Of History:**

**Michel Foucault's Archaeology of Western Culture** Pamela Major-Poetzl, 2017-10-10 The author argues that Foucault's archaeology is an attempt to separate historical and philosophical analysis from the evolutionary model of nineteenth century biology and to establish a new form of social thought based on principles similar to field theory in twentieth century physics She examines Foucault's view of the relationship between power and knowledge and goes on to discuss the new concepts of space time subject and causality expressed in relativity theory quantum mechanics Saussurean linguistics and Foucault's literary essays Originally published in 1983 A UNC Press Enduring Edition UNC Press Enduring Editions use the latest in digital technology to make available again books from our distinguished backlist that were previously out of print These editions are published unaltered from the original and are presented in affordable paperback formats bringing readers both historical and cultural value

**Michel Foucault** Barry Smart, 1994

**Cultural History After Foucault** John Neubauer, 2018-01-18 Both as historian and maker of culture Foucault infused numerous disciplines of study with a new conceptual vocabulary and an agenda for future research His ideas have called central assumptions in Western culture into question and altered the ways in which scholars and social scientists approach such issues as discourse theory theory of knowledge Eros technologies of the Self and Other punishment and prisons and asylums and madness The contributors to this volume indicate Foucault's achievements and the suggestive power of his work as well as his methodological weaknesses historical inaccuracies and ambiguities Above all they attempt to show how one can use Foucault to go beyond him in opening new approaches to cultural history Though comprehensiveness was not attempted their essays broach the major controversial aspects of Foucauldian cultural history the position of the subject the fusion of power and knowledge sexuality the historical structures and changes and they explicitly analyze them with respect to antiquity the Renaissance and the nineteenth century In this collection Neubauer presents analyses by historians literary scholars and philosophers of the entire transdisciplinary range of Foucault's oeuvre emphasizing the rich suggestiveness of its agenda The breadth of the undertaking makes it suitable for seminars and graduate courses in numerous departments

*Michel Foucault* Philip Barker, 2020-07-24 This unique and original study analyzes Foucault's interaction with the history of ideas undertaking a genealogy of the subject that subverts conventional philosophical history to develop a distinctly Foucauldian intellectual history Through a detailed account of Foucault's work and its relation to the history of ideas Philip Barker shows how that history can be usefully reconceptualised using Foucault's concepts of genealogy and archaeology Locating the emergence of self reflexive consciousness in twelfth century philosophy and elaborating upon autobiography as a philosophical persona Barker argues that this extremely productive approach can be used to analyze the relationship between the history of philosophy psychoanalysis and the transparent subject

**A Philosophical History of Police Power** Melayna Kay Lamb, 2024-01-11 Rethinking the philosophical grounds of police power Melayna Lamb argues that traditional ideas of

sovereignty and the law need to be radically re evaluated In placing police at the centre of analysis this book demonstrates the manner in which police power exists in a complex and overlapping relationship with sovereignty and law in a form which is not reducible to implementation In doing this it argues for the centrality of order in any consideration of police and challenging a common narrative whereby a dynamic interventionist sovereign power that follows from a belief of order as artificial is replaced by a liberal limited non interventionist sovereign power that proceeds from a natural order Moving through thinkers such as Hobbes Hegel and Adam Smith the book argues that police power is in fact an archic in form in a manner that makes it impossible to hold accountable through the law Lamb adopts an interdisciplinary approach that turns to philosophy to make sense of global events that see police power at their centre This includes the history of police brutality in the US the structural injustices made more apparent by COVID 19 and the growing calls to abolish the police

**The Cambridge Companion to Foucault** Gary Gutting, 2005-07-18 For Michel Foucault philosophy was a way of questioning the allegedly necessary truths that underpin the practices and institutions of modern society He carried this out in a series of deeply original and strikingly controversial studies on the origins of modern medical and social scientific disciplines These studies have raised fundamental questions about the nature of human knowledge and its relation to power structures and have become major topics of discussion throughout the humanities and social sciences The essays in this volume provide a comprehensive overview of Foucault's major themes and texts from his early work on madness through his history of sexuality Special attention is also paid to thinkers and movements from Kant through current feminist theory that are particularly important for understanding his work and its impact This revised edition contains five new essays and revisions of many others and the extensive bibliography has been updated

**Spaces of Colonialism** Stephen Legg, 2011-07-22 Examines the residential policed and infrastructural landscapes of New and Old Delhi under British Rule The first book of its kind to present a comparative history of New and Old Delhi Draws on the governmentality theories and methodologies presented in Michel Foucault's lecture courses Looks at problems of social and racial segregation the policing of the cities and biopolitical needs in urban settings Undertakes a critique of colonial governmentality on the basis of the lived spaces of everyday life

**Mapping the Present** Stuart Elden, 2002-01-01 In a late interview Foucault suggested that Heidegger was for him the essential philosopher Taking this claim seriously Mapping the Present assesses the relationship between these two thinkers particularly on the issue of space and history It suggests that space and history need to be rethought and combined as a spatial history rather than as a history of space In other words space should become not merely an object of analysis but a tool of analysis The first half of the book concentrates on Heidegger from the early occlusion of space through the politically charged readings of Nietzsche and Holderlin to the later work on art technology and the polis which accord equal status to issues of spatiality Foucault's work is then rethought in the light of the analysis of Heidegger and the project of a spatial history established through re readings of his works on madness and discipline

**Auguste Comte: Volume 3**

Mary Pickering,2009-09-14 This volume continues to explore the life and works of Auguste Comte during his so called second career It covers the period from the coup d tat of Louis Napoleon in late 1851 to Comte s death in 1857 During these early years of the Second Empire Comte became increasingly conservative and anxious to control his disciples This study offers the first study of the tensions within his movement Focusing on his second masterpiece the Syst me de politique positive and other important books such as the Synth se subjective Mary Pickering not only sheds light on Comte s intellectual development but also traces the dissemination of positivism and the Religion of Humanity throughout many parts of the world

**The postsocialist contemporary** Octavian Esanu,2021-11-23 The postsocialist contemporary joins a growing body of scholarship debating the definition and nature of contemporary art It comes to these debates from a historicist perspective taking as its point of departure one particular art programme initiated in Eastern Europe by the Hungarian American billionaire George Soros First implemented in Hungary the Soros Center for Contemporary Art SCCA expanded to another eighteen ex socialist countries throughout the 1990s Its mission was to build a western open society by means of art This book discusses how network managers and artists participated in the construction of this new social order by studying the programme s rise evolution impact and broader ideological and political consequences Rather than recounting a history its engages critically with contemporary art as the aesthetic paradigm of late capitalist market democracy

The Politics and Philosophy of Chinese Power R. James Ferguson,Rosita Dellios,2016-12-12 This book provides a timely analysis of the politics philosophy and history of Chinese power focusing on social strategic and diplomatic trends that have shaped China for over three thousand years Chinese elites have used the past to inform the present but have also mobilized new ideas to address the country s rapid transition to global power China s intellectual world can draw on a surprisingly pluralist legacy When Chinese thinkers assess power they bring to bear their classical legacy the military classics Chinese socialism and Western political thought There are also a number of intriguing formulations that give shape to the exercise of Chinese power Among these are comprehensive national strength stability preservation soft power asymmetric conflict and counter intervention strategies This book looks at key periods in Chinese history when attitudes to power evolved and at their current expressions These include China s expanded use of think tanks to chart the future efforts at creating an eco civilization to balance growth and an extended set of security and information capabilities From observing the centrality of power in today s international affairs the book moves to the foundational concepts of Chinese governance its belief in a strategic configuration of power as understood in military contexts as well as its growing diplomatic and maritime engagement abroad This analysis culminates in new ideas of functional multipolarity Power is also deployed internally China s use of nationalism as a major tool for state building and cohesion the ongoing role of socialism and the People s Liberation Army are all examined in this light China s current strategic culture has shaped President Xi Jinping s search for a new model of power for China in the twenty first century an endeavor that will have serious implications for the future global order This book

provides an alternative perspective on China's trajectory towards a revised international system      *Thinking Space* Mike Crang, Nigel Thrift, 2002-09-11 *Thinking Space* looks at a range of social theorists and asks what role space plays in their work what difference if any it makes to their concepts and what difference such an appreciation makes to the way we might think about space      **Feminist Knowledge** Sneja Gunew, 2012-10-11 This collection contains essays by leaders in the field of post structuralist enquiry as well as by those immersed in the new spirituality and the social consequences of recent biological research Other essays reflect political struggles being waged with different strategies by radical feminists and the analyses undertaken by feminists uneasy about their inclusion within educational institutions and the radical new interpretations of sexuality within the cultural domain      Routledge Library Editions: Feminist Theory Various, 2021-08-07 Routledge Library Editions Feminist Theory brings together as one set or individual volumes a series of previously out of print classics from a variety of academic imprints With titles ranging from *The Liberation of Women* to *Feminists and State Welfare* from *Married to the Job* to *Julia Kristeva* this set provides in one place a wealth of important reference sources from the diverse field of gender studies      **Feminist Knowledge (RLE Feminist Theory)** Sneja Gunew, 2013-05-20 The minority feminist viewpoints have often been submerged in the interests of maintaining a mainstream universal model of feminism This anthology takes into account the various differences among women while looking at the important areas of feminist struggle While sisterhood is indeed global it certainly does not mean that all women are required to submerge their specific differences and assimilate to a universal model Consequently the collection includes essays by leaders in the field of post structuralist enquiry as well as by those immersed in the new spirituality and the social consequences of recent biological research Other essays reflect the political struggles which continue to be waged with different strategies by socialist and radical feminists and the self searching analyses undertaken by feminists uneasy about their inclusion within educational institutions and the radical new interpretations of sexuality within the cultural domain The collection begins with a critique of white mainstream feminism emanating from Aboriginal women in Australia The implications of the critique indicate that there is a pervasive racism within the feminist movement      **Meaning and Moral Order** Robert Wuthnow, 1989-04-27 *Meaning and Moral Order* goes beyond classical neoclassical and poststructural theories of culture in its attempt to move away from problems of meaning to a more objective concept of culture Innovative controversial challenging it will compel scholars to rethink many of the assumptions on which the study of ideology ritual religion science and culture have been based      **Places on the Margin** Rob Shields, 2013-12-16 The debate on modernity and postmodernity has awakened interest in the importance of the spatial for cultural formations But what of those spaces that exist as much in the imagination as in physical reality This book attempts to develop an alternative geography and sociology of space by examining places on the margin      *Society and Economy in Early Modern Europe, 1450-1789* Barry Taylor, 1989      **Karl Mannheim and the Contemporary Sociology of Knowledge** Brian Longhurst, 1989-01-16      *Constructivism and*

*International Relations* Stefano Guzzini, Anna Leander, 2005-12-12 This book addresses both Wendt's social theory and international relations theory exploring a variety of constructivist debates without reducing constructivism to one single position
