1872 1944 His earliest landscapes are rendered in an Impressionistic style but possess the marked vertical and horizontal tendencies that foreshadow his mature paintings Mondrian's work began to show the influences of Cubism and in 1912 the artist moved to Paris where he continued to refine his style continually exploring increasingly sophisticated compositions In his paintings Mondrian strove to achieve a universal form of expression by reducing form and color to their simplest components The artist termed his work Neo Plasticism Mondrian's most well known works consisted of white ground upon

d'arte sagittaria, 1987 **The Rise and Fall of American Art, 1940s-1980s** Catherine Dossin, 2016-03-03 In The Rise and

Fall of American Art 1940s 1980s Catherine Dossin challenges the now mythic perception of New York as the undisputed center of the art world between the end of World War II and the fall of the Berlin Wall a position of power that brought the city prestige money and historical recognition Dossin reconstructs the concrete factors that led to the shift of international attention from Paris to New York in the 1950s and documents how peripheries such as Italy Belgium and West Germany exerted a decisive influence on this displacement of power As the US economy sank into recession in the 1970s however American artists and dealers became increasingly dependent on the support of Western Europeans and cities like Cologne

and Turin emerged as major commercial and artistic hubs a development that enabled European artists to return to the forefront of the international art scene in the 1980s Dossin analyses in detail these changing distributions of geopolitical and symbolic power in the Western art worlds a story that spans two continents forty years and hundreds of actors Her transnational and interdisciplinary study provides an original and welcome supplement to more traditional formal and national readings of the period

Letters from the Avant-Garde Ellen Lupton, Elaine Lustig Cohen, 1996-03 An unusual book which looks at the period between 1915 and 1950 and documents the history of modern design and typography through the medium of printed stationery Futurism Dada Surrealism De Stijl Constructivism the Bauhaus and other movements and institutions used letterheads to promote their ideas about form function and technology These letterheads and other ephemera reproduced here 150 plus color illustrations helped originate the modern discipline of design for corporate identity they are in a sense typographic self portraits of such figures of modernism as Le Corbusier Laszlo Moholy Nagy Piet Zwart among others Distributed by Chronicle Books 11x8 5 Annotation copyrighted by Book News Inc Portland OR

"Painting, Politics and the Struggle for the ?ole de Paris, 1944?964 " Natalie Adamson, 2017-07-05 Painting Politics and the Struggle for the ole de Paris 1944 1964 is the first book dedicated to the postwar or nouvelle ole de Paris It challenges the customary relegation of the ole de Paris to the footnotes not by arguing for some hitherto hidden merit for the art and ideas associated with this school but by establishing how and why the ole de Paris was a highly significant vehicle for artistic and political debate The book presents a sustained historical study of how this school was constituted by the paintings of a diverse group of artists by the combative field of art criticism and by the curatorial policies of galleries and state exhibitions By thoroughly mining the extensive resources of the newspaper and art journal press gallery and government archives artists writings and interviews with surviving artists and art critics the book traces the artists exhibitions and art critical debates that made the ole de Paris a zone of aesthetic and political conflict Through setting the ole de Paris into its artistic social and political context Natalie Adamson demonstrates how it functioned as the defining force in French postwar art in its defence of the tradition of easel painting as well as an international point of reference for the expansion of modernism In doing so she presents a wholly new perspective on the vexed relationships between painting politics and national identity in France during the two decades following World War II

Radical Form Megan A. Sullivan, 2022-08-23 A timely reassessment of some of the most daring projects of abstraction from South America Emphasizing the open ended and self critical nature of the projects of abstraction in South America from the 1930s through the mid 1960s this important new volume focuses on the artistic practices of Joaquin Torres Garc a Tom s Maldonado Alejandro Otero and Lygia Clark Megan A Sullivan positions the adoption of modernist abstraction by South American artists as part of a larger critique of the economic and social transformations caused by Latin America s state led programs of rapid industrialization Sullivan thoughtfully explores the diverse ways this skepticism of modernization and social and political change was expressed Ultimately the book makes it

clear that abstraction in South America was understood not as an artistic style to be followed but as a means to imagine a universalist mode of art a catalyst for individual and collective agency and a way to express a vision of a better future for South American society

The Collected Essays and Criticism, Volume 4 Clement Greenberg, 1986 Clement Greenberg is widely recognized as the most influential and articulate champion of modernism during its American ascendancy after World War II the period largely covered by these highly acclaimed volumes of *The Collected Essays and Criticism* Volume 3 *Affirmations and Refusals* presents Greenberg's writings from the period between 1950 and 1956 while Volume 4 *Modernism with a Vengeance* gathers essays and criticism of the years 1957 to 1969 The 120 works range from little known pieces originally appearing in *Vogue* and *Harper's Bazaar* to such celebrated essays as *The Plight of Our Culture* 1953 *Modernist Painting* 1960 and *Post Painterly Abstraction* 1964 Preserved in their original form these writings allow readers to witness the development and direction of Greenberg's criticism from his advocacy of abstract expressionism to his enthusiasm for color field painting With the inclusion of critical exchanges between Greenberg and F R Leavis Fairfield Porter Thomas B Hess Herbert Read Max Kozloff and Robert Goldwater these volumes are essential sources in the ongoing debate over modern art For each volume John O Brian has furnished an introduction a selected bibliography and a brief summary of events that places the criticism in its artistic and historical context
