of markets and competition led to a deregulation of the teacher preparation field in others teaching became a highly regulated and centralized affair At the same time ideas and structural models cross borders and education leaders borrow from each other while reshaping plans in each place Opening with a broad historical overview of global teacher education models beginning in the late eighteenth century Teaching the World s Teachers argues that the field has long been characterized by cross border connections but shaped by geopolitical hierarchies of power In an era when teacher quality is widely recognized as one of the most important factors in a child s education this volume encourages dialogue among teacher educators and policymakers around the world By understanding the context and contingency of where we have been the authors hope that readers will walk away with a more empowered sense of where we are headed in the all important task of teaching the world s teachers Contributors Kwame Akyeampong Richard Andrews Azeem Badroodien Maria In s G F Marcondes de Souza Gustavo E Fischman James W Fraser Guangwei Hu Arie Kizel Jari Lavonen Lauren Lefty Wei Liao Jason Loh Silvana Mesquita Hannele Niemi Lily Orland Barak Paula Razquin Carol Anne Spreen Eduard Vallory Yisu Zhou
