Moderate Drinking The New Option For Problem Drinkers:

Moderate Drinking Audrey Kishline, 1996 The official handbook of Moderation Management a non profit national self help program that supports moderate drinking as a reasonable and attainable recovery goal for problem drinkers Based on her own unsatisfactory experience with abstinence based programs Kishline offers inspiration and a step by step program to help individuals avoid the kind of drinking that detrimentally affects their lives

US of AA Joe Miller, 2019-04-02 In the aftermath of Prohibition America's top scientists joined forces with AA members and put their clout behind a campaign to convince the nation that alcoholism is a disease They had no proof but they hoped to find it once research money came pouring in The campaign spanned decades and from it grew a multimillion dollar treatment industry and a new government agency devoted to alcoholism But scientists research showed that problem drinking is not a singular disease but a complex phenomenon requiring an array of strategies There's less scientific evidence for the effectiveness of AA than there is for most other treatments including self enforced moderation therapy and counseling and targeted medications AA's own surveys show that it doesn't work for the overwhelming majority of problem drinkers Five years in the making Joe Miller's brilliant in depth investigative reporting into the history politics and science of alcoholism shows exactly how AA became our nation's de facto treatment policy even as evidence accumulated for more effective remedies and how as a result those who suffer the most often go untreated

US of AA is a character driven beautifully written exposé full of secrecy irony liquor industry money the shrillest of scare tactics and at its center a grand deception In the tradition of *Crazy* by Pete Earley and David Goldhill's *Catastrophic Care* *US of AA* shines a much needed spotlight on the addiction treatment industry It will forever change the way we think about the entire enterprise

Addiction Is a Choice Jeffrey A. Schaler, 2011-09-30 Politicians and the media tell us that people who take drugs including alcohol or nicotine cannot help themselves They are supposedly victims of the disease of addiction and they need treatment The same goes for sex addicts shopping addicts food addicts gambling addicts or even addicts to abusive relationships This theory which grew out of the Temperance movement and was developed and

disseminated by the religious cult known as Alcoholics Anonymous has not been confirmed by any factual research Numerous scientific studies show that addicts are in control of their behavior Contrary to the shrill mindless propaganda of the war on drugs very few of the people who use alcohol marijuana heroin or cocaine will ever become addicted and of those who do become heavy drug users most will matruue out of it in time without treatment Research indicates that treatment is completely ineffective an absolute waste of time and money Instead of looking at drub addiction as a disease Dr Schaler proposes that we view it as willful commitment or dedication akin to joining a religion or pursuing a romantic involvement While heavy consumption of drugs is often foolish and self destructive it is a matter of personal choice **Alcoholics**

Anonymous Charles Bufe,1997-12-01 This well researched painstakingly documented book provides detailed information on the right wing evangelical organization Oxford Group Movement that gave birth to AA the relation of AA and its program to the Oxford Group Movement AA s similarities to and differences from religious cults AA s remarkable ineffectiveness and the alternatives to AA The greatly expanded second edition includes a new chapter on AA s relationship to the treatment industry and AA s remarkable influence in the media **Handbook of Brief Cognitive Behaviour Therapy** Frank W. new and updated information and studies including an introduction by actress Claudia Christian the second edition of The Cure for Alcoholism delivers exactly what millions of alcoholics and families of alcoholics have been hoping for a painless dignified and medically proven cure for their addiction Backed by 82 clinical trials and research that extends back to 1964 The Sinclair Method deploys an opiate blocking medication in a very specific way in combination with ongoing drinking to extinguish the addictive software in the brain The de addiction process rolls back the addictive mechanism in the brain to its original pre addicted state before the first drink was consumed making this program an actual cure for alcoholism Drs Roy Eskapa and David Sinclair of The Sinclair Method have put together a sound scientific book that proves that with this particular method alcoholism can be cured in more than 78 percent of patients What s more the treatment avoids the dangerous withdrawal symptoms allowing patients to detox gradually and safely while they are still drinking This removes the need for expensive and unpleasant inpatient rehabilitation programs Actual drinking levels and cravings automatically decrease until control over alcohol is restored The bottom line is that patients can control their drinking or stop altogether

Drinking in Context Gerry Stimson, Marcus Grant, Marie Choquet, Preston Garrison, 2013-05-13 Drinking beverage alcohol is a widespread source of individual and social pleasure in most countries around the world Yet some drinking patterns can lead to serious physical mental and social harms *Drinking in Context* is intended to complement existing volumes dealing with international alcohol policy by focusing on three main themes drinking patterns targeted interventions and partnership development An understanding that patterns of drinking are important predictors of outcomes has led to a growing realization that alcohol policies and prevention strategies need to focus on excessive or irresponsible drinking As a result there has been a shift towards interventions that address the targeted reduction of harm These approaches recognize socio cultural differences and avoid trying to impose a one size fits all solution In this context multi stakeholder partnerships offer an excellent opportunity to promote the complex mix of measures required by each society Shared responsibilities lead to shared solutions
