**Modern Art and the Grotesque** Frances S. Connelly, 2009-07-16 Frances Connelly examines how the concept of the grotesque has influenced the history practice and theory of art in the nineteenth and twentieth centuries The grotesque has been adopted by a succession of artists as a way to push beyond established boundaries explore alternate modes of experience and expression and challenge the status quo Examining specific images by a range of artists such as Ingres Gauguin H ch de Kooning Polke and Mona Hatoum these essays encompass a variety of media including medical illustration paintings prints photography multimedia installations and film Encyclopedia of Contemporary Literary Theory Irene Rima Makaryk, 1993-01-01 The last half of the twentieth century has seen the emergence of literary theory as a new discipline As with any body of scholarship various schools of thought exist and sometimes conflict within it I R Makaryk has compiled a welcome guide to the field Accessible and jargon free the Encyclopedia of Contemporary Literary Theory provides lucid concise explanations of myriad approaches to literature that have arisen over the past forty years Some 170 scholars from around the world have contributed their expertise to this volume Their work is organized into three parts In Part I forty evaluative essays examine the historical and cultural context out of which new schools of and approaches to literature arose The essays also discuss the uses and limitations of the various schools and the key issues they address Part II focuses on individual theorists It provides a more detailed picture of the network of scholars not always easily pigeonholed into the categories of Part I This second section analyses the individual achievements as well as the influence of specific scholars and places them in a larger critical context Part III deals with the vocabulary of literary theory It identifies significant complex terms places them in context and explains their origins and use Accessibility is a key feature of the work By avoiding jargon providing mini bibliographies and cross referencing throughout Makaryk has provided an indispensable tool for literary theorists and historians and for all scholars and students of contemporary criticism and culture

**Baudelaire and Caricature: From the Comic to an Art of Modernity**, Baudelaire s essays on caricature offered the first sustained defense of the value of caricature as a serious art worthy of study in its own right This book argues for the crucial importance of the essays for his conception of modernity so fundamental to the subsequent history of modernism From the theory of the comic formulated in *De l essence du rire* to his discussions of Daumier Goya Hogarth Cruikshank Bruegel Grandville Gavarni Charlet and many others Baudelaire develops not only an aesthetic of caricature but also a caricatural aesthetic dual and contradictory grotesque ironic violent farcical fantastic and fleeting that defines an art of modern life In particular Baudelaire s insistence on the dualism and ambiguity of laughter has radical implications for such emblems of modernity as the city and the fl neur who roams the streets The modern city is the space of the comic a kind of caricature presenting the fl neur with an image of dualism one s position as subject and object implicated in the same urban experiences one seems to control The theory of the comic invests the idea of modernity with reciprocity one s status as laughter and object of laughter

thus preventing the subjective construction and appropriation of the world that has so often been linked with the project of modernism Comic art reflects what Walter Benjamin later defined as Baudelairean allegory at once representing and revealing the alienation of modern experience But Baudelaire also transforms the dualism of the comic into a peculiarly modern unity the doubling of the comic artist enacted for the benefit of the audience the self generating and self reflexive experience of the fl neur in a communion with the crowd This study examines his views in the context of the history of comic theory and contemporary accounts of the individual artists Complete with illustrations of the many works discussed it illuminates the history and theory of caricature the comic and the grotesque and adds to our understanding of modernism in literature and the visual arts

**Cultural Contact and the Making of European Art since the Age of Exploration** Mary D. Sheriff, 2010-06-21 Art historians have long been accustomed to thinking about art and artists in terms of national traditions This volume takes a different approach suggesting instead that a history of art based on national divisions often obscures the processes of cultural appropriation and global exchange that shaped the visual arts of Europe in fundamental ways between 1492 and the early twentieth century Essays here analyze distinct zones of contact between various European states between Asia and Europe or between Europe and so called primitive cultures in Africa the Americas and the South Pacific focusing mainly but not exclusively on painting drawing or the decorative arts Each case foregrounds the centrality of international borrowings or colonial appropriations and counters conceptions of European art as a pure tradition uninfluenced by the artistic forms of other cultures The contributors analyze the social cultural commercial and political conditions of cultural contact including tourism colonialism religious pilgrimage trade missions and scientific voyages that enabled these exchanges well before the modern age of globalization Contributors Claire Farago University of Colorado at Boulder Elisabeth A Fraser University of South Florida Julie Hochstrasser University of Iowa Christopher Johns Vanderbilt University Carol Mavor University of North Carolina at Chapel Hill Mary D Sheriff University of North Carolina at Chapel Hill Lyneise E Williams University of North Carolina at Chapel Hill

**The Grotesque in the Works of Bruno Jasiński** Agata Krzychylkiewicz, 2006 This book is the first critical

attempt made in any language to re examine the entire oeuvre of Bruno Jasie ski 1901 1938 It takes into account the writer s lifelong concerns but places them in the context of the universal value of his writing generated by his modernist passions and his fascination with the grotesque an artistic device that was consonant with his need to portray life in all its complexities The author relies on the grotesque as an element that unifies Jasie ski s futuristic poetry with his prose Especially important in this regard is the close reading of Jasie ski s satiric grotesques written in the Soviet Union The author does not avoid the intricacies and difficult questions of Jasie ski s ideological commitment but focuses mainly on the consequences that the highly ambivalent and ambiguous nature of the grotesque has on the interpretation of his work *Retold Feminine*
