Manolis Anagnostakis Vangelis Calotychos, 2012-04-19 The book reflects on the life and work of a significant poet public figure and influential commentator of the cultural social and political history of Greece post World War II Manolis Anagnostakis 1925 2005 It considers his oeuvre in relation to the work of his peers and to traditions of writing both Greek and non Greek as it challenges the assumptions and determinations of his critics The volume explores the author's sustained reflection on what it is poetry does if anything and how it goes about this at different historical moments It does so through the framework of his political and social perspectives as well as against principles of committed action above all to leftist ideas and movements For Anagnostakis is vitally important for thinking about the relation of politics to poetics and the complex and in some quarters contradictory relation of leftist politics and the travails of euro communism to poetry and literature This analysis therefore coincides with the larger questioning of the role for the Left post 1989 The volume focuses not only on the poet's canonical poetry up to 1971 but also on the period of his subsequent self imposed silence and his other meta poetic writings after that date Two of Anagnostakis's previously unavailable late collections and a posthumously published interview with the poet appear here in English translation for the very first time Coming but a few years after the poet's death in 2005 this rare book length study of a single Greek poet other than Cavafy features articles by leading critics from the American academy Like Anagnostakis's own work these contributions represent a diverse range of approaches and voices at turns essayistic impressionistic and creative and at others scholarly punctilious and critical
