Don't Need God and Other Modern Myths Alister E. McGrath, 2010-12-21 Rethinking Effective Apologetics for the Present Age Christians have always had to defend their faith against all kinds of criticism and misunderstandings but these attacks change overtime and the strongest arguments of the famous classical apologists who preceded us are not necessarily the strongest today Intellectuals Don t Need God is written to today s faithful apologists who are trying to commend Christianity in terms of its relevance to everyday life and not just its inherent rationality Its focuses are Understanding and overcoming the barriers of faith in today s culture Presenting the points of contact between daily life and spiritual longing Demonstrating the apologetics of today in action Theologian and scientist Dr Alister McGrath author of the ECPA 2014 Christian Book Award Winning biography of C S Lewis shows convincingly that appeal to reason is only one of many possible bridges between the non Christian and the gospel In today s world cerebral and emotional concerns such as a sense that life lacks purpose or a deep sense of longing for something unknown are often more effective starting points for modern apologetics Dr McGrath combines the clarity of a brilliant scientific mind with a deep commitment to Christ and to reaching non Christians Intellectuals Don t Need God is for apologists and seekers alike for both those defending and questioning the validity and value of Christianity A Primer on Postmodernism Stanley J. Grenz, 1996-02-06 Grenz examines the topography of postmodernism a phenomenon everyone acknowledges but has difficulty describing with precision Of particular significance is his discussion of the challenges this cultural shift presents to the church

From Ancient Myth to Modern Healing Pamela Donleavy,Ann Shearer,2008-06-30 This book is about the energy

personified by the classical Greek goddess Themis who brought her divine and natural right order to gods and humans and who still presides over law courts as the figure of Justice In many Western countries today the growing dis ease in minds and bodies of individuals is often echoed in whole communities Rather than coming together they seem to split apart in anger and distress But themis energy is equally powerful and can work to bring together and to heal From the battle of the Titans and Olympians to the oracle at Delphi and the banquet of the gods the stories of the goddess weave through these chapters to illuminate how themis energy is at work today The authors explore psychological healing in individuals and relate this to new research in neurocardiology on the subtle interactions of body and mind They show how the international movement for restorative justice is drawing on the same healing tools to benefit victims and offenders alike And they evoke the extraordinary story of the South African Truth and Reconciliation Commission which shows the world how themis energy can help transform a ravaged society This book deepens understanding of the psychological urge towards healing and wholeness which is as much a part of human beings as the urge to destroy It offers exciting new insights into Jung s unique approach to the relationship between individual and collective psychology It will appeal to psychologists who work with individuals and groups to lawyers and others concerned with the failure of current criminal justice systems and to people involved in religious political and other groups that seek to build communities which can encompass and even celebrate diversity rather than rejecting it in fear

Old Myths-modern Empires Michela Canepari-Labib,2005 This study gives substantial coverage and close critical attention to a wide range of Coetzee s published writings in the attempt to situate his oeuvre within the framework of both postmodernist and postcolonial theory and criticism In addition it links the political and social aspects of Coetzee s work its South African provenance and its often oblique engagement with contemporary issues with formal questions regarding structure rhetoric and narrative strategies as tackled in his novels By approaching Coetzee s fiction from a variety of critical angles and taking into account both the transformations in the socio political context of South Africa and the recent changes in critical reception exemplified by the Nobel Prize he was awarded in 2003 this book therefore offers a thorough assessment of the author s oeuvre

Possibility's Parents Margaret Seyford Hrezo,Nicholas Pappas,2019-10-23 This book links the questions people ask about why things exist why the world is the way it is and whether and how it is possible to change their society or world with the societal myths they develop and teach to answer those questions and organize and bring order to their communal lives It also is about the need for change in western societies current organizing concept classical Lockean liberalism Despite the attempts of numerous insightful political thinkers the myth of classical liberalism has developed so many cracks that it cannot be put back together again If not entirely failed it is at this point unsalvageable in its present form Never the thought of just one person the liberal model of individual religious political and economic freedom developed over hundreds of years starting with Martin Luther s dictum that every man should be his own priest Although classical liberalism means different things to different people at its most

basic level this model sees human beings as individuals who exist prior to government and have rights over government and the social good That is the individual right always trumps the moral and social good and individuals have few obligations to one another unless they actively choose to undertake them Possibility s Parents argues that Lockean liberalism has reached the end of its logic in ways that make it unable to handle the western world s most pressing problems and that novelists whose writing includes the form and texture of myth have important insights to offer on the way forward **Unveiling the Apocalyptic Paul** R. Barry Matlock,1996-02-01 Apocalyptic is a key concept for 20th century interpretation of Paul embracing several major figures and strands of inquiry But the category apocalyptic has itself of late come in for scrutiny which in turn reflects back on apocalyptic interpretation of Paul This study offers a review of interpretation ranging beyond Pauline studies to address apocalyptic interpretation generally Sustained attention to what interpreters are doing with this category placed alongside what is claimed as being done reveals a hermeneutical story of considerable interest and wide relevance which situates the whole interpretive dialogue
