**Imperialism** Oliver Boyd-Barrett, 2014-12-01 How does control of media resources serve political and economic ends What is the impact of media concentration and monopoly in the era of technology convergence with not just traditional and new media but also consumer electronics telephony and computing industries Revisiting the classic concept of media imperialism Oliver Boyd Barrett presents a thorough retake for the 21st century arguing for the need to understand media and empires and how structures of power and control continue to regulate our access to and consumption of the media It s no longer just Disney and Dallas it s also now Alibaba Apple Facebook Google Samsung and Huawei Examining the interplay between communications industries and the hierarchies and networks of political corporate and plutocratic power in a globalized world the book explains the historical context of the relationship between media and imperialism contestation and collaboration among new media empires the passion for social justice that inspired the original theories of media and cultural imperialism and how it has been embraced by a new generation Digging deeply into the global landscape and emerging media markets to explore how media power works across transnational boundaries this book gives a clear and sophisticated argument for why media imperialism still matters **Power, Politics and International Events.** Udo Merkel, 2013-07-24 Although the event management field has grown considerably over the last decade critical social scientific studies of the international events industry are rare This book intends to help fill this void It focuses on power social and political relations conflicts and controversies in the context of international events popular festivals and famous spectacles It draws on recent primary research and offers a diverse range of new and intriguing case studies for example the Arirang Festival in North Korea the Gay Games the Gymnaestrada horse racing events the London 2012 Olympics regional and rural festivals the World Baseball Classic World Fairs Expos and U2 concerts The main aim of this volume is to bring the critical social scientific analysis of events festivals and spectacles more into the core of the teaching of events management degree programmes The book draws extensively upon the disciplines of politics sociology cultural studies and history In the process it addresses key themes such as political economy politics of popular culture the global and the local regionalism and globalization nations and nationalism international relations and foreign policy This groundbreaking collection of essays is unique and innovative It will be an essential source for students researchers and academics with a keen interest in critical social scientific analyses of events *Megaevents and Modernity* Maurice Roche, 2002-11 Explores the social history and politics of mega events from

the late 19th century to the present Case studies 1936 Berlin Olympics 1992 Barcelona Olympics 1851 Crystal Palace Expo A thoroughly new and ground breaking analysis **Moderns Abroad** Mia Fuller,2007-01-24 This book focuses on Italian colonialism in the context of other European colonial systems and explores Italian attitudes to other cultures examining how this attitude of expansionism is reflected in the physical and ideological environment **Imperialism and Idealism** David L. Anderson,1985 Combining biography with foreign policy analysis David L Anderson provides a fresh interpretation of Sino American relations in the nineteenth century The book focuses on the eight Americans who occupied the chief U S diplomatic post in China from 1861 to 1898 and personally shaped American policy toward China in the forty years before Secretary of State John Hay s Open Door Notes Their policies as Anderson explains were as varied as the eight individuals and yet at the same time were characteristically American expressing both idealistic altruism and imperialistic self interest Ultimately John Hay merged the altruism and the self interest in the Open Door Notes of 1899 and 1900 which influenced much of America s twentieth century conduct in Asia Anderson reemphasizes Hay s role in bridging the differences that have plagued U S policy in China **Ecological Imperialism, Development, and the Capitalist World-System** Mariko Lin Frame,2022-10-13 Two major trends are currently challenging the sustainability of human civilization extreme inequality and the ecological crisis This book argues that these are intrinsically linked by further exploring the complex relationships between global ecological crises neoliberal globalization orthodox development policies and imperialism Drawn from extensive theoretical historical policy and empirical research as well as fieldwork in Africa and Asia this book examines the crucial characteristics of the capitalist world system and how it enables and drives ecological imperialism Neoliberal globalization has allowed for capital s unfettered access to and exploitation of Nature across the planet and neoliberal development policies have reinforced a contemporary form of ecological imperialism where the environments of the Global South are enclosed and exploited and local communities are dispossessed of their land and livelihoods Simultaneously resources from the Global South are funneled to the Global North in the form of consumer goods and ecologically unequal exchange while the profits from those resources are siphoned away to transnational corporations financiers and government elites This work traces the historical development of free market policies while also paying special attention to the role of Northern international financial institutions emerging economies the semi periphery and the often hidden role of international finance in ecological imperialism This volume will be of keen interest to scholars and students of political economy critical development studies environmental sociology and political ecology **New Urban Configurations** R. **The Political Economy of Dissent** Peter Blunt, Cecilia Escobar, Vlassis Missos, 2025-10-22

In 2020 Noam Chomsky asserted that the time to panic about the existential threats posed by nuclear war global warming and the stifling of informed debate in supposedly open and democratic societies was upon us and that it was the duty of concerned citizens to act accordingly Hastened by the lingering aftermath of the 2008 financial crisis the COVID 19 pandemic the proxy war in Ukraine the decline of US economic hegemony and increasing hostility between the US and China he concluded in early 2023 that unless the US could be persuaded to cooperate with its declared adversaries and capitalism could be overthrown or defanged there was little hope for survival The authors of this book argue that achieving these ends will depend greatly on effective individual and collective worldwide dissent The book analyses and exemplifies dissent in the main domains of institutionalised capitalist control and the manufacture of uninformed consent namely political economy education the media and IT work and trade unions the commons and communities and culture And thereby gives voice and hope to the downtrodden and marginalised including indigenous peoples and those of the global south It provides an uplifting counter to the otherwise seemingly overwhelming expression of uninformed consent one that will inspire by example and be an antidote to the fear and defeatism instilled by capitalist intransigence indoctrination and control The book is addressed to students scholars and researchers primarily but its breadth of coverage authenticity and plain writing style will appeal to activists community organisers and concerned citizens both in industrialised countries and the global south

*Asian City*

*Crossings* Rossella Ferrari, Ashley Thorpe, 2021-05-17 Asian City Crossings is the first volume to examine the relationship between the city and performance from an Asian perspective This collection introduces city as method as a new conceptual framework for the investigation of practices of city based performing arts collaboration and city to city performance networks across East and Southeast Asia and beyond The shared and yet divergent histories of the global cities of Hong Kong and Singapore as postcolonial multiethnic multicultural and multilingual sites are taken as points of departure to demonstrate how city as method facilitates a comparative analytical space that foregrounds in betweenness and fluid positionalities It situates inter Asian relationality and inter city referencing as centrally significant dynamics in the exploration of the material and ideological conditions of contemporary performance and performance exchange in Asia This study captures creative dialogue that travels city based pathways along the Hong Kong Singapore route as well as between Hong Kong and Singapore and other cities through scholarly analyses and practitioner reflections drawn from the fields of theatre performance and music This book combines essays by scholars of Asian studies theatre studies ethnomusicology and human geography with reflective accounts by Hong Kong and Singapore based performing arts practitioners to highlight the diversity vibrancy and complexity of creative projects that destabilise notions of identity belonging and nationhood through strategies of collaborative conviviality and transnational mobility across multi sited networks of cities in Asia In doing so this volume fills a considerable gap in global scholarly discourse on performance and the city and on the production and circulation of the performing arts in Asia

**Orphanage Tourism in Nepal** Dr. Esther Bott, 2025-02-11 This book tackles for the first time the complex issues surrounding the phenomenon of orphanage tourism which is a growing and highly lucrative tourism niche in Nepal and several other economically developing countries The book explores the occurrence of orphanage tourism in Nepal how it is experienced understood sustained opposed and crucially how it shapes the lives of the children involved Rather than exploring the motives of tourists who engage in volunteering in orphanages while on holiday as so much extant literature does the book examines the factors that contribute to the emergence of commercial orphanages and the experiences of the children involved A central concern is to illustrate the inadequate ways in which orphanage tourism is understood framed and politicised especially in terms of who is blamed for its prevalence and how various Western entities position themselves as agents of rescue By examining Nepal's socioeconomic and geopolitical landscape as well as the role of Western international development and structural adjustment and the impacts of tourism the book presents a deeper and more complete picture of the emergence of orphanage tourism and other forms of child labour Furthermore by examining the everyday realities of life in Nepal especially for children and young adults who grew up in contact with Western volunteers in commercial orphanages the simplistic depiction of orphans as victims who need saving from villains by heroes is dismantled The book is especially focused on showing how the historical and everyday realities of life for children compelled to work are all too often ignored obscured and distorted in the interventionist discourse that is beginning to

surround orphanage tourism I will argue that common orphan tropes imbued with desperation and vulnerability are circulated in no small way towards predominantly fulfilling the agendas of various Western parties
