The Emperors of Modern Japan Ben-Ami Shillony, 2008 The book offers a fascinating picture of the four emperors of modern Japan their institution their personalities and their impact on the history of their country Leading scholars from

Japan and other countries have contributed essays which treat this subject from various angles Modern Japan, Student Economy Edition Mikiso Hane, 2018-04-27 This book presents the essential facts of modern Japanese history It covers a variety of important developments through the 1990s giving special consideration to how traditional Japanese modes of thought and behavior have affected the recent developments New Times in Modern Japan Stefan Tanaka, 2004 New Times in Modern Japan concerns the transformation of time the reckoning of time during Japan's Meiji period specifically from around 1870 to 1900 Time literally changed as the archipelago synchronized with the Western imperialists reckoning of time The solar calendar and clock became standard timekeeping devices and society adapted to the abstractions inherent in modern notions of time This set off a cascade of changes that completely reconfigured how humans interacted with each other and with their environment a process whose analysis carries implications for other non Western societies as well By examining topics ranging from geology ghosts childhood art history and architecture to nature as a whole Stefan Tanaka explores how changing conceptions of time destabilized inherited knowledge and practices and ultimately facilitated the reconfiguration of the archipelago's heterogeneous communities into the liberal capitalist nation state Japan However this revolutionary transformation where in the words of Lewis Mumford the clock not the steam engine is the key mechanism of the industrial age has received little more than a footnote in the history of Japan This book's innovative focus on time not only shifts attention away from debates about the failure or success of modernization toward how individuals interact with the overlay of abstract concepts upon their lives it also illuminates the roles of history as discourse and as practice in this reconfiguration of society In doing so it will influence discussions about modernity well beyond the borders of Japan **The Making of Modern Japan** Marius B. Jansen, 2002-10-15 Magisterial in vision sweeping in scope this monumental work presents a seamless account of Japanese society during the modern era from 1600 to the present A distillation of more than fifty years engagement with Japan and its history it is the crowning work of our leading interpreter of the modern Japanese experience **Negotiating Censorship in Modern Japan** Rachael Hutchinson, 2013-08-21 Censorship in Japan has seen many changes over the last 150 years and each successive system of rule has possessed its own censorship laws regulations and methods of enforcement Yet what has remained constant through these many upheavals has been the process of negotiation between censor and artist that can be seen across the cultural media of modern society By exploring censorship in a number of different Japanese art forms from popular music and kabuki performance through to fiction poetry and film across a range of historical periods this book provides a striking picture of the pervasiveness and strength of Japanese censorship across a range of media the similar tactics used by artists of different media to negotiate censorship boundaries and how censors from different systems and time periods face many of the same problems and questions in their work The essays in this collection highlight the complexities of the censorship process by investigating the responsibilities and choices of all four groups artists censors audience and ideologues in a wide range of case studies The contributors shift the focus

away from top down suppression towards the more complex negotiations involved in the many stages of an artistic work all of which involve movement within boundaries as well as testing of those boundaries on the part of both artist and censor Taken together the essays in this book demonstrate that censorship at every stage involves an act of human judgment in a context determined by political economic and ideological factors This book and its case studies provide a fascinating insight into the dynamics of censorship and how these operate on both people and texts As such it will be of great interest to students and scholars interested in Japanese studies Japanese culture society and history and media studies more generally

Making and Unmaking Modern Japan Ritu Vij, 2016-04-12 The papers assembled here share the dual conviction that 1 understanding the lineaments of Japanese modernity entails an appreciation of the specific forms of distinctions discriminations and exclusions constitutive of it 2 that the socio economic political fractures increasingly visible under conditions of late modernity reveal the precarious nature of the making of modernity in Japan Bringing together a group of critical intellectuals mostly based in Japan with long standing political commitments to groups emblematic of modern Japan s constitutive outside inorities migrants foreigners victims of the Fukushima disaster welfare recipients among others this collection of essays aims to draw attention to processes of making and unmaking that constellate Japanese modernity Unlike previous attempts however devoted to destabilizing positivist culturalist approaches to a post war miracle Japan via a critical post structural theoretical vocabulary and episteme the essays gathered here aim principally to examine traces of the making of modern Japan in the fissures and displacements visible at sites of modernity s unmaking Deploying a range of theoretical approaches rather than a commitment to any single framework the essays that follow aim to locate contemporary Japan and the ravages of its modernity within a wider critical discourse of modernity

Suicidal Narrative in Modern Japan Alan Stephen Wolfe, 2014-07-14 Dazai Osamu 1909 1948 is one of Japan s most famous literary suicides known as the earliest postwar manifestation of the genuinely alienated writer in Japan In this first deconstructive reading of a modern Japanese novelist Alan Wolfe draws on contemporary Western literary and cultural theories and on a knowledge of Dazai s work in the context of Japanese literary history to provide a fresh view of major texts by this important literary figure In the process Wolfe revises Japanese as well as Western scholarship on Dazai and discovers new connections among suicide autobiography alienation and modernization As shown here Dazai s writings resist narrative and historical closure while he may be said to serve the Japanese literary establishment as both romantic decadent and representative scapegoat his texts reveal a deconstructive edge through which his posthumous status as a monument of negativity is already perceived and undone Wolfe maintains that cultural modernization pits a Western concept of the individual as realized self and coherent subject against an Eastern absent self and that a felt need to overcome this tension inspires the autobiographical fiction so prevalent in Japanese novels Suicidal Narrative in Modern Japan shows that Dazai s texts also resist readings that would resolve the gaps East West self other modern premodern still prevalent in Japanese intellectual life Originally published in 1990 The
