The Cambridge Companion to Nineteenth-Century American Poetry Kerry Larson, 2011-12-01 This Companion is the first critical collection of its kind devoted solely to American poetry of the nineteenth century It covers a wide variety of authors many of whom are currently being rediscovered A number of anthologies in the recent past have been devoted to the verse of groups such as Native Americans African Americans and women This volume offers essays covering these groups as well as more familiar figures such as Dickinson Whitman Longfellow and Melville The contents are divided between broad topics of concern such as the poetry of the Civil War or the development of the poetess role and articles featuring specific authors such as Edgar Allan Poe or Sarah Piatt In the past two decades a growing body of scholarship has been engaged in reconceptualizing and re evaluating this largely neglected area of study in US literary history this Companion reflects and advances this spirit of revisionism **A History of American Literature 1900 - 1950** Christopher MacGowan, 2024-05-13

provides essays on the careers works and backgrounds of more than 100 nineteenth century poets It also provides entries on specialized categories of twentieth century verse such as hymns folk ballads spirituals Civil War songs and Native American poetry Besides presenting essential factual information each entry amounts to an in depth critical essay and includes a bibliography that directs readers to other works by and about a particular poet Fictions of Form in American Poetry Stephen Cushman,2014-07-14 In the 1830s Alexis de Tocqueville prophesied that American writers would slight even despise form that they would favor the sensational over rational order He suggested that this attitude was linked to a distinct concept of democracy in America Exposing the inaccuracies of such claims when applied to poetry Stephen Cushman maintains that American poets tend to overvalue the formal aspects of their art and in turn overestimate the relationship between those formal aspects and various ideas of America In this book Cushman examines poems and prose statements in which poets as diverse as Emily Dickinson and Ezra Pound describe their own poetic forms and he investigates links and analogies between poets notions of form and their notions of Americanness The book begins with a brief discussion of Whitman who said The United States themselves are essentially the greatest poem Cushman takes this to mean that American poetry has succeeded in making fictions about itself which persuade its readers that its uniqueness transcends merely geographical boundaries He explores the truth of this statement by considering the Americanness of Emily Dickinson Ezra Pound Elizabeth Bishop and A R Ammons He concludes that the uniqueness of American poetry lies not so much in its forms as in its formalism and in the various attitudes that formalism reveals Originally published in 1993 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 **The Image of Modern Man in T. S. Eliot's Poetry** Mariwan Nasradeen Hasan Barzinji,2012 A Synopsis of The Image of Modern Man in T S Eliot s Poetry The book presents an original understanding of The Image of Modern Man in T S Eliot s complex and difficult poems in an easy and understandable way Eliot s vision of the Modern Man and the modern world is depicted throughout Eliot s most well known poems Eliot was criticized by some critics for the quality of his work The aim of this book is to show what an excellent and successful writer he is to reveal the value and the contemporaneity of his work His poetry is highly evaluated for its unique way of depicting the Modern human by realizing their problems as well as finding solutions for them The book is a great help not only for students but also for researchers as the writer has spent much time in reading Eliot s Poems He has also written an ample introduction about modernism modernity modern literature and modern poetry which might be enough to understand the rise of modern poetry All of Eliot s poems especially The Waste Land has presented readers with all the aspects of the modern life Life is depicted as a mirror broken and shattered into pieces as it is clear in

the different parts of the poem Eliot unlike many poets did not leave the modern man lost in despair but he finds them their peace of mind by having a true and stable faith as well as their turning to God The only solution for the entire problems of modern man is to turn to God and neglect the world that completely occupied them spiritually Modern man lost has lost his values especially women by only looking after children many of them turned to prostitution because they did not have any source of income therefore they used that as a way to earn money to maintain life These are the characteristics of the modern city which are shared by all the countries especially Europe Eliot insists on the necessity of turning from world to God He believed that God can solve their problems because man or any other earthly power could not change that gloomy and aimless life which modern man complained against

T. S. Eliot: Critical Essays Mariwan N. H. Barznji, Latef S. N. Berzenji, 2017-08-02 This edited book is the work of four years where the writers try to present a different study and understanding of some of T S Eliot's poetry and his unique style of being a modern poet not exactly like the other modernist poets such as Ralph Waldo Emerson We have found that Eliot in his poetry and prose writings was a modernist writer who unlike other modernist poets did not accept the way others rejected the values of religion and tradition Eliot focuses more on

the role of religion and tradition in the psychological state of the individual and its impact upon the social stability His viewpoint regarding the vital role of spirituality in the life of the individual could be clearly seen in his poetic poems and prose writings but this aspect has been too little or not tackled as it is done with Homer

Artistic Outlaws Sonja Samberger, 2005 The creator of the new composition in the arts is an outlaw until he is a classic Gertrude Stein wrote in 1926 Unlike male modernists such as T S Eliot or Ezra Pound the modernist women poets Edith Sitwell Amy Lowell Stein and H D never became high modernist models but remained artistic outlaws The present study shows how these women were present on the modernist scene but followed their own concepts and struggled to establish their position as modernist women poets Defying definition the four poets not only richly contributed to modernism but were indeed its developers

Incarnations of Material Textuality Katarzyna Bazarnik, Izabela Curyłło-Klag, 2014-10-02 Liberature coined from the Latin liber is simultaneously a movement in contemporary Polish literature and a term referring to literary works that integrate text and material features of the book into an organic whole in accordance with the author's design The

present volume collects essays inspired by this theoretical concept first proposed by Polish poet Zenon Fajfer in 1999 but soon picked up and elaborated on by international scholars As noted by the contributing authors preceding Jessica Pressman's idea of bookishness and coinciding with N Katherine Hayles fundamental writings liberature appeared at the end of the 20th century as if to resume and systematize the intuitions and provocative statements of writers concerned with the future of the book It fits into a wider turn towards the recognition of the embodied nature of information in anthropology literary textual media and AI studies Yet its distinctness consists in the fact that it was suggested by a creative writer and that it proposes to see the authorially shaped materiality of writing in terms of a literary genre The essays collected here present the modernist roots and inspirations of liberature address the semantics of typography and the question of materiality of literary writing and explore how the abstract body of the printed book is transformed into an experience of embodiment The volume is completed with a reprint of Fajfer's seminal essays with a view to making them more available to English speaking readers
