midcentury Catholicization of the American imagination and Smith showcases the talents of Catholics who made major contributions to cinema Leo McCarey's Oscar winning film *Going My Way* starring the soothing and Catholic Bing Crosby turned the Catholic parish into a vehicle for American dreams while Pat O'Brien and Spencer Tracy portrayed heroic priests who championed the underclass in some of the era's biggest hits And even while a filmmaker like John Ford rarely focused on clerics and the Church Smith reveals how his films gave a distinctly ethnic Catholic accent to his cinematic depictions of American community Smith also looks at the efforts of Henry Luce's influential *Life* magazine to harness Catholicism to a postwar vision of middle class prosperity and cultural consensus And he considers the unexpected success of Bishop Fulton J Sheen's prime time television show *Life is Worth Living* in the 1950s which offered a Catholic message that spoke to the anxieties of Cold War audiences Revealing images of orthodox belief whose sharpest edges had been softened to suggest tolerance and goodwill Smith shows how such representations overturned stereotypes of Catholics as un-American Spanning a time when hot and cold wars challenged Americans traditional assumptions about national identity and purpose his book conveys the visual style moral confidence and international character of Catholicism that gave it the cultural authority to represent America

Methodists and the Crucible of Race, 1930-1975 Peter C. Murray, 2004 In *Methodists and the Crucible of Race 1930 1975* Peter C Murray contributes to the history of American Christianity and the Civil Rights movement by examining a national institution the Methodist Church after 1968 the United Methodist Church and how it dealt with the racial conflict centered in the South Murray begins his study by tracing American Methodism from its beginnings to the secession of many African Americans from the church and the establishment of separate northern and southern denominations in the nineteenth century He then details the reconciliation and compromise of many of these segments in 1939 that led to the unification of the church This compromise created the racially segregated church that Methodists struggled to eliminate over the next thirty years During the Civil Rights movement American churches confronted issues of racism that they had previously ignored No church experienced this confrontation more sharply than the Methodist Church When Methodists reunited their northern and southern halves in 1939 their new church constitution created a segregated church structure that posed significant issues for Methodists during the Civil Rights movement Of the six jurisdictional conferences that made up the Methodist Church only one was not based on a geographic region the Central Jurisdiction a separate conference for all Negro annual conferences This Jim Crow arrangement humiliated African American Methodists and embarrassed their liberal white allies within the church The Supreme Court s *Brown v Board of Education* decision awakened many white Methodists from their complacent belief that the church could conform to the norms of the South without consequences among its national membership Murray places the struggle of the Methodist Church within the broader context of the history of race relations in the United States He shows how the effort to destroy the barriers in the church were mirrored in the work being done by society to end segregation Immensely readable and free of jargon *Methodists and the Crucible of Race 1930 1975* will be of interest to a broad audience including those interested in the Civil Rights movement and American church history
