Films That Spill is a comprehensive study of the Cinema of Transgression a hitherto underexamined moment in US underground film culture Reconsidering the concept of transgressive cinema not only as a description of the intentionally provocative content of the films but also as a feature of a cross disciplinary practice Marie Sophie Beckmann explores how filmmaking in the context of the vibrant and intermingling art music performance and film scenes in 1980s Lower Manhattan spilled over the boundaries of artistic disciplines media formats and content concepts This study not only provides a microhistory of these scenes and insight into their afterlife in archives and exhibitions but also represents an innovative contribution to debates within film media and visual culture about the methodological and historiographical challenges posed by the expansion of film beyond the discursive boundaries of cinema *Modern Print Activism in the United States* Rachel Schreiber, 2016-04-15

The explosion of print culture that occurred in the United States at the turn of the twentieth century activated the widespread use of print media to promote social and political activism Exploring this phenomenon the essays in *Modern Print Activism in the United States* focus on specific groups individuals and causes that relied on print as a vehicle for activism They also take up the variety of print forms in which calls for activism have appeared including fiction editorials letters to the editor graphic satire and non periodical media such as pamphlets and calendars As the contributors show activists have used print media in a range of ways not only in expected applications such as calls for boycotts and protests but also for less expected aims such as the creation of networks among readers and to the legitimization of their causes At a time when the golden age of print appears to be ending *Modern Print Activism in the United States* argues that print activism should be studied as a specifically modernist phenomenon and poses questions related to the efficacy of print as a vehicle for social and political change
