**Amanda L. Golbeck**

## **Modern Britain Since 1906 A Reader:**

**Modern Britain Since 1906** Keith Laybourn, 1999-12-31 Based on a wide range of primary and secondary sources parliamentary debates public speeches official papers press reports journal and magazine articles memoirs and works on history and politics this reader addresses the momentous changes which the 20th century has brought to British life The introductions provide historiography and serve as a students guide for reading use of sources and summary of the major themes of the period The major themes cover political social cultural and economic history and include political realignment the rise of Labour the decline of the Liberals Conservative dominance and the failure of minority parties the expansion of the Welfare State and its problems British industrial and economic decline and sea change in British culture including the problems of racial conflict

**Modern Britain Since 1906** Keith Laybourn, 1999 Based on a wide range of primary and secondary sources parliamentary debates public speeches official papers press reports journal and magazine articles memoirs and works on history and politics this reader addresses the momentous changes which the 20th century has brought to British life The introductions provide historiography and serve as a students guide for reading use of sources and summary of the major themes of the period The major themes cover political social cultural and economic history and include political realignment the rise of Labour the decline of the Liberals Conservative dominance and the failure of minority parties the expansion of the Welfare State and its problems British industrial and economic decline and sea change in British culture including the problems of racial conflict Bloomsbury Publishing

All Our Welfare Peter Beresford, 2016-01-29 The UK welfare state is under sustained ideological and political attack It has also been undermined by accusations of paternalism and past failures to engage with the very people it is intended to help This unique book is the first to critique the past present and future welfare state from a participatory perspective Peter Beresford champion of user involvement draws on pioneering theories and practice of welfare service user movements to offer a blueprint for a new participatory social policy He controversially challenges orthodox social policy and the limitations of both Fabian and Neo liberal perspectives in engaging people to improve their own welfare drawing on service users own ideas and experience including fascinating vignettes from his own family s experience to demonstrate the value of user knowledge Filling a much needed gap in the literature this accessible text will provide a great introduction for students and a road map for practitioners of an alternative vision for a future participatory and sustainable social policy It will also command much wider interest from everyone concerned with how we look after each other in future in society

**The Road Not Taken** Frank McLynn, 2012-07-05 Britain has not been successfully invaded since 1066 nor in nearly 1 000 years has it known a true revolution one that brings radical systemic and enduring change The contrast with Britain s European neighbours France Germany Italy Spain Greece Russia is dramatic all have been convulsed by external warfare revolution and civil war and experienced fundamental change to their ruling elites or social and economic structures Frank McLynn takes seven occasions when Britain came closest to revolution the Peasants

Revolt of 1381 the Jack Cade rebellion of 1450 the Pilgrimage of Grace in 1536 the English Civil Wars of the 1640s the Jacobite Rising of 1745 6 the Chartist Movement of 1838 48 and the General Strike of 1926 Why at these dramatic turning points did history finally fail to turn McLynn examines Britain's history and themes of social religious and political change to explain why social turbulence stopped short of revolution on so many occasions *Domesticating the Airwaves* Maggie Andrews, 2012-01-26 Using case studies and analytical overviews this book explores the relationship between broadcasting and the intimate domestic sphere into which it is broadcast It focuses on the period from the 1920s when broadcasting was established in the UK to the present day when both domesticity and broadcasting have become areas of anxiety and contestation The entry of the wireless and later television into the home changed men and women's experience of domesticity offering education and reducing isolation But broadcasting did not merely change domestic leisure patterns it actively intervened in constructing domesticity The supposedly natural relationship between femininity and domesticity has structured the nature of broadcasting and also the discourses which have emerged concerning the consumption of broadcast media Contemporary broadcasting continues to be obsessed by domesticity both in an idealised sense as well as portraying the domestic world as one of turmoil and crisis This volume demonstrates that the relationship between broadcasting and domesticity is a key and often neglected feature of the cultural history of Britain in the last 100 years **Britain,**

**1890-1939** Rosemary Rees, 2003 Heinemann Advanced History offers a differentiation strategy with books covering AS and A2 Exam preparation includes practice questions advice on what makes a good answer and help for students on interpreting questions and planning essays *A lark for the sake of their country* Rachelle Saltzman, 2018-02-28 *A lark for the sake of their country* tells the tale of the upper and middle class volunteers in the 1926 General Strike in Great Britain With behaviour derived from their play traditions the larks rags fancy dress parties and treasure hunts that prevailed at universities and country houses the volunteers transformed a potential workers revolution into festive public display of Englishness Decades later collective folk memories about this event continue to define national identity Based on correspondence and interviews with volunteers and strikers as well as contemporary newspapers and magazines novels diaries plays and memoirs this book recreates the context for the volunteers' actions It explores how the upper classes used the strike to assert their ideological right to define Britishness as well as how scholars novelists playwrights diarists museum curators local historians and even a theme restaurant have continued to recycle the strike to define British identity

**Metropolitan Identities and Twentieth-Century Decolonization** Lena Tan, 2015-10-14 This book focuses on the role of the processes and mechanisms involved in metropolitan identity construction maintenance and change in twentieth century decolonization an event integral to world politics but little studied in International Relations **Women in Agriculture** Linda M. Ambrose, Joan M. Jensen, 2017-03 Taking readers into the rural hinterlands of the rapidly urbanizing societies of the United States Canada Great Britain and the Netherlands the essays in *Women in Agriculture* tell the stories of

a cadre of professional women who worked as agricultural researchers producers marketers educators and community organizers and acted to bridge the growing rift between those who grew food and those who only consumed it Red Ellen Laura Beers,2016-10-10 In 1908 Ellen Wilkinson a fiery adolescent from a working class family in Manchester was the only girl who talks in school debates By midcentury Wilkinson had helped found Britain s Communist Party earned a seat in Parliament and become a renowned advocate for the poor and dispossessed at home and abroad She was one of the first female delegates to the United Nations and she played a central role in Britain s postwar Labour government In Laura Beers s account of Wilkinson s remarkable life we have a richly detailed portrait of a time when Left leaning British men and women from a range of backgrounds sought to reshape domestic imperial and international affairs Wilkinson is best remembered as the leader of the Jarrow Crusade the 300 mile march of two hundred unemployed shipwrights and steelworkers to petition the British government for assistance But this was just one small part of Red Ellen s larger transnational fight for social justice She was involved in a range of campaigns from the quest for official recognition of the Spanish Republican government to the fight for Indian independence to the effort to smuggle Jewish refugees out of Germany During Wilkinson s lifetime many British radicals viewed themselves as members of an international socialist community and some like her became involved in socialist feminist and pacifist movements that spanned the globe By focusing on the extent to which Wilkinson s activism transcended Britain s borders Red Ellen adjusts our perception of the British Left in the early twentieth century

**Rogue Banking** M. Hollow,2016-01-03 Since the turn of the millennium the British media has been awash with stories of bankers and financiers caught engaging in acts of corporate wrongdoing and financial skulduggery But just how different are these crimes to those committed in the past And is the threat of financial fraud greater today than in bygone years In this book Matthew Hollow begins answering these questions by providing an in depth historical overview of some of the most significant frauds that took place in the British financial sector between 1919 and 1939 Using extensive archival evidence he reveals the variety of tactics that were employed by interwar fraudsters to conceal their underhand transactions and dupe the British public into handing over their money He goes on to explore the different factors that motivated these fraudsters many of whom had previously had blemish free records to engage in these acts of deception and deceit Rogue Banking is a unique resource for history and finance researchers and students both in the UK and around the world who are interested in questions relating to corporate fraud and white collar crime This book s interdisciplinary approach also makes it an accessible and informative tool for professionals in accountancy management and criminology

Changing Societies, Changing Party Systems Heather Stoll,2013-11-25 This book studies how society shapes democratic political competition with a focus on the number of political parties This stands in contrast to the prevailing approach of explaining cross national and longitudinal differences in political competition with political institutions such as the electoral system The book develops the most general theory about how society shapes the number of parties to date as well as the

most extensive measures of social heterogeneity which it uses to test its hypotheses      *Sheltered Employment and Disability in the British Welfare State* Andy Holroyde, 2025-07-01 This book explores sheltered employment for disabled people in the British welfare state focusing on Remploy as the flagship provider It considers the fundamental areas of understanding Remploy in terms of why it was created how it functioned who it employed and how far it came to dominate the wider field of provision The book further uses sheltered employment as a new lens through which to explore key aspects of the welfare state in the period These include the creation of the post war settlement the extent of political consensus the exclusion of disabled people from welfare and work the role played by gendered thinking in the welfare state s provisions and the relationship between the state and voluntary sectors In so doing it sheds new light on the history of disability employment and welfare in Britain      **Poor News** Steven Harkins, Jairo Lugo-Ocando, 2017-11-15 Poor News examines the way discourses of poverty are articulated in the news media by incorporating specific narratives and definers that bring about certain ideological worldviews This happens the authors claim because journalists and news editors make use of a set of information strategies while accessing certain sources within specific social and political dynamics The book looks at the case of the news media in Britain since the industrial revolution and produces a historical account of how these media discourses came into play The main thesis is that there have been different historical cycles that reflect particular hegemonic ideas of each period Consequently the role of mainstream journalism has been a subservient one for existing elites when it comes to the propagation of dominant ideas      **A Companion to Early Twentieth-Century Britain** Chris Wrigley, 2008-04-15 This Companion brings together 32 new essays by leading historians to provide a reassessment of British history in the early twentieth century The contributors present lucid introductions to the literature and debates on major aspects of the political social and economic history of Britain between 1900 and 1939 Examines controversial issues over the social impact of the First World War especially on women Provides substantial coverage of changes in Wales Scotland and Ireland as well as in England Includes a substantial bibliography which will be a valuable guide to secondary sources      **A Companion to Contemporary Britain 1939 - 2000** Paul Addison, Harriet Jones, 2008-04-15 A Companion to Contemporary Britain covers the key themes and debates of 20th century history from the outbreak of the Second World War to the end of the century Assesses the impact of the Second World War Looks at Britain s role in the wider world including the legacy of Empire Britain s special relationship with the United States and integration with continental Europe Explores cultural issues such as class consciousness immigration and race relations changing gender roles and the impact of the mass media Covers domestic politics and the economy Introduces the varied perspectives dominating historical writing on this period Identifies the key issues which are likely to fuel future debate      **Florence Nightingale David** Amanda L. Golbeck, 2025-02-27 This book examines Florence Nightingale David s life contributions and relationships throughout her life as well as her subsequent legacy Florence Nightingale David 1909 1993 was the first woman professor in the world s first academic statistics

department served in various British ministries during the war from 1939 1945 and was one of the first women to chair a statistics department in a research university In this biography the life stories of David are used as a vehicle to explore a variety of questions surrounding culture and engagement in the statistical sciences What does it take to succeed in an environment that is not inclusive of your demographic How can stories be used to bring technical material to life for students and other learners And how can a nontraditional leader succeed in challenging boundaries and moving an enterprise forward
