U.S. Naval Power in the 21st Century Brent D. Sadler,2023-05-15 2023 Naval Institute Press Author of the Year Finalist National Security Book Award This nation s Cold War and Global War on Terror defense structures need an update U S Naval Power in the 21st Century provides such a framework for the changed world we live in offering a detailed roadmap that shows how the United States can field a war winning fleet that can also compete aggressively in peacetime against dangerous competitors unlike any the nation has faced before Brent Sadler presents a compelling new strategy and organizing approach that he calls naval statecraft which acknowledges the centrality and importance of the maritime domain While similar in scale and scope to Cold War containment strategies against the Soviets naval statecraft is much more It must be to challenge China s involvement in global supply chains which gives that country significant financial heft and influence

around the world Unlike what existed during of the Cold War however Sadler provides a unique vision for competing with China and Russia Rather than simply calling for better coordinated U S diplomacy military operations and economic statecraft Sadler argues for integrating the levers of national power coherently and in a sustainable way This is no small feat and his approach is informed by a long career rich in working with various agencies of government foreign militaries including hostile ones and our allies It is an approach imminently appropriate to our times but comes with a realization that the nation is not ready for the competition it faces from China and Russia The book is a valuable contribution to the national debate over how best to respond to China s rise and Russia s antagonisms **Biographical Dictionary of the People's**

Joseph,2014-03-14 On October 1 2009 the People s Republic of China PRC celebrated the 60th anniversary of its founding And what an eventful and tumultuous six decades it had been During that time under the leadership of the Chinese Communist Party CCP China was transformed from one of the world s poorest countries into the world s fastest growing major economy and from a weak state barely able to govern or protect its own territory to a rising power that is challenging the United States for global influence Over those same years the PRC also experienced the most deadly famine in human history caused largely by the actions and inactions of its political leaders Not long after there was a collapse of government authority that pushed the country to the brink of and in some places actually into civil war and anarchy Today China is for the most part peaceful prospering and proud This is the China that was on display for the world to see during the Beijing Olympics in 2008 The CCP maintains a firm grip on power through a combination of popular support largely based on its recent record of promoting rapid economic growth and harsh repression of political opposition Yet the party and country face serious challenges on many fronts including a slowing economy environmental desecration pervasive corruption extreme inequalities and a rising tide of social protest **Politics in China** is an authoritative introduction to how the world s most populous nation and rapidly rising global power is governed today Written by leading China scholars the book s chapters offers accessible overviews of major periods in China s modern political history from the mid nineteenth century to the present key topics in contemporary Chinese politics and developments in four important areas located on China s geographic periphery Tibet Xinjiang Hong Kong and Taiwan **China Shakes the World** James Kynge,2007 Drawing on his years in the country and his fluency in Mandarin Kynge probes beyond the familiar statistics to unearth the surprising reasons for

Chinas explosive growth **China at War** Xiaobing Li, 2012-01-10 This comprehensive volume traces the Chinese military and its experiences over the past 2 500 years describing clashes with other kingdoms and nations as well as internal rebellions and revolutions As the first book of its kind China at War An Encyclopedia expands far beyond the conventional military history book that is focused on describing key wars battles military leaders and influential events Author Xiaobing Li an expert writer in the subjects of Asian history and military affairs provides not only a broad chronological account of China s long military history but also addresses Chinese values concepts and attitudes regarding war As a result readers can better understand the wider sociopolitical history of the most populous and one of the largest countries in the world and grasp the complex security concerns and strategic calculations often behind China s decision making process This encyclopedia contains an introductory essay written to place the reference entries within a larger contextual framework allowing students to compare Chinese with Western and American views and approaches to war Topics among the hundreds of entries by experts in the field include Sunzi s classic The Art of War Mao Zedong s guerrilla warfare in the 20th century Chinese involvement in the Korean War and Vietnam War and China s nuclear program in the 21st century The Far East and Australasia 2003 Europa Publications, 2002 A unique survey of each country in the region It includes an extensive collection of facts statistics analysis and directory information in one accessible volume **East Asia's Other Miracle** Alex J. Bellamy, 2017-10-06 East Asia until recently the scene of widespread blood letting has achieved relative peace A region that at the height of the Cold War had accounted for around eighty percent of the world s mass atrocities has experienced such a decline in violence that by 2015 it accounted for less than five percent This book explains East Asia s other miracle and asks whether it is merely a temporary blip in the historical cycle or the dawning of a new and more peaceful era for the region It argues that the decline of mass atrocities in East Asia resulted from four interconnected factors the consolidation of states and emergence of responsible sovereigns the prioritization of economic development through trade the development of norms and habits of multilateralism and transformations in the practice of power politics Particular attention is paid to North Korea and Myanmar countries whose experience has bucked regional trends largely because these states have not succeeded in consolidating themselves to the point where they no longer depend on violence to survive Although the region faces several significant future challenges this book argues that the much reduced incidence of mass atrocities in East Asia is likely to be sustained into the foreseeable future **Internet Policy in China** Helen Sun, 2012-07-10 The new Internet bar phenomenon in China reveals a contradictory time and a vital tug of war between the state and civil society Small private net bar operators are caught in the double roles of regulator and the regulated struggling to survive many Internet caf visitors largely enjoy emailing and online entertainment showing little interest in political or policy issues And both bar operators and visitors skillfully play a cat mouse game with the state Internet Policy in China A Field Study of Internet Caf s reports the results of a multi layered study of this phenomenon Helen Sun investigates how the Internet has been used by the state and

individuals as well as the implications of Chinese Internet policies and regulations She conceptualizes media technology as a dependent variable that can be affected by other factors such as its availability the user s uses and expectations media policy the market and the nations state Internet Policy in China focuses on the Chinese telecommunications policy making system regulatory activities and the governmental means of control over Internet access and use at both the macro and micro levels Sun also discusses users perceptions and uses of the Internet in net caf s the dual role caf owners play in the frantic digital arena the mismatch between Internet regulations and net caf owners and goes their interaction with governmental policy and regulation and the social implications of their interactions during China s transitional time **Professional Journal of**
