Movement, Power and Place in Central Asia and Beyond Madeleine Reeves, 2013-09-13 Central Asia is a region singularly marked by attempts to transform social life by transforming place Drawing together established scholars and a new generation of historians geographers and anthropologists this volume brings empirical specificity and theoretical depth to debates about the politics of place making in this diverse region making an important contribution to Central Asian studies and a distinctive regional comparison to the spatial turn in social analysis Case studies draw on archival research and oral history to explore the workings and unintended consequences of policies aimed at sedentarizing collectivizing and resettling populations as a means to fix and territorialize space The book also examines ethnographic studies attuned to the role of movement in sustaining social life from Soviet era trade networks that linked rural Central Asia and the Russian metropolis to pilgrimage routes through which kazakhness is articulated to the contemporary moralization of migration abroad in search of work Rather than analysing flows as abstract processes the book enquires about effortful activity material infrastructures political relations and social habits through which people ideas knowledge skills and material objects move or are prevented from moving As such it offers new insights into the complex intersections of movement power and place in this important region over the last two centuries This book was originally published as a special issue of *Central Asian Survey*

Kyrgyzstan beyond "Democracy Island" and "Failing State" Johan Engvall, Marlene Laruelle, 2015-12-03 Kyrgyzstan is probably the best known of any central Asian country the one that has elicited the most academic publications reports by NGOs or advocacy groups and op eds in the media The country opened up massively to Western influence through development aid for civil society and for economic reforms faced two revolutions in 2005 and 2010 and experienced bloody interethnic conflict in 2010 Kyrgyzstan is therefore commonly studied as a twin case that of having been for more than two decades both an island of democracy in Central Asia and the only country of the region to have made the transition to a parliamentary regime and the archetypical example of a failing state one marked by endemic corruption criminalization of the state apparatus and collapse of public services This volume goes beyond these two clichés and provides a research based and unideological narrative on the country It identifies political dynamics their powerbrokers and the role of international organizations investigates the profound social transformations of both the rural and the urban worlds and examines the broad feeling by local actors that Kyrgyzstan's fragile state identity should be consolidated This book gives the floor to the new generation of scholars whose long term vernacular language field research made it possible

to provide new interpretative prisms for the complex evolution of Kyrgyzstan **The Rule of the Clan** Mark S.

Weiner, 2013-03-12 A revealing look at the role kin based societies have played throughout history and around the world A lively wide ranging meditation on human development that offers surprising lessons for the future of modern individualism The Rule of the Clan examines the constitutional principles and cultural institutions of kin based societies from medieval Iceland to modern Pakistan Mark S Weiner an expert in constitutional law and legal history shows us that true individual freedom depends on the existence of a robust state dedicated to the public interest In the absence of a healthy state he explains humans naturally tend to create legal structures centered not on individuals but rather on extended family groups The modern liberal state makes individualism possible by keeping this powerful drive in check and we ignore the continuing threat to liberal values and institutions at our peril At the same time for modern individualism to survive liberals must also acknowledge the profound social and psychological benefits the rule of the clan provides and recognize the loss humanity sustains in its transition to modernity Masterfully argued and filled with rich historical detail Weiner s investigation speaks both to modern liberal societies and to developing nations riven by clannism including Muslim societies in the wake of the Arab Spring Regime Transition in Central Asia Dagikhudo Dagiev, 2013-10-30 Presenting a study of regime transition political transformation and the challenges that faced the post Communist republics of Central Asia on independence this book focuses on the process of transition in Tajikistan and Uzbekistan and the obstacles that these newly independent states are facing in the post Communist period The book analyses how in the early stages of their independence the governments of Central Asia declared that they would build democratic states but that in practice they demonstrated that they are more inclined towards authoritarianism With the declaration of independence Tajikistan and Uzbekistan like many other former Soviet national republics were faced with the issues of nationalism ethnicity identity and territorial delimitation This book looks at how the discourse of patrimonial nationalism in post Communist Tajikistan and Uzbekistan has been the elites strategy to address all these issues to maintain the stateness of their respective countries to preserve the unity of their nation to fill the ideological void of post Communism to prevent the rise of Islam and to legitimize their authoritarian practice Arguing against the claim that the Central Asian states have undergone divergent paths of transition the book discusses how they are in fact all authoritarian although exhibiting different degrees of authoritarianism This book provides a useful contribution to studies on Central Asian Politics and International Relations *Routledge Handbook of Politics in Asia* Shiping Hua, 2018-03-15 The Routledge Handbook of Politics in Asia is designed to serve as a comprehensive reference guide to politics in Asia Covering East South Southeast and Central Asia this handbook brings together the work of leading international academics to cover the political histories institutions economies and cultures of the region Taking a comparative approach it is divided into four parts including A thorough introduction to the politics of the four regions of Asia from the perspectives of democratization foreign policy political economy and political culture An examination of the Big

Presidents, Oligarchs and Bureaucrats Margarete Klein,Hans-Henning Schröder,2016-04-08 Over the last decade the transition paradigm which is based on the conviction that authoritarian political systems would over time necessarily develop into democracies has been subjected to serious criticism The complex political and societal developments in the post Soviet region in particular have exposed flaws in the claim that a shift from authoritarianism to democracy is inevitable Using case studies from the post Soviet region a broad range of international contributors present an original and innovative contribution to the debate They explore the character of post Soviet regimes and review the political transformations they have experienced since the end of the Cold War Through a combination of theoretical approaches and detailed empirical analysis the authors highlight the difficulties and benefits of applying the concepts of hybrid regimes competitive authoritarianism and neopatrimonialism to the countries of the post Soviet space Through this in depth approach the authors demonstrate how Presidents Oligarchs and Bureaucrats in the region lead their countries examine the sources of their legitimacy and their relationship to the societies they govern and advance the general theoretical debate on regime change and transition paths

Development in Central Asia and the Caucasus Sophie Hohmann,Claire Mouradian,Silvia Serrano,2014-06-25 After the final collapse of the Soviet Union the so called last empire in 1991 the countries of Central Asia Kazakhstan Kyrgyzstan Uzbekistan Tajikistan Turkmenistan and of the Caucasus Armenia Azerbaijan Georgia became independent nations These countries previously production centres under the socialist planning system of the Soviet Union have made enormous economic adjustments in order to develop or attempt to develop along capitalist lines As this study will show however inequality in Central Asia and the Caucasus is widening as the Soviet systems of healthcare and state provisions disappear Rejecting the Cold War era East West paradigm often used to analyse the development of these nations this study analyses development along the North South lines which characterise the migration patterns and poverty levels of much of the rest of the developed world This opens up new avenues of research and helps us understand why it is for instance that this region is better characterised as a new South as skilled workers flood out of the territories and into Russia and Western Europe Development in Central Asia and the Caucasus draws together detailed analyses of the development of migration economics as the region s oil wealth further enhances its strategic and economic importance to Russia the US the Middle East and to the EU

Democracy in Central Asia Mariya Y. Omelicheva, 2015-07-21 Promoting democracy has long been a priority of Western foreign policy In practice however international attempts to expand representative forms of government have been inconsistent and are often perceived in the West to have been failures The states of Central Asia in particular seem to be democracy resistant and their governments have continued to support various forms of authoritarianism in the decades following the Soviet Union s collapse In *Democracy in Central Asia* Mariya Omelicheva examines the beliefs and values underlying foreign policies of the major global powers the United States the European Union Russia and China in order to understand their efforts to influence political change in Kazakhstan Kyrgyzstan and Uzbekistan Omelicheva has traveled extensively in the region collecting data from focus groups and public opinion surveys She draws on the results of her fieldwork as well as on official documents and statements of democracy promoting nations in order to present a provocative new analysis Her study reveals that the governments and citizens of Central Asia have developed their own views on democracy supported by the Russian and Chinese models rather than by Western examples The vast majority of previous scholarly work on this subject has focused on the strategies of democratization pursued by one agent such as the United States or the European Union Omelicheva shifts the focus from democracy promoters methods to their message and expands the scope of existing analysis to include multiple sources of influence Her fresh approach illuminates the full complexity of both global and regional notions of good governance and confirms the importance of social psychological and language based perspectives in understanding the obstacles to expanding egalitarianism

Islam after Communism Adeeb Khalid, 2007-01-18 Adeeb Khalid combines insights from the study of both Islam and Soviet history in this sophisticated

analysis of the ways that Muslim societies in Central Asia have been transformed by the Soviet presence in the region. Arguing that the utopian Bolshevik project of remaking the world featured a sustained assault on Islam that destroyed patterns of Islamic learning and thoroughly de-Islamized public life, Khalid demonstrates that Islam became synonymous with tradition and was subordinated to powerful ethnonational identities that crystallized during the Soviet period. He shows how this legacy endures today and how, for the vast majority of the population, a return to Islam means the recovery of traditions destroyed under Communism. Islam after Communism reasons that the fear of a rampant radical Islam that dominates both Western thought and many of Central Asia's governments should be tempered by an understanding of the politics of antiterrorism which allows governments to justify their own authoritarian policies by casting all opposition as extremist. Comparing the secularization of Islam in Central Asia to experiences in Turkey, the former Yugoslavia and other secular Muslim states, the author lays the groundwork for a nuanced and well-informed discussion of the forces at work in this crucial region.

Post-Soviet Racisms Nikolay Zakharov, Ian Law, 2017-03-14 This book is novel not only in its theoretical framework which places racialisation in post communist societies and their modernist political projects at the centre of processes of global racism but also in being the first account to examine both these new national contexts and the interconnections between racisms in these four regions of the Baltic states, the Southern Caucasus, Central Asia and Belarus, Moldova and Ukraine and elsewhere. Assessments of the significance of the contemporary geopolitical contexts of armed conflict, economic transformation and political transition for racial discourse are central themes and the book highlights the creative, innovative and persistent power of contemporary forms of racial governance which has central significance for understanding contemporary societies. The book will be of interest to scholars and students in the areas of racism and ethnicity studies. What an important and much needed addition to the growing but still grossly insufficient body of work on Soviet racial thinking and its impact on Soviet and post Soviet racisms. At the time of renewed racial tensions in the West and the growing racial anxieties underlying a variety of nation building projects in the former Soviet spaces, it is important to understand the often ignored linkages between Communist paternalism and Western views of race and racial difference. Even though its focus remains the former Soviet Union, this book contains a valuable analytical toolkit for the scholars of race and racism across political and geographical boundaries. Maxim Matusevich, Seton Hall University, USA. *Post Soviet Racisms* is the first comprehensive comparative study of the politics of race in post Soviet states. Why do racialising or overtly racist theories at times become central to the construction of post Soviet identities? How do racisms of the dominant national groups and minorities compare? How does the process of the transnational circulation of racist and racialising discourses work? These are some of the important questions which are addressed in this ground breaking book that enriches our understanding of the complexity of the current developments in the region. Vera Tolz, University of Manchester, UK.

Informal Markets and Trade in Central Asia and the Caucasus Susanne Fehlings, Hasan H. Karrar, 2022-04-11 This edited book introduces new

research on informal markets and trade in Central Asia and the Caucasus The research presented in this volume is based on recent field research in Armenia Georgia Kazakhstan and Kyrgyzstan as well as Beijing Guangzhou Yiwu and the Xinjiang Uyghur Autonomous Region in China The nine chapters in this book illustrate how informal markets and trade in Central Asia and the Caucasus have provided space for millions of people across the region to negotiate changes in state and society in the three decades since the breakup of the Soviet Union and the emergence of successor states Collectively the book suggests that informality should be seen as a normative order for politics in Central Asia and the Caucasus for three reasons

- 1 The inability or unwillingness of the states to measure commercial transactions
- 2 The highly personalized nature of small business operations that rest on networking and social relations oral agreements and trust
- 3 Markets and bazaars being embedded within states in which clientelism frequently thrives

This book is a significant new contribution to the study of trade and informal markets in Central Asia and the Caucasus and will be a great resource for academics researchers and advanced students of Sociology History Politics Business Economics Social Anthropology and Geography The chapters in this book were originally published as a special issue of the journal *Central Asian Survey*

Public Governance Reviews Kazakhstan: Review of the Central Administration OECD,2014-12-22 This review examines the functioning structure and organisation of the central government and line ministries in Kazakhstan as well as their capacities to implement national objectives and priorities outlined in the Kazakhstan s Vision 2050 Multination States in Asia Jacques Bertrand,Andre Laliberte,2010-03-22 As countries in Asia try to create unified polities many face challenges from minority groups within their own borders seeking independence This volume brings together international experts on countries in all regions of Asia to debate how differently they have responded to this problem Why have some Asian countries for example clamped down on their national minorities in favour of homogeneity whereas others have been willing to accommodate statehood or at least some form of political autonomy Together they suggest broad patterns and explanatory factors that are rooted in the domestic arena including state structure and regime type as well as historical trajectories In particular they find that the paths to independence as well as the cultural elements that have been selected to define post colonial identities have decisively influenced state strategies State Erosion Lawrence P.

Markowitz,2013-10-11 State failure is a central challenge to international peace and security in the post Cold War era Yet theorizing on the causes of state failure remains surprisingly limited In State Erosion Lawrence P Markowitz draws on his extensive fieldwork in two Central Asian republics Tajikistan where state institutions fragmented into a five year civil war from 1992 through 1997 and Uzbekistan which constructed one of the largest state security apparatuses in post Soviet Eurasia to advance a theory of state failure focused on unlootable resources rent seeking and unruly elites In Tajikistan Uzbekistan and other countries with low capital mobility where resources cannot be extracted concealed or transported to market without state intervention local elites may control resources but they depend on patrons to convert their resources into rents Markowitz argues that different rent seeking opportunities either promote the cooptation of local elites to the regime or incite competition over rents which in turn lead to either cohesion or fragmentation Markowitz distinguishes between weak states and failed states challenges the assumption that state failure in a country begins at the center and radiates outward and expands the resource curse argument to include cash crop economies where mechanisms of state

failure differ from those involved in fossil fuels and minerals Broadening his argument to weak states in the Middle East Syria and Lebanon and Africa Zimbabwe and Somalia Markowitz shows how the distinct patterns of state failure in weak states with immobile capital can inform our understanding of regime change ethnic violence and security sector reform
