Modern Finnish Sculpture Göran Schildt, 1970 Modern Finnish Sculpture Göran Schildt, 1970 *Modern Art in Finland* Johan Jakob Tikkanen, 1926 Figuration/Abstraction Charlotte Benton, 2017-07-05 The notion that the practice of abstraction was confined to Western Europe while a stereotyped form of figuration defined the art of the Eastern bloc continues to dominate art historical accounts of public sculpture of the post war period This book offers a number of alternative readings and demonstrates strategic uses of figuration and abstraction across East and West Encompassing sites of memory including war memorials and Holocaust memorials state civic and corporate sculpture as well as temporary and unexecuted projects the book shows that persuasive advocates of figuration were to be found in the West while in the East imaginative experiments in abstraction were proposed in the name of Social Realism Presenting fresh insights into sculptural practice in the period between 1945 and 1968 this book brings together a wide range of authors some of whom have never before been published in English Their essays are complemented by extracts from documentary texts which give a flavour of contemporary debates and a biographical section includes entries on many sculptors who will be unfamiliar to an English speaking audience The Golden Age of Finnish Art John Boulton Smith, 1985 **Finland** Roger Connah, 2006-03-15 Buildings speak volumes not just about their occupants or owners but about the countries in which they exist From colonnades to paving stones the architecture of any building does more than simply date the structure it celebrates the spirit of a people and a nation Roger Connah s latest book Finland explores the culture and democratic spirit of a country whose buildings carry the indelible markings of Finland s political and physical climate Nearly all of the country s buildings were constructed after 1917 when Finland gained its independence from Russia The resulting architecture often springing from hugely popular public competitions is emphatically democratic in structure and usage Finland s extreme northern latitudes for their part have given rise to buildings with an acute sensitivity to the physical environment and to the delicate interplay of light and shadow From museums to schools to subsidized housing developments Connah s Finland is an important survey of the country s architecture Fully illustrated and with detailed examinations of many of the Finnish master architects including Alvar Aalto it is also a valuable contribution to the studies of modern architecture and Nordic history Finland Finland, 1919 *The Rough Guide to Finland* Rough Guides, 2010-06-01 The Rough Guide to Finland is the essential companion to this fascinating Scandinavian country with clear maps and coverage of all the best attractions Packed with stunning photography and illustrations explore the must see highlights from the best summer and winter activities including skiing snowmobiling and reindeer and husky driving to the remote villages that come to life in the summertime with beaches lake cruises and island hopping Find detailed accounts of all Finland s major tourist attractions including the cultural capitals of Helsinki Turku and Tampere and the laconic seaside towns along Finland s southern and western coast as well as sections on Finnish design and The great outdoors You ll find informed practical advice on what to see and do whilst relying on

It is the global voice of the information profession. The series IFLA Publications deals with many of the means through which libraries, information centres and information professionals worldwide can formulate their goals, exert their influence as a group, protect their interests and find solutions to global problems. **The Directory of Museums & Living Displays** Kenneth Hudson, Ann Nicholls, 1985-06-18 **Sculpture and the Nordic Region** Elettra Carbone, 2017-07-05 Histories of sculpture within the Nordic region are under-studied and the region's influence upon and translation of influences from elsewhere in Europe remain insufficiently traced. This volume brings to light individual histories of sculptural mobility from the early modern period onwards. Examining the movement of sculptures, sculptors' practices, skills, styles and motifs across borders through studios and public architectures within popular and print culture and via texts, the essays collected here consider the extent to which the sculptural artwork is changed by its physical movement and its transfigurations in other media. How does the meaning and form of these objects performatively respond to the pressure of their relocations and rematerialisations? Conversely, how do sculptures impact their new contexts of display? The contributing authors engage with a wide variety of objects and media in their essays. Each focuses on the contextualisation of sculpture in an original and timely way, exploring how mobility acts as a filter, offering new perspectives on iconography, memorialisation, collecting, iconoclasm and exhibiting. From the stave churches of early Norway to the decoration of International Style monoliths of the twentieth century, from Italian quarries to Baroque palaces, from fountains to figurines, from text to performance, these wide-ranging and fascinating case studies contribute to the rich history of the Nordic region's sculptural production. **Directory of Museums** Kenneth Hudson, Ann Nicholls, 1975-06-18 **Encyclopedia of Twentieth Century Architecture** R. Unlike existing works, this encyclopedia examines the complexities of rapidly changing global conditions that have dispersed modern architectural types, movements, styles and building practices across traditional geographic and cultural boundaries. **The Rough Guide to Barcelona** Jules Brown, 2004 *The Rough Guide to Barcelona* offers the traveller a first-class insight into this colourful and exciting city.
