interviews commercial recordings written musical discourse and the author's own experience as a practising paradosiak musician. Some main themes discussed in the book are the migration of instruments from Turkey to Greece, the process of indigenization whereby paradosiak was imbued with local meanings and aesthetic value, the accommodation of the style within official and popular discourses of Greekness, its prophetic role in the rapprochement of Greek culture with modern Turkey and with suppressed aspects of the Greek Ottoman legacy as well as the varied worldviews and current musical dilemmas of individual practitioners in the context of professionalization, commercialization and the intensification of cross-cultural contact. The text is richly illustrated with transcriptions, illustrations and includes downloadable resources. Giannakis, Christoforos Charalambakis, Franco Montanari, Antonios Rengakos, 2018-11-19. This volume presents nineteen studies by specialists in the field of Greek lexicography. A number of papers deal with historical aspects of Greek lexicography covering all phases of the language, i.e. ancient, medieval and modern as well as the interrelations of Greek to neighboring languages. In addition, other papers address more formal issues such as morphological, semantic and syntactic problems that are relevant to the study of Greek lexicography as well as the study of individual words. Finally, in one study, the problem of technical linguistic terminology is addressed along with the methodological, epistemological and other issues relating to the particular problem. The work is of special interest to scholars on the long-standing problems of diachronic semantics, historical morphology and word formation and to all those interested in etymology and the study of words of the Greek language.
