**Architecture and Welfare** Thordis Arrhenius, Ellen Braae, Guttorm

Ruud, 2025-01-27 Architecture was fundamental to the realization of welfare state policy in the Nordic countries translating democratic ideals into concrete spatial materializations An inclusive notion of welfare for all was embraced by a generation

of architects landscape architects and planners who labored to give physical form to ideas of equality collectivity and democracy producing a vast architectural output in Scandinavia during the postwar years Today however the architectural legacy of this era is contested Welfare for all no longer enjoys the social or political consensus it once did This publication critically engages with this contested architectural legacy and provides a nuanced portrait of postwar welfare architecture coming to terms with a contentious past and facing an uncertain future With newly commissioned photographic work by contemporary Nordic artists Based on an interdisciplinary research project by KTH Stockholm Oslo School of Architecture University of Copenhagen Internationally renown contributors shed light on aspects of the relationship between architecture and welfare

**Free Movement of Persons in the Nordic States** Katarina Hyllén-Cavallius, Jaan Paju, 2023-02-09 Can it be argued that there exists a concept of Nordic citizenship founded on inter Nordic cooperation and its relationship with EU law and EEA law Researchers from all five Nordic States Denmark Finland Iceland Norway and Sweden explore the tensions gaps and overlaps arising from the interplay of EU citizenship EEA law and the Nordic initiatives that aim to facilitate cross border mobility of persons in the region The analysis takes a dual approach Firstly it tracks the legal development of nationality law in Nordic states Secondly it sets out the rights of residence and access to social rights that follow from the three different regimes It asks if the Nordic States through their regional cooperation are going beyond EU free movement law making naturalisation to a citizenship in a Nordic state particularly attractive This important new work gives a unique perspective on EU citizenship and free movement law

*Kierkegaard and the Crisis of Faith* George Pattison, 2013-11-07 The standing of the Danish philosopher and religious thinker S ren Kierkegaard has gone up in recent years Yet because he regarded communication as being as much about self concealment as about self revelation he can still seem a forbidding and difficult figure The deliberate ambiguity of Kierkegaard in which he set out to repel as much as to attract his readers is here explored

by George Pattison who gives full attention to the scandalous element of the philosopher's work and does not shy away from his ambivalent attitudes towards sexuality the body marriage and the family This book is unlike other nontechnical introductions to Kierkegaard in that it does not seek to promote one part of Kierkegaard's writings over others but offers rather a perspective on his life and output as a whole That Kierkegaard grappled in his own age with many of the problems which beset our own and frequently offered fascinating responses to those problems is a major incentive to examine his thought today By placing Kierkegaard in the context of a crisis of faith and making valuable connections between events in the philosopher's life and the development of his thinking the author of this timely readable and attractively written study has produced a book which should be of interest to a wide nonspecialist readership     **Arkitektur** ,1999
