An Introduction to the Modern Middle East David S. Sorenson, 2018-05-04. Combining elements of comparative politics with a country-by-country analysis, author David S. Sorenson provides a complete and accessible introduction to the modern Middle East. With an emphasis on the politics of the region, the text also dedicates chapters specifically to the history, religions, and economies of countries in the Persian, Arabian, Gulf, the Eastern Mediterranean, and North Africa. In each country chapter, a brief political history is followed by discussions of democratization, religious politics, women's issues, civil society, economic development, privatization, and foreign relations. In this updated and revised second edition, *An Introduction to the Modern Middle East* includes new material on the Arab Spring, the changes in Turkish politics, the Iranian nuclear issues, and the latest efforts to resolve the Israeli-Palestinian dilemma. **The First Scottish Enlightenment** Kelsey Jackson Williams,2020-02-25 Traditional accounts of the Scottish Enlightenment present the half century or so before 1750 as at best a not yet fully realised precursor to the era of Hume and Smith at worst a period of superstition and religious bigotry This is the first book length study to systematically challenge that notion Instead it argues that the era between approximately 1680 and 1745 was a First Scottish Enlightenment part of the continent wide phenomenon of early Enlightenment and led by the Jacobites Episcopalians and Catholics of north eastern Scotland It makes this argument through an intensive study of the dramatic changes in historiographical practice which took place in Scotland during this era showing how the documentary scholarship of Jean Mabillon and the Maurists was eagerly received and rapidly developed in Scottish historical circles resulting in the wholesale demolition of the older Humanist myths of Scottish origins and their replacement with the foundations of our modern understanding of early Scottish history This volume accordingly challenges many of the truisms surrounding seventeenth and eighteenth century Scottish history pushing back against notions of pre Enlightenment Scotland as backward insular and intellectually impoverished and mapping a richly polymathic erudite and transnational web of scholars readers and polemicists It highlights the enduring cultural links with France and argues for the central importance of Scotland s two principal religious minorities

Episcopalians and Catholics in the growth of Enlightenment thinking As such it makes a major intervention in the intellectual and cultural histories of Scotland early modern Europe and the Enlightenment itself **Habitat Suitability Index Models**
