Rentner, David P. Burns, 2023-02-10

Combining theory with practical application, this collection of real-life provocative case studies on social issues in sports provides students with the opportunity to make the call on ethical and professional dilemmas faced by a variety of sport and communication professionals. The case studies examine the successes and failures of communication in the corporate culture of sport intersecting with social issues including race, gender, religion, social media, mass media, public health and LGBTQ issues. Topics include the COVID-19 pandemic, the Black Lives Matter movement, sexual abuse scandals, domestic violence, cultural appropriation and mental health. Each chapter contextualizes a specific issue, presents relevant theory and practical communication principles and leads into discussion questions to prompt critical reflection. The book encourages students to view the evidence themselves, consider competing ethical and professional claims and formulate practical responses. This collection serves as a scholarly text for courses in sport communication, business, intercultural communication, public relations, journalism, media studies and sport management. *Don't Stick to Sports* Derek Charles Catsam, 2023-10-11 A significant examination of how athletes have fought for inclusion and equality on and off the playing field despite calls for them to stick to sports. The claim that sports are or ought to be apolitical has itself never been an apolitical position. Rather, it is a veiled attempt to control which politics are acceptable in the athletic realm, a designation intricately linked to issues of race, gender, ethnicity and more. In *Don't Stick to Sports: The American Athlete's Fight against Injustice*, Derek Charles Catsam carefully explores this disparity. He looks at how throughout recent sports history in the United States, minority athletes have had to fight every step of the way for their right to compete and how they continue to fight for equity today. From African Americans and women to LGBTQ and religious minorities, Catsam shows how these athletes have taken a stand to address the underlying injustices in sports and society despite being told it's not their place to do so. While it's impossible for a single

book to tell the entire history of exclusion in the sporting world Don t Stick to Sports looks at key moments from the World War I era to the present to shatter the myth of sports as a meritocracy of sports as equalizer highlighting the reality as something far more complicated of sports as a malleable world where exclusion and inclusion are rarely straight forward
