**Democracy's Detectives** James T. Hamilton, 2016-10-10 Investigative journalism holds democracies and individuals accountable to the public But important stories are going untold as news outlets shy away from the expense of watchdog reporting Computational journalism using digital records and data mining algorithms promises to lower the cost and increase demand among readers James Hamilton shows

Advertising on Trial Inger L. Stole, 2010-10-01 In the 1930s the United States almost regulated advertising to a degree that seems unthinkable today Activists viewed modern advertising as propaganda that undermined the ability of consumers to live in a healthy civic environment Organized consumer movements fought the emerging ad business and its practices with fierce political opposition Inger L Stole examines how consumer activists sought to limit corporate influence by rallying popular support to moderate and change advertising Stole weaves the story through the extensive use of primary sources including archival research done with consumer and trade group records as well as trade journals and engagement with the existing literature Her account of the struggle also demonstrates how public relations developed in order to justify laissez faire corporate advertising in light of a growing consumer rights movement and how the failure to rein in advertising was significant not just for civic life in the 1930s but for our era as well
