

Benefits of a Multiage Classroom

Students remain with a teacher for a period of 3 years, reducing the number of student-teacher transitions, allowing for continuity of expectations and instruction, and a powerful long-term relationship between student, teacher and family.

There is an atmosphere of nurturing rather than one of competition (which children pressure one another to fit an arbitrary norm). In multiage classes children accept natural differences of children in age and achievement. There are opportunities for all students to play different roles in the educational process.
