## **Multiculturalism As A Fourth Force:**

**Multiculturalism as a fourth force** Paul Pedersen, 2013-10-28 Until recently the field of psychology has been a monocultural science in a Euro American envelope. Profound global changes in social, economic, political, and academic development have resulted in a more multicultural perspective for psychology. The field of psychology is now growing more rapidly outside than inside the U.S. As a result of these changes, multiculturalism adds a dimension to psychodynamic, humanistic, and behavioral psychology as much as the fourth dimension of time adds meaning to three-dimensional spaces. The contributors to *Multiculturalism as a Fourth Force* seek to separate what we know from what we do not yet know about the importance of multiculturalism to these changes in the field of psychology. Topics include cultural diversity within and between societies, multiculturalism and psychotherapy, and culture-centered interventions. Each contributor describes the need for multiculturalism in psychology, the difficulties in establishing a multicultural perspective, and what has to happen before multiculturalism can claim to be a Fourth Force to supplement the other forces for psychology. In addition, the contributors examine the role of culture to the changing field of psychology and provide case examples of this phenomenon. It is the author's hope that by making culture central rather than marginal in the area of psychology, the psychodynamic, behavioral, and humanistic theories can become more effective and less culturally biased.

**Multiculturalism as a Fourth Force in Counseling**, 1991      **Clinical Psychology** Andrew M. Pomerantz, 2008. A very readable account, a clearly accessible introduction to the field and to critical issues within it. The particular advantage is that this text is addressed to undergraduates making career choices and provides an informed discussion of key issues. Kate Briggs, University of West Georgia. The book is well written, easy to understand, and covers all of the necessary topics to gain an appreciation for the field of clinical psychology. David Topor, The University of North Carolina at Greensboro. The most impressive aspect of this material is the comprehensive nature of the text. The breadth, clarity, and usefulness of the coverage is first rate. Alan Whitlock, University of Idaho. This is very balanced in presentation, perhaps the least biased text for clinical psych I've seen. Elizabeth E. Seebach, Saint Mary's University of Minnesota. Very user friendly, more interactive in terms of thinking questions etc. than other similar texts. Jessica Yokley, University of Pittsburgh. This undergraduate core text presents a balanced overview of clinical perspectives with an emphasis on multicultural issues. Academically rigorous but accessible; it covers psychotherapy, clinical assessment, ethical and professional issues, and specialized topics such as forensic and health psychology.
