## **Multidimensional Reality:**

*MultiDimensional Reality* Mary Marecek, 2001-07 Spirit guide Jane Roberts takes you through the process of raising consciousness She discusses dreaming love paradox how the universe works what co creation is and the purpose of living She says This love light frequency thing is a formula for ascension and the simplest one we know Try it *The Theory of Multidimensional Reality* Douglas B. Vogt, 2015-12 The Theory of Multidimensional Reality is the latest development of this information theory of existence by the Author The book applies the theory to explain what causes light gravity time Planck's constant and other phenomena found in physics The Theory provides a foundation philosophy for all of science to explain some of the hardest phenomenon found *Reality Revealed* Douglas B. Vogt, Gary Sultan, 1978 **Is Present Reality** Vipin Gupta, 2021-02-19 Is Present Reality The Super science of the transcendental value investigates our reality as an entity who has the power to shape the present and be the light that affirms our presence in the eternal future The transcendental value of the past is immanent within the present The present becomes the subject of scientific investigation The entity who conceived the scientifically investigable present is the super scientific factor whose reality transcends beyond the limits of science An observer behaves as a mirror image of the present and uses the light of self consciousness for illuminating the reality of the universe Without the observer's light the present of the universe is the dark matter Once the observer services the sentient light force the future of the observer is the black hole As a manager of our reality we have an option not to transform our sentient energy into a light force behaving as if we are the white star source of light for illuminating the reality of the universe Instead we may invest our energy for conceiving a different reality at any moment that thereafter constitutes the past Such unique reality is scientifically observable in the present as the illuminated matter The illuminated matter is a proportion of the present which is the dark matter Thus if an observer observes the illuminated matter as the rope it might as well be a body of atoms that eventually transforms into a body of cells That body of cells may be the reality of a snake What we observe and experience in the present is not necessarily the reality This work reveals the blockages that limit our vision's dimensionality and the solutions to be the reality that shapes the eternal present Dr Vipin Gupta has a Ph D in managerial science and applied economics from the Wharton School of the University of Pennsylvania He is a gold medalist from the Post graduate Program of the Indian Institute of Management Ahmedabad India He is a Professor of sensible management and appropriate science at the Jack H Brown College of Business and Public Administration California State University San Bernardino USA **A new paradigm of reality?** Gonzalo Rodríguez-Fraile, 2015-11-04 The vision that culture has historically offered about reality has failed to help humans to live fully or to achieve their potential A knowledge revolution has been taking place in recent years that once it is understood can completely transform human beings offering new solutions to personal and collective problems because their root causes have been identified at last What we now know means that we can understand spiritual truths and their multiple dimensions without abandoning rationality This new vision

is strong enough to put an end to human suffering and boost inner peace which is for what every being human yearns New science sees an intelligent design in the whole Universe Quantum physics has revolutionized our knowledge of reality All scientists are now aware of the quantum enigmas but not everyone agrees on how to interpret them This book offers an interpretation that might explain them and one that is based on the idea of science within consciousness As you read the book it will become evident that this interpretation most closely resembles the vision of reality that both the perennial wisdom of Humanity and the teachings of the great spiritual masters have offered us throughout history The first part of the book outlines briefly what some of the leading thinkers on science and philosophy have to say about reality and how this new vision of the world is converging with what the perennial wisdom of Humanity has been saying throughout our history The second part seeks to explain what can happen to us when we are exposed to this new knowledge and how all of us can change inside ourselves in the light of this information This book aims to unite not divide helping Humanity to raise its level of consciousness allowing us to live a higher quality life in accordance with our spiritual dimension

**The Unknown Reality, Vol 2** Jane Roberts, 2011-07-08 From the Bestselling Author of Seth Speaks In this second volume of The Unknown Reality Seth radically expands our conceptions of self by showing us that the human personality is literally infinite in its scope and potential He discloses precisely how probable realities combine to create our waking lives and how our higher selves make decisions regarding our everyday existence In a far reaching exploration of the dynamics of desire and free will he asserts that each atom molecule and cell has its own consciousness and powers of choice With humor and simple analogies Seth leads us beyond our ordinary level of awareness into a spectacular discovery of the multidimensional nature of the self including Consciousness units as the basis of our universe The relevance of extrasensory perception in understanding our world The worlds we visit in dreams and out of body states Dreaming as a science to create present and future realities Families of consciousness we choose to belong to Practical methods for exploring your own unknown reality There is an unknown reality I am part of it and so are you Each individual is a part of the unknown reality To explore the unknown reality you must venture within your own psyche travel inward through invisible roads as you journey outward on physical ones I hope that in this book the reader can see the greater dimensions that touch ordinary living and sense the psyche's greater magic Jane Roberts Speaking for Seth

If you like this book write a review What is Present Reality Vipin Gupta,2021-02-16 What is present reality is an incredibly profound but straightforward exposition of the limits of science Every scientist wishes that someone will falsify the world crafted using the present body of scientific methods one day One such world comprises the manifold versions of relativity theories measuring  $E = mc^2$  Suppose one deified scientist had not mathematically derived the value of energy in this way In that case today's scientists will not bind their understanding to the light serviced by the deified leader scientist traded and squared by them as a devoted follower Evidently when one conceives energy as  $mc^2$  its value without the presence of the leader deity is zero This landmark work grounded in India's ancient cultural metaphysics challenges the present reality of what we know and believe to be true whether about divinity or spirituality or the universe of objects or subjects or us as a person A unique feature is the precise quantification of the lightless energies of both the present reality as well as the varying paradigms and doctrines working on modifying that It is a part of a series of twelve books that democratizes the ability to understand our present reality beyond those who are experts in modern science and use this understanding for personal as well as societal well being The beta reviewers note This is unbelievable work that would change the way life is seen and lived and Looking forward to this being a massive success Dr Vipin Gupta has a Ph D in managerial science and applied economics from the Wharton School of the University of Pennsylvania He is a gold medalist from the Post graduate Program of the Indian Institute of Management Ahmedabad India He is a Professor of sensible management and appropriate science at the Jack H Brown College of Business and Public Administration California State University San Bernardino USA

is in practice represented by a fixed frequency of time pips occurring within the computer Author notes What I present in chapter 2 of this book concerning the dynamics of the multiverse cannot be described by mathematical equations because the physics isn't available I have relied entirely on logical statements and geometry to produce the Cosmic Blueprint and from a special case of it the Cosmological model Arthur Eddington and Wolfgang Pauli knew that to achieve a complete understanding of our existence one has to include all the unexplained anomalies like precognition along with established physics quantum mechanics particle physics and Einstein's gravity theory Eddington and John W Dunne realized that time would play a major role in tying together all the evidence Dunne's attempts ending in 1955 were invalid due to his deliberate exclusion of the existence of multiple universes He did at least finally confess his spiritual experiences *TIMELINE*
